Lightweight Family Fun

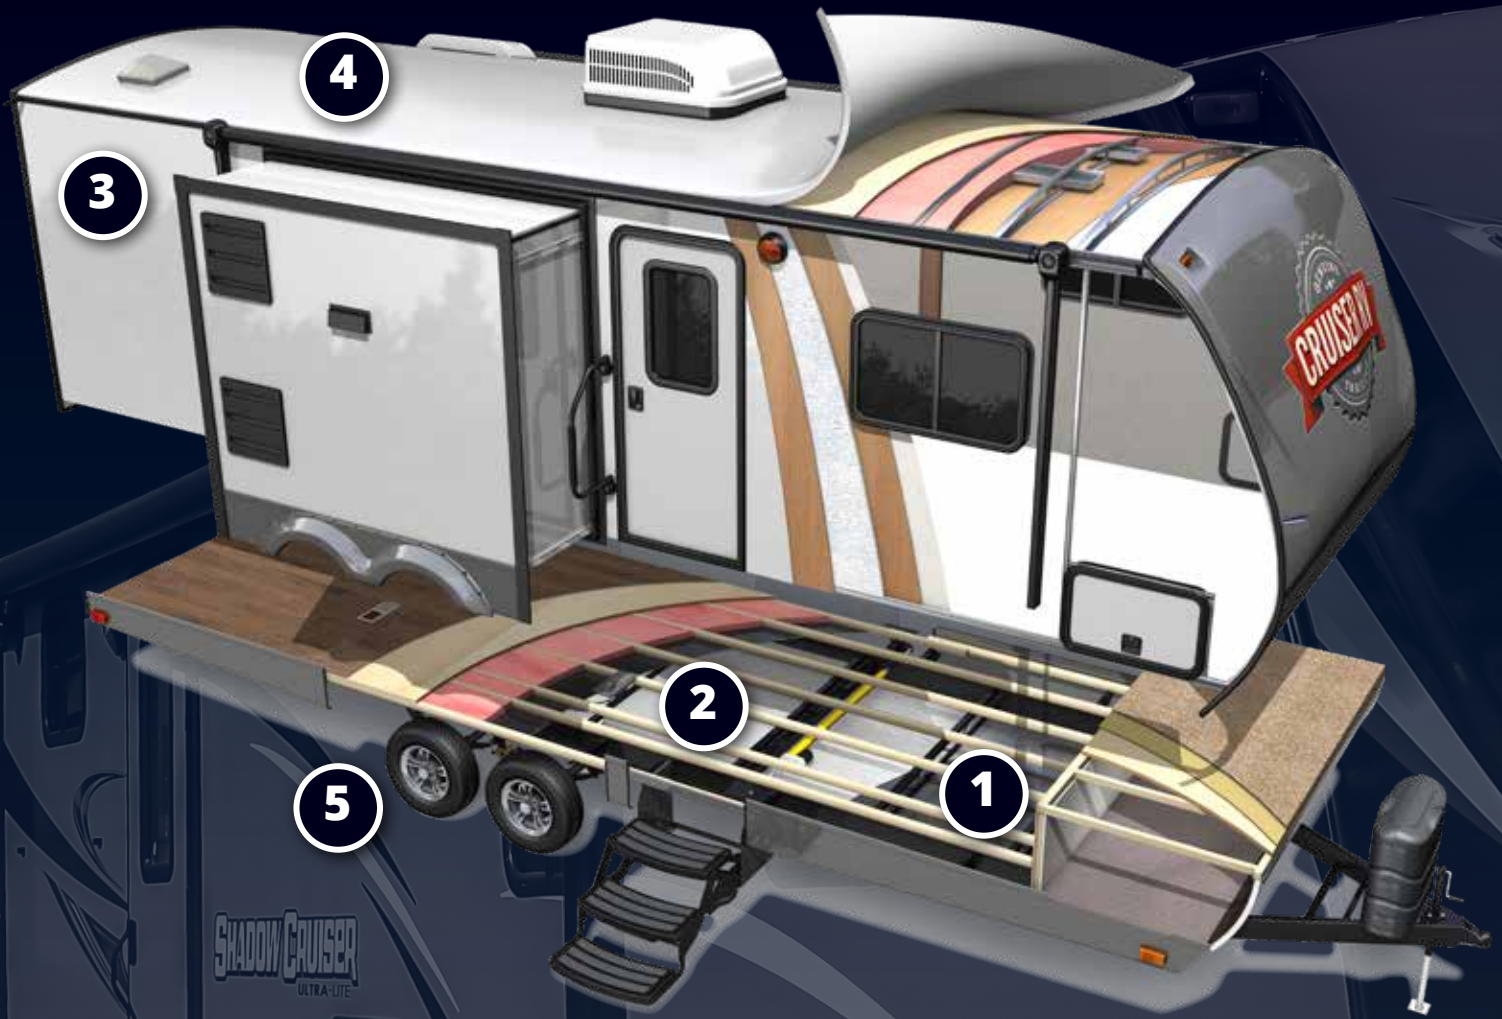

The Shadow Cruiser line is all about family fun! Many of its popular floor plan models feature unique bunkhouse designs for the convenience of sleeping up to 10, yes 10! You'll love how easy these lightweight travel trailers are to tow as well. Because of their aluminum-framed construction, laminated walls and aerodynamic front caps, they are towable by a half-ton truck vs. the heavy-duty vehicles many other RVs require. And did we mention they are affordable even to the budget-minded consumer?

Established in 1988, Cruiser RV, sets the bar high in the fiberglass ultra-lite market. From day one our goal has been to provide a lightweight, feature packed, travel trailer built with quality from the ground up. Innovative floor plans and quality components help ensure our customers enjoy their camping experience with us.

Painted Caps & Diamond Plate

We protect your investment with a painted front cap standard including a durable clear coat and diamond plate metal rock guard on the lower front quarter.

- 15K BTU A/C upgrade
- 50 amp service (some models)
- 2nd 13.5k BTU A/C (requires 50 amp service)
- Power tongue jack
- Power stabilizer Jacks

How We Build Your

SHADOW CRUISER

ULTRA-LITE

1 Foundation

Every Cruiser model offers a coated steel frame engineered precisely for that floor plan. Before the RV gets built we install a fully insulated floor with residential 5/8" tongue & groove plywood. Better material equals a better product and a solid foundation is an integral part of the Cruiser process.

2 Extended Season

Before our insulated floor is secured we install a full layer of Flex Foil insulation in the frame cavity that also lays under the holding tanks. A separate heat duct is ran from our furnace directly to the holding tanks to force heat into that area allowing our products to be used in colder climates.

3 Lamination That Lasts

The Cruiser RV sidewall is created using the latest technologies in lamination. High density block foam insulation with double substrate barrier protection help keep the inside protected from the outside weather.

