TRAVEL TRAILERS

Over 40 Years of Excellence

FROM HUMBLE BEGINNINGS, ROCKWOOD HAS EMERGED AS AN INDUSTRY LEADER IN THE MANUFACTURING OF LIGHT WEIGHT TRAVEL TRAILERS, FIFTH WHEELS AND CAMPING TRAILERS.

Located in Millersburg, IN since 1974, Rockwood has been supported by this community and the local families residing there. These families have helped provide the hundreds of workers that have brought their dedication to quality workmanship, respect for their fellow workers and a commitment to an uncompromising work ethic to make a major contribution to this company's success. Founded on the principle of providing superior value and service while remaining in tune with customer's preferences, Rockwood has become the ultimate luxury product in the light weight trailer market, proudly showcasing more innovative floor plans, appealing features and refined interior appointments than any others in its class.

TODAY, ROCKWOOD REMAINS COMMITTED TO INSURING THAT OUR CUSTOMERS ENJOY THEIR CAMPING EXPERIENCES.

Through the utilization of our experienced work force, "state of the art" lamination facility, modern production plants and detailed assembly processes our aim is to continue to provide our customers with the best built product possible at an unmatched value.

ROCKWOOD

ROO

231KSS

MAKING YOUR INVESTMENT GO A LONG WAY. Rockwood takes pride in packing the most value possible into our Roo series. With a wide variety of floorplans available and built in standards, we are sure you will find a Rockwood Roo that fits your needs.

ROCKWOOD

QUALITY CONSTRUCTION

THE DETAILS ARE WHAT MAKE ALL THE DIFFERENCE. Rockwood takes pride in constructing the very best products possible in each price point. From our entry level units to our top of the line products, no short cuts are taken to achieve excellence. From the all-steel I-beams to the residential interior amenities to the vacuum-bonded exteriors, Rockwood products are quality built from the ground-up.

- A** Glued and screwed wood cabinetry
- B** Aluminum dinette frames for added strength and weight savings
- C** 5/8" tongue and groove plywood glued and screwed to aluminum framing.
- D** Extra large dinette storage drawers and full extension metal drawer guides in the kitchen
- E** Dexter Torflex Axles:
 - Independent wheel suspension and self-damping action
 - Rubber cushioning eliminates metal-to-metal contact.
 - Forged torsion arm for maximum strength
- Models are also equipped with E-Z Lube® System and Nev-R-Adjust® Brakes.
- F** Standard under belly to protect trailer components as well as increasing aerodynamics
- G** Aluminum Frame Construction with high gloss fiberglass exterior and deluxe graphics

ROOF CONSTRUCTION

4" thick vacuum-bonded radius rood with built in insulated A/C ducts and vaulted ceiling providing superior insulation and more interior height.

INSPECTION

Rigorous aesthetic and full functional testing performed on every trailer produced

VACUUM-BONDED LAMINATED CONSTRUCTION

Rockwood is one of only a few manufacturers with six sided aluminum framing. Vacuum bonded walls and roof to ensure a well-insulated, light weight, strong structural trailer.

CLIMATE PROTECTION

Heated holding tanks, enclosed underbelly's, larger furnaces and a radiant foil barrier in the underbelly, front cap and slide-out floors lead to a better insulated more comfortable coach year-round. (Heat pads std. Signature and Ultra Lite and opt. on Mini & Roo).

WALL STRENGTH

Structurally engineered materials makes our vacuum-bonded walls some of the strongest in the industry.

Look for our other popular lines of Rockwood camping trailers.

Specification Definitions

GVWR (Gross Vehicle Weight Rating) - is the maximum permissible weight of the unit when fully loaded. It includes all weights, inclusive of all fluids, cargo, optional equipment and accessories. For safety and product performance do NOT exceed the GVWR.

GAWR (Gross Axle Weight Rating) - is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by a combination of all axles.

UVW (Unloaded Vehicle Weight)* - is the typical weight of the unit as manufactured at the factory. It includes all weight at the unit's axle(s) and tongue or pin and LP Gas. The UVW does not include cargo, fresh potable water, additional optional equipment or dealer installed accessories.

*Estimated average based on standard build optional equipment.

CCC (Cargo Carrying Capacity)** - is the amount of weight available for fresh potable water, cargo, additional optional equipment and accessories. CCC is equal to GVWR minus UVW. Available CCC should accommodate fresh potable water (8.3 lbs per gallon). Before filling the fresh water tank, empty the black and gray tanks to provide for more cargo capacity.

** Estimated average based on standard build optional equipment

Each Forest River RV is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every Forest River RV prior to leaving our facilities.

The load capacity of your unit is designated by weight, not by volume, so you cannot necessarily use all available space when loading your unit.

Rockwood Warranty. Our Promise.

FOR DETAILS ON ROCKWOOD'S COMPLETE WARRANTY PROGRAM, SEE YOUR ROCKWOOD DEALER. When it comes to backing products with the same quality and commitment it does when it begins the manufacturing process, the only name you have to remember when you're looking for a recreational vehicle is Rockwood. Rockwood offers the following additional limited warranties to the original purchasers. Consult written warranty for details.

1. Twelve-year vinyl roof warranty.
2. Two-year fiberglass warranty.
3. Ten-year Torflex® axle warranty.
4. One-year bumper to bumper warranty.
5. Five-year tent warranty.
