ALUMINUM TOY HAULER

# ALUMINUM TOY HAULER

## ALL-ALUMINUM FRAME CONSTRUCTION

Weather resistant, all-aluminum frame eliminates rust and rot. Our aluminum extrusion design allows for an integrated welded frame that pound for pound is 1.9 times stronger than industry standard steel.

## AMPLE CARRYING CAPACITY

Our curb weight is light, but our structure is tough; our carrying capacity is industry leading. Take multiple toys on the same trip.

## EASY TO CLEAN

Make clean-up an afterthought. Simply hose out the interior after a weekend of play.

## BUILT FOR YOUR TOYS

Our toy haulers come with a standard 17" ground height that can be upgraded to fit your needs. Loading your biggest, baddest toys has never been easier.
