MODEL YEAR 2019 L-CLASS • MODEL YEAR 2019 E-CLASS

***No one can tell the Barletta story better than our Barletta family...***

Bill Fenech,  
President & Co-Owner

Our focus at Barletta Pontoon Boats will always be on you and how we can make our product and your experience better.

Faced with the decision to either spend money on huge, multi-page catalogs that go obsolete as soon as they are printed, or to spend money where it matters - **on our pontoon boats** - the choice was simple. We chose to invest in our boats. Each and every component of our boats has been a conscious decision with you and your family's on-water experience in mind. Our website will be able to provide you the most accurate and up-to-date information about our company and our pontoon boats.

We are building pontoon boats that will change the industry... and would be honored to welcome you to the Barletta Pontoon Boat family.

## The Barletta Commitment to You

**Customer Focus** - From day one, our focus has been on you and will remain on you, the customer. In everything we do at Barletta Pontoon Boats, we ask ourselves **"How can we make your experience better?"** In every interaction, you will appreciate our commitment to honesty, integrity, and you, our customer. We strive for nothing less than customers for **"LIFE."**

**Experienced Boat-Builders** - Over 150 years of RV/Marine experience and a local production team with an excellent reputation for quality craftsmanship. We've sifted through hundreds of resumes and applications to hand-pick the best-of-the-best. We believe you'll see the results in our pontoon boats.

**Simple, Yet Refined Products** - From the keel up, we have designed our boats with your experience in mind. We've taken advantage of every opportunity to simplify the process of building and purchasing a pontoon boat. Items that **SHOULD** be standard on a pontoon boat, **ARE** standard on a Barletta Pontoon Boat. In fact, Barletta Pontoon Boats have the most standard amenities in the industry.

**Quality & Construction** - We have selected the best materials, with the best value, and have partnered with the best providers. On top of that, our pontoon boats are backed with a **Limited-Lifetime Structural Warranty** and a **10 YEAR (5+5) Bow to Stern** warranty.

**Raising the Quality Bar** - During the production process, Barletta Pontoon Boats must pass through a series of quality control "toll-gates." Each and every team member takes personal pride in the product we are building. Once the boat has cleared production, before it is cleared for shipping, Barletta Pontoon Boats are sent to an independent **White Glove Pre-Delivery Inspection (PDI)** department. Our White Glove team will fully **RE-INSPECT** every inch of our boat for aesthetic and functional imperfections. Only until our boat passes **EVERY** quality check, will it then be released for shipping to the dealer, and eventually to you. **No one in the marine industry does this!**

**The Best Dealers in the Industry** - We commit to partnering with only the best dealers in the industry - dealers who will meet or exceed not only our expectations of customer service, but your expectations as well.

**Unequaled Customer Service** - Let's be honest - "stuff" happens. As you know, sometimes it's not the "stuff" that we are measured on, but how we react. We will work hand-in-hand with you and your dealer to do everything in our power to ensure you and your family never miss time on the water due to a parts or warranty issue. In addition, we are developing a **Customer Resource Center** to help you with those minor issues that might pop-up while enjoying your Barletta Pontoon Boat.

*I'm not sure what you guys have done that is so different than everyone else in the industry -- but whatever it is, **KEEP DOING IT!** The ride of your boats is so smooth, so quiet -- it's **MAGICAL!***

*I just took my first ride in a Barletta. I'm more than impressed. If you want a solid, quiet, well-mannered luxury pontoon boat... **BARLETTA.***

*Extremely solid boat, no deck or fence flex, turned awesome, quiet...**WELL DONE!***

*Had another brand pontoon for 8 years and it was a good boat but this one is a **GREAT BOAT!!** Twin power bimini tops, huge back deck, multi-position rear seat that you can sit or lay on, BlackOut trim that draws attention everywhere we go, gorgeous seats, superb Captain's helm with lots of room.  
**GREAT JOB BARLETTA TEAM!***

*I spent my first of 2 days on a Barletta 23 with a 300 yesterday. The water was extremely ruff being the 4th of July. It truly runs smoother than any 23 to 25 ft fiberglass boat I have ever driven in rough water. 47.3 MPH out of the box with only 30 minutes on the motor, 4 people on board, full of fuel, instant hole shot, immediately on plane, unbelievably quiet. As a prior off shore boat racer I am in to speed and handling. I can't tell you how exhilarating, fast, and great handling this boat is to drive. You have made me a believer! This is not your Grandfathers pontoon boat...**WHAT A BLAST!***

*It's **AMAZING!** Smoothest boat I have been on. Had a chance to run it wide-open in calm water and 2.5 foot chop. Handled both **REALLY** well. You built a great boat, and should be very proud of the product!*

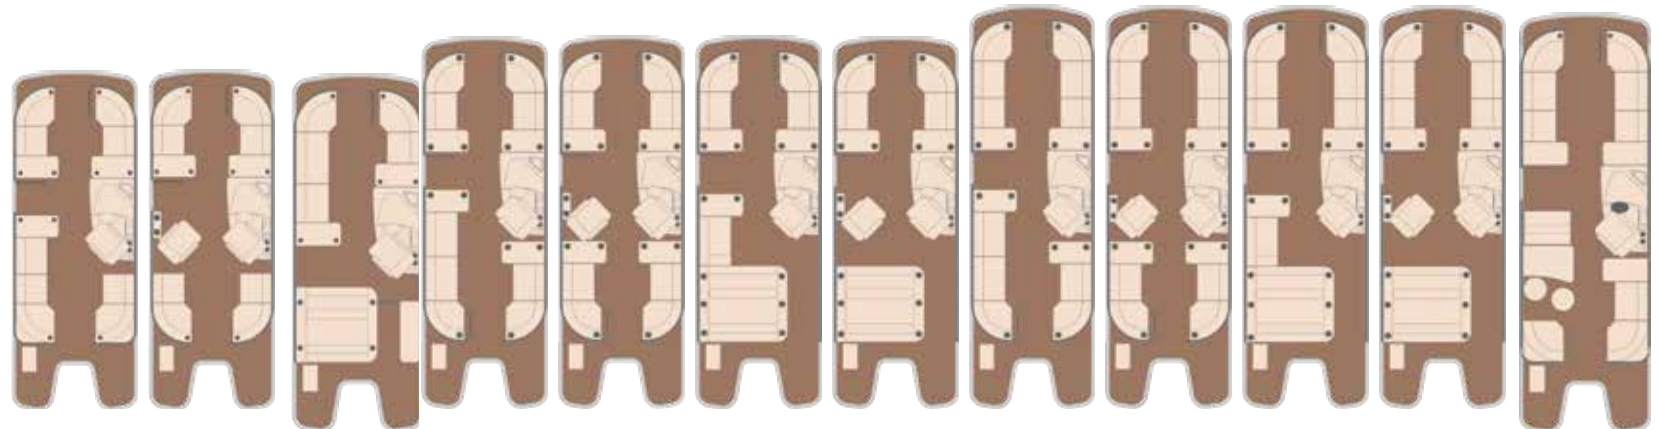

*We are **SO** excited about Barletta. You guys are doing it right!*

## Barletta Pontoon Boat L-Class (LUXURY)...What You Need to Know

- 26" Pontoon Tubes with Extruded Splash Fins and Solid Keel Strips
