Who is
Riverside RV?

The Story behind the Retros

In the most turbulent financial crisis since the 1920s in 2008 Riverside RV Inc had its beginnings. In the backyard shed on US 20 close to LaGrange Indiana, the entrepreneurs began building trailers. Since the location is in the middle of Amish country, it has an Amish driven workmanship; with a high percentage of Amish employed in production.

While we all like to think with nostalgia at the "good old days", we do prefer modern conveniences that we are accustomed to using daily. How can we combine the two? Retro! The look of yesterday with the modern conveniences of today.

In 2012, Riverside was busting at the seams, desperately needing more space as it continued to grow, the business was relocated to east of LaGrange. Growth took Riverside from a 50'x125' building to a 150,000 sq. ft building.
