# **FLAR** CLASS A GAS

LASTING DEPENDABILITY | FAMILY FAVORITE | FEATURE PACKED

# THE PERFECT FIT

The Fleetwood classic just got a makeover. Not just redesigned, the 2019 Flair features top-to-bottom changes to make first-time Class A owners feel like long-time professionals. With your choice of five modern floorplans, this Class A Gas is spacious, comfortable and ready for the open road with a 600-lb. capacity Hide-A-Loft<sup>™</sup> drop down queen bed, soft-touch ceilings, a heated wet-bay, and a low profile, modern front cap. But, that's just the beginning. The 2019 Flair also brings a host of practical features, such as 50-amp service, a 15K-BTU ducted A/C, enclosed and heated holding tanks, and pass-thru storage.

# YOU WANT EVERY SINGLE **ADVANTAGE WHEN IT COMES** TO YOUR RV.

At REV, we don't settle for anything less than the best, and neither should you. That's why every Fleetwood RV motorhome features industry-leading materials and construction. With these REV brands, you'll also find the ultimate in RV convenience and strength, like our auto hydraulic leveling system, Vacu-Bond<sup>™</sup> construction, Dryseal<sup>™</sup> edge coating, and much more – all coming standard to elevate your travels.

Each of these advantages have been engineered to deliver superior reliability, durability, and most of all, customer satisfaction.

# Five Layer Wall

Our Vacu-Bond<sup>™</sup> walls feature an adhesive bonding process that applies up to 415,000-pounds of vacuum pressure to the welded-aluminum sidewall frame, bead-foam panel insulation, and Tuff-Coat fiberglass skin for more than 30 minutes – far exceeding industry standards.

#### Weld Joint Every joint found in the frame of your Fleetwood motorhome has been welded by a certified welder to add strength to the frame, unlike the stick and nail construction found on

## 7. Drvseal<sup>™</sup> Edge Coating

This water-wicking coating is applied to every edge of the walls and windows More reliable than electric leveling jacks, our automatic hydraulic leveling for long-lasting durability. It helps to seal out moisture, prevent delamination, swelling, and mold.

#### 8. Tuff-Coat Fiberglass Walls

REV RV seeks to use the highest quality exterior fiberglass on our Class A gas and Class A diesel products. The impressive tuff-coat fiberglass skin is extremely weather resistant and UV resistant. Most importantly, there is no wood substrate on the exterior of the REV Class A products. Delamination is a major concern for manufacturers using the composite or wood backer in their walls. Not at REV RV, our exterior skin has no composite and no wood, just the fiberglass.

#### 9. Tuff-Ply Engineered Vinyl Roofing

As the name implies, this "Tuff-Ply" or Thermoplastic Poly Olefin is as tough as it comes and is very low maintenance. Tuff-Ply is flexible, pliable and easily conforms with the roofline radius with little to no stress at the awning rail connection seam. Tuff-Ply is a clean, non-streaking, non-chalking engineered vinyl material that is easy to maintain.

#### 10. Tuff-PEX<sup>™</sup> Plumbing System

It's a complete system of flexible, yet durable, Oetiker tubing, fittings, and stainless-steel rings - all with sub-zero ratings. Colors of red for hot and blue for cold make servicing simple.

#### 11. Tapered Slideout Box Tops

Our slideouts include a tapered roofline that directs water away from the RV to provide an additional level of moisture protection. There are also multiple beadseals, as well as our debris awning protection.

#### 12. Seamless Metallic Slide Room Underbelly

What's underneath is just as important as what's on top. Our metallic slide bottom goes above the standard wood bottom for protection against the elements, and adds yet another level of durability.

## 13. Roto-Cast Molded Luggage Bays

Instead of the industry-standard plywood, these molded bays are more durable, look great, and can be washed with a hose.

#### 14. Dedicated Full-Length Metallic A/C Ducting

Instead of cut-out foam channels, REV provides insulated A/C ducting that runs the entire length of your motorhome with carefully placed outlets in the most occupied places to assure cool comfort.

#### 15. Sure-Glide Flush Floor Aluminum Slide Transition Ramp

Pinewood ramps that absorb moisture, crack and rot are the industry standard. Not here! Our aluminum ramps will stay straight, extend and retract easily, and will provide you with years of trouble-free operation.

#### 16. Automotive Inspired Bonded Windshield

REV's dealer relationship goes beyond the expected. We listen to our dealers and are able to provide you with a motorhome you can be proud to own and that REV RV's bonded windshields surpass the standard "floating" windshield in durability. The entire perimeter of glass is bonded to a frame that provides more fits your needs. This partnership allows the dealer to be a bridge between the customer and REV Group. support and is much more conducive to the demands of the road.

#### 17. Pass-Through Storage

We far exceed the industry standards of exposed seals and hinges with a more durable design taken from our luxury motor coaches.

#### **1. Power Platform<sup>™</sup>** (Gas Motorhomes)

Designed to deliver the best in storage, strength, balance and control, the exclusive Power Platform provides a significant enhancement to the Ford® drivetrain.

#### 2. Auto Hydraulic Leveling System

system is reliable, durable and easy to use. The operating procedure is clean and easy, the results are smooth, simple leveling at the push of a button.

