90 SECONDS

TO INFLATE

THE SAME TOUGH LUXURY, IN A SMALLER PACKAGE

OP LITE is the latest design from OPUS that packs all our most popular features into our most compact design yet. The OP LITE is rugged, versatile and engineered with features that make it easy to pack-in and pack-out of any campsite. Built for tight, low profile towing, the OP LITE is almost 400lbs lighter than our next smallest trailer and the design provides all around visibility, making it easy to tow through the most narrow terrains, even with a family SUV or Jeep.

Once you've reached your destination for the night, the OP LITE expands into a fully functioning off-grid home with a huge open living space, 8' high ceilings and 6 large windows, a practical slide-out kitchen with a 4-burner stove, 12 V fridge, running water and power.

INSPIRED BY WEEKEND WARRIORS

The OP LITE features OPUS' revolutionary AIR OPUS inflation system which effortlessly inflates your tent in less than 90 seconds, meaning you spend less time setting up and more time having fun. With the optional OP LITE custom designed AIR Annex that doubles your living space the AIR system provides a light, bright and spacious set-up whilst still packing away into a compact, off-road ready trailer.

Inspired by the weekend warriors, who want to work less and adventure more. Less preparation. Less baggage. Less set-up. Less pack-down. Less weight.

OP LITE MSRP starting at \$19,900 for 2020 models.

** Optional ZAMP Solar Panel to extend your trip priced at \$663*

"THE OPUS IS BUILT WAAAY BETTER THAN ANY OTHER TENT TRAILER OUT THERE. BUILT TO LAST. IT'S EXTREMELY WELL THOUGHT OUT AND ENGINEERED. NOT TO MENTION IF YOUR VEHICLE CAN GET THERE, SO CAN THE OPUS. - ADAM C.

OFF-ROAD READY

FITTED WITH THE SAME BEEFED-UP INDEPENDENT SUSPENSION SYSTEM AS THE OP4 + OP15, THE OP LITE HAS BEEN ENGINEERED TO GO ANYWHERE YOUR 4WD VEHICLE CAN GO.

GALVANIZED STEEL CHASSIS

AXEL LESS

LOCK'N'ROLL
HITCH

OPUS OFF-ROAD FEATURES

An articulating hitch sits at the end of a galvanized steel chassis to tackle the roughest roads with ease. Underneath there are twin shock absorbers and trailing arm independent suspension for each wheel. The Lock'N'Roll hitch partnered with the suspension system makes the OP LITE an incredibly versatile trailer. The hitch rotates a full 360 degrees so your tow vehicle can be angled in any direction without damage.

COMES FITTED WITH:

- Lock'N'Roll Articulating hitch lets you drive away with confidence
- Equipped with 2 all-terrain tires
- Spare tire as standard
- Independent Trailing Arm Coil Suspension With Dual Shock Absorbers
- Front rock guard to protect from damage & debris
- Underbody armor with diamond plating to navigate over rocky terrains
- Rear departure angle for added clearance
- Electric Break w/ Standard 7 PIN Plug

OFF-GRID

The OP LITE comes fitted with all the features you need to camp off-grid for up to 2 days:

GET AWAY FROM IT ALL

- 20lb Propane Tank Holder to supply your stove
- 20 Gallon Water Tank with 12v pump to supply water to your kitchen sink
- 1 x 100A Battery to power your AIR pump, lights and 12v outlets
- Solar Panel Port to pair with an optional solar panel to keep your batteries trickle-charged

BRING YOUR GEAR

With large exterior storage compartments and a full width rear storage with access points, the OP LITE has plenty of storage space for your off-grid trip.

An aerial photograph of a campsite nestled in a dense green forest. A large, light-colored tent is pitched on a cleared patch of ground. Nearby, there's a smaller tent and some camping gear. A river flows along the bottom of the frame, with fallen tree trunks partially submerged in the water.

A TRUE OVERLANDING COMPANION, THE OP LITE IS DESIGNED TO SUSTAIN YOU OFF-GRID FOR UP TO 2 DAYS.

TAKE ON THE OZARKS

"I DO A LOT OF OFF-ROAD CAMPING. HAVING A TRAILER CAPABLE OF NAVIGATING THOSE TRAILS MADE THE DECISION MUCH EASIER." - CHAD T.

"THE OFF-ROAD CAPABILITY AND RUGGED DESIGN ALLOWS ME TO GO OFF THE BEATEN PATH WITHOUT WORRIES." - TROY L.