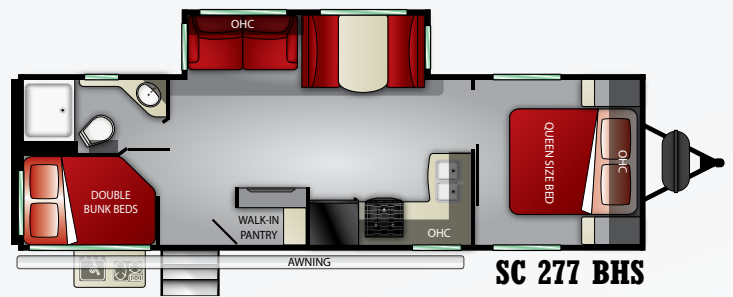

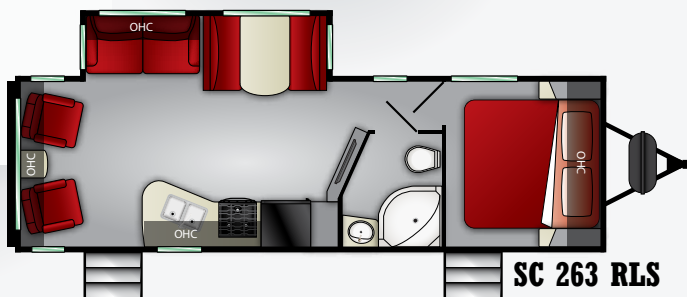

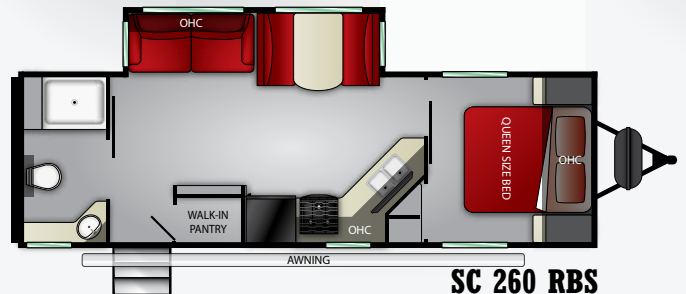

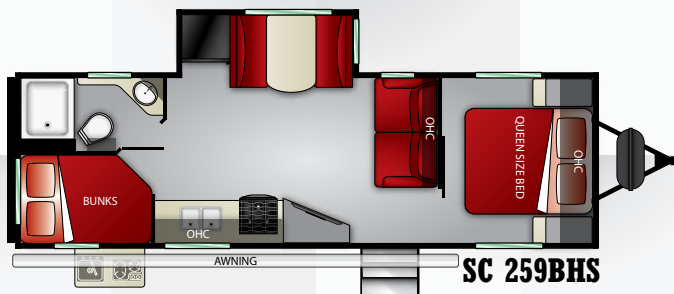

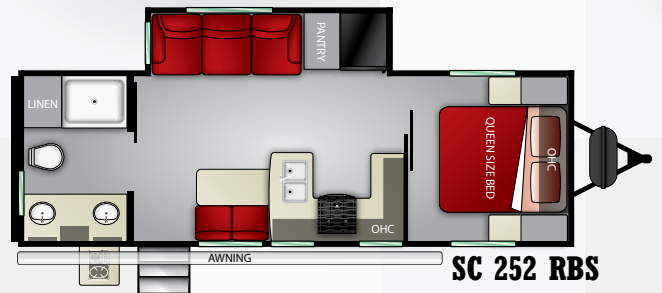

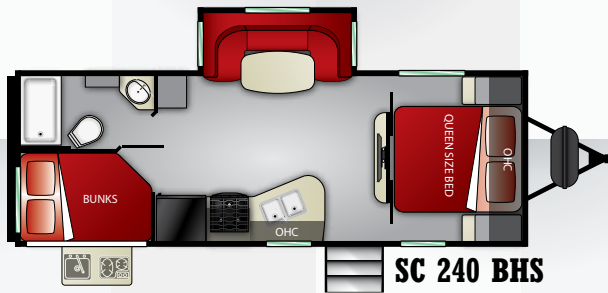

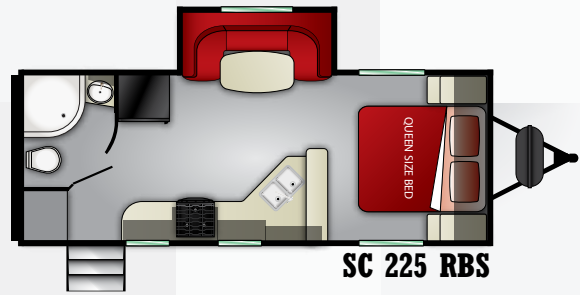

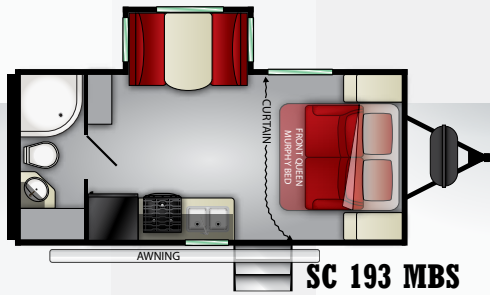

4 Full Walkable Roof

Welded aluminum roof trusses spaced 16" on center front to back allow us to offer you a stronger and fully walkable roof. Dual A/C ducts are ran to offer better distribution of A/C throughout the inside. Residential insulation is then laid on top of those A/C ducts allowing the air to stay cooler as it enters your living space. A 3/8" overlayment is then secured on top before its finished with our durable roof material.