#### 3. Powerlock System™

#### (Interlocking Walls and Ceiling)

REV's interlocking aluminum extrusion wall-joint system integrates sidewall and roof assembly into one locked-together overall structure for long-term performance and durability.

#### 4. Powerframe System"

#### (Precision-Welded Aluminum Walls, Floor, and Roof Structures)

Our wall and roof frames are designed and engineered to fit precisely with interlocking extrusions on the steel-reinforced bridge structure. No "hammer-itto-fit" stick and frame construction here.

#### 5. Vacu-Bond<sup>™</sup> Construction

Vacuum-bonded assemblies combine industry-leading materials and construction for a straight and flat integrated wall that's better suited to the rigors of the road. It applies up to 415,000-pounds of vacuum pressure to our already strong weldedaluminum sidewall frame, bead-foam panel insulation, Tuff-Coat fiberglass skin, and inner wall materials for over 30 minutes – far exceeding industry standards.

#### 6. Solid Bead-Foam Engineered Fit Insulation™

In some RVs, you may find air holes in the insulation. Not in a REV RV. Using exact measurements, bead-foam is placed between every structural support to eliminate any gaps and provide insulation from both exterior temperature and noise.

#### **Ceiling Interlock**

You won't find stick and frame construction here. Our exclusive extruded aluminum allows the ceiling to "lock" with the wall structure, creating one solid aluminum assembly.

#### 18. Premium Paint

Just like the cars, trucks, motorcycles and most any other automotive product produced today, our motorhomes receive the same premium painted protection on the exterior. Our REV RV family of Class A motorhomes are painted and clear coat protected in a state-of-the-art facility located right on the REV manufacturing campus. The results are easy to see....Better protection, better looks, and higher resale value after years of enjoyment.

#### 19. Radiused and Cambered Entry Door

The industry standard square corner door allows for too much wind noise. So, we use a higher-end solution that fits your motorcoach's body better, latches more securely, and seals tighter.

#### 20. Hide-A-Loft<sup>™</sup> Overhead Bed System

A REV RV exclusive, our Hide-A-Loft<sup>™</sup> Bed System offers a capacity of up to 600 lbs and includes a gueen mattress which is incredibly comfortable and easy to operate.

#### 21. Dealer Partnership

wn in River Mist Partial Paint

# TOP SELLING FEATURES

- Low profile modern design front cap
- Clean bright oyster exterior
- 50 AMP service
- 15K BTU ducted air conditioner
- Hide-A-Loft<sup>™</sup> drop down queen bed w/600lb capacity and industry leading headroom
- 50" exterior TV
- Electric entry step
- Doggy/safety window

- Heated wet-bay
- Soft-touch ceilings
- 1.7 cu/ft microwave
- Porcelain toilet
- Auto generator start (N/A 28A)

Below, you'll find the closest motorhome service center, as well as a list of the other centers. Please visit www.fleetwoodrv.com/ motorhome-service-centers to schedule a Service Appointment.

West Coast REV Technical Center 877-466-6226

### **ROADSIDE ASSISTANCE. ANYWHERE. ANYTIME.**

24/7 CUSTOMER SUPPORT FOR: • FUEL TOWING BATTERY SLIDE-OUT ISSUES

 LOCKSMITH • AND MUCH MORE!

# 1-855-268-0414

Fleetwood RV is part of REV Recreation Group, a division of REV Group, Inc., a family of 33 industry-leading motor vehicle brands. At REV Group, we innovate, design and build products that connect and protect thousands of people every day—our trusted vehicles are engineered with the utmost rigor and precision to deliver the highest levels of performance, reliability, durability and safety.

#### DISCLAIMERS

1. GVWR (Gross Vehicle Weight Rating) is the maximum permissible weight of this fully loaded motor home. The GVWR is equal to or greater than the sum of the (UVW) unloaded vehicle weight plus the (OCCC) occupant cargo-carrying capacity. 2. GAWR (Gross Axle Weight Rating) is the maximum permissible loaded weight a specific axle is designed to carry.

capacities may be different. Refer to Fleetwood and chassis manufacturer's manuals for complete information.

4. Length measured from front bumper to rear bumper (excludes accessories).

5. Excludes safety equipment and awnings.

6. Motor homes feature a body width over 96" which will restrict your access to certain roads. Before purchasing, you should research any state and/or province road laws which may affect your usage. 7. Tank manufacturer's listed water capacity (WC). Actual propane capacity is 80% of water listing as required by the safety code.

† The chassis manufacturer recommends the installation of a supplemental brake control system to activate the brakes on the vehicle or trailer you are towing. Hitch receiver ratings expressed are maximum for the hitch receiver installed and may require the purchase of additional equipment that is dependent on the weight of the towed load. Consult with hitch receiver manufacturer for further information.

 $^{\star}$  UVW and OCCC are found on the label containing the federal certification tag in each RV.

\*\*\* All 2019 REV Recreation Group motorhomes include a limited one year/15,000-mile coach warranty and three-year/45,000-mile structural warranty, whichever occurs first, and is fully

#### FLEETWOOD MOTORHOME ASSOCIATION

As a Fleetwood RV owner, you're invited to become a member of the Fleetwood Motorhome Association (FMA). Becoming a member is the perfect way to meet other Fleetwood owners who love to travel across America and share in the RV lifestyle. Visit the FMA website at www.fma4fun.org to learn more and join the fun.

#### CONTACT US
