**Small cars**

**Three-wheelers**

**Motorcycles**

Recognized as the leader of the mini-travel trailer, the HE3 is perfect for small cars, hybrid and electric cars (EV), motorcycles, three-wheelers and ATV. From 389 lb, the HE3 is the lightest on the market thanks to its 100% monocoque fiberglass molded body (Gel Coat) on an aluminum frame. With improved aerodynamics and increased stability in any situation on the road or on the trail, it sure to become an essential asset to get away from everyday life. With your HÉLIO HE3 mini-trailer, you can leave for a longer journey and without any hassle.