5 Heavy Duty Components

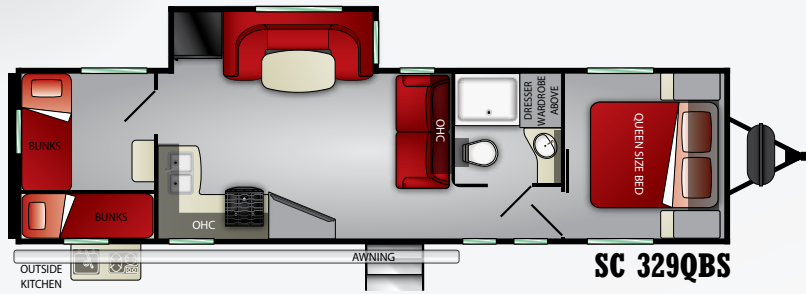

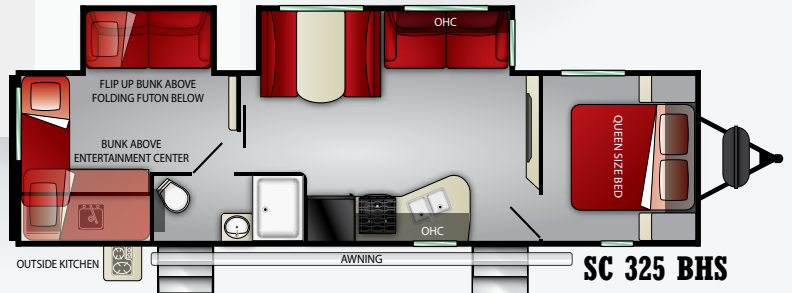

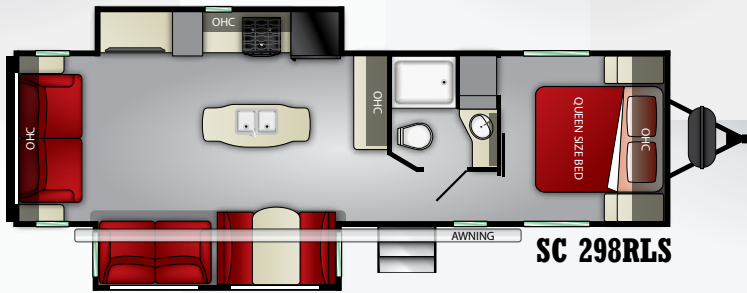

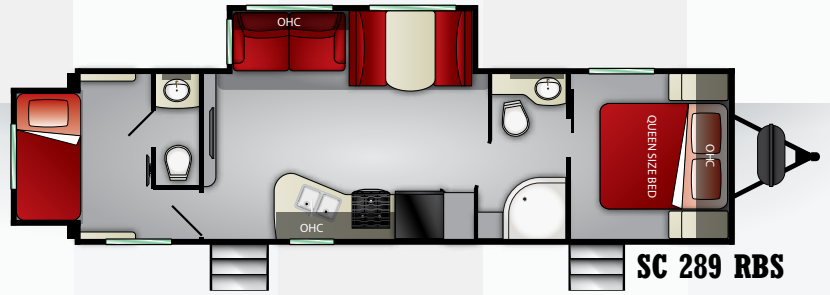

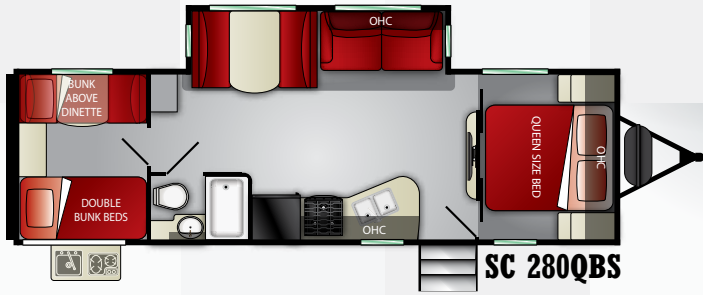

Throughout the RV you will find heavy duty components designed to give our customers lower maintenance, better longevity, and more reliability. You can't build quality unless you use the proper materials. You will find Dexter Axles, heavy duty tires with aluminum rims, under every Cruiser RV unit to ensure safety and comfort when traveling or set up at your favorite campsite.

BENEFITS OF PURCHASING YOUR RV LOCALLY:

- You enjoy valuable relationship building with Dealer Representatives, close to your home, who will explain the features and benefits of the product.
- You receive a full product orientation prior to delivery, which includes hands-on directions for many of the coach's systems and functions. You are also introduced to the Dealership's Service/Parts/Warranty personnel who are ready to help you with any issues you may encounter, now and in the future.
- Valuable TAX dollars and jobs stay in YOUR community which pays for your roads, schools, police and fire departments.

DON'T UNDERESTIMATE CUSTOMER SERVICE AND PERSONAL CARE!

For Canadian Residents: If you purchase an RV out-of-country, there are additional fees, taxes and inspections that must be met before bringing your product home. Your local Canadian dealers are experts in these provisions.

**DEDICATED
PRE-DELIVERY
INSPECTION FACILITY**

A team of highly trained professionals thoroughly inspect Cruiser RVs from fit & finish to testing every component so when they reach our valued dealer it is ready to go. We care about the quality of our customer's experience and have spent lots of resources to ensure they get a product they can rely on.

Product information is as accurate as possible as of the date of publication of this brochure. Due to Cruiser RV's commitment to continuous product improvement - floorplans, materials, components, features, measurements, specifications, options, etc. are subject to change at any time without notice or obligation. In certain conditions some additional equipment may be needed. Photos may show optional equipment or props used for photography purposes only.

Cruiser RV has listed the approximate base weight of the trailer without the option equipment included. Optional equipment will impact the weight of the trailer. Please locate the weight sticker attached to the trailer you are considering for the most accurate trailer weight.

Tow Vehicle Caution: Owners of Cruiser recreational vehicles are solely responsible for the selection and proper use of tow vehicles. All customers should consult with a motor vehicle manufacturer or their dealer concerning the purchase and use of suitable tow vehicles for Cruiser RV products. Cruiser RV disclaims any liability or damages suffered as a result of the selection, operation, use or misuse of a tow vehicle. Cruiser RV's limited warranty does not cover damage to the recreational vehicle or the tow vehicle as a result of the selection of the tow vehicle.