OUTDOOR COOKING EXPERIENCE

“FROM THE PERSPECTIVE OF THE PERSON WHO USES THE KITCHEN PORTION THE MOST; THE **OPUS** KITCHEN IS BEYOND A STEP ABOVE WHAT WE SAW AVAILABLE ON OTHER OPTIONS. AND I WANT TO BE WITH EVERYONE WHILE I’M COOKING, NOT COOPED UP IN A POP UP WHERE NOBODY IS HANGING OUT. IT’S THE ULTIMATE ‘OPEN CONCEPT’” - CHARMAGNE C.

SLIDE-OUT KITCHEN

The OP LITE features our signature outdoor slide-out stainless steel kitchen to make sure you don't miss a moment of fun whilst you're cooking up a delicious meal after a hard day of adventuring! Features of the OP LITE outdoor kitchen include:

- 4 burner stove including one dual power burner
- 12 V fridge/ freezer
- Sink with running water
- LED Lights for cooking
- Food and supply storage

INTERIOR LUXURY

At OPUS our design motto is “Tough Luxury”; our rugged, off-road trailers open into beautiful, spacious and light off-grid living spaces and the OP LITE is no exception. Our patented AIRTent technology provides the capability to achieve 8 foot ceilings and large operable windows for optimal ventilation and uninterrupted views so you never feel cramped or crowded in your tent, even when it packs into such a compact trailer.

Adding to the glamping experience are features such as the large bed, deep blue leatherette club lounge with removable table, LED Ceiling & Floor Lights, 12v outlets and 120v outlets (if connected to shore power) and stereo with speakers as standard.

INTERIOR FEATURES:

- LED lighting
- Large windows with screens
- Removable table
- 12 V outlet
- 120 V (requires 30amp shore power)
- Deep blue leatherette seating & thick stitching
- RV queen size bed
- Sleeps 2 adults
- Stereo system with speakers

“THE CONVENIENCE OF PUSHING A BUTTON TO
ERECT THE CAMPER WITH AIR IS SIMPLY GENIUS
AND MAKES CAMPING ACCESSIBLE TO EVERYONE”
GOOD DESIGN AWARD, 2017

AIR BEAM DURABILITY

Not only is each AIR beam isolated for protection from deflation, but we've engineered the AIR tubes with triple layer durability. Tested with a helicopter for extreme winds, a fire truck water hose for harsh rain, and for those concerned about the tent's fragility, we took a baseball bat and kitchen knife to it for puncture durability. Oh, and for good measure, we ran a truck over the air beams.

AIR TENT TECHNOLOGY

Your vacation time is precious and should be spent doing the things you love. That's why we developed our multi-award winning AIR OPUS inflating tent system for a fast and effortless set-up to get you hiking, kayaking, climbing, barbecuing, relaxing faster and longer.

This revolutionary system helps to get you from arrival at camp to fully pitched in just 5 minutes meaning you can take your camper for even the shortest trips. Then, when its time to pack up and head out the AIR tent inflates in less than a minute and easily folds away inside your trailer so that you can enjoy every last minute of your adventure.

The AIR inflation system runs off the 12v electric air compressor installed in your OP LITE and is connected to your control panel so that you can inflate it at the touch of a button. The tent takes just 90 seconds to inflate while you're free to stabilize your trailer and set up the rest of camp.

AIR ANNEX

Sometimes you just need that extra space to store your adventure gear to keep it safe and protected from the elements. The OP Lite inflatable AIR Annex provides a fully enclosed extra living area with that covers your kitchen area too. It connects directly to your OP LITE AIR Tent so that you can inflate it at the touch of a button too.

The OP LITE AIR Annex also has dual functionality as all of the walls and doors can be zipped open for use as a Sun Awning, providing a shady area with plenty of ventilation. You can also zip open the OP LITE AIR Tent side wall for a spacious, open-plan set up between the two interior areas.

AIR Annex Option priced at \$1500

OP LITE CONSTRUCTION

Our AIR OPUS campers are designed and manufactured specifically to ensure maximum strength, longevity and ease of use whilst keeping overall weight to a minimum. The details below demonstrate the technical construction methods and highlight all aspect of our unique aware winning design.

ALUMINUM DIBOND WALLS

The external and internal walls of the AIR OPUS are constructed from Aluminum Dibond. This consists of two aluminum panels, separated by a Polyethylene core; providing a strong and lightweight outer shell

POLYSTYRENE INSULATION

A 20mm thick sheet of Polystyrene sits between the internal and external Aluminum Dibond walls to provide insulation

WATER PROOFED FLOOR

Built with a metal under-board, the OP Lite floor has a water proofed bottom layer and a marine-grade plywood layer, topped and sealed with industrial strength vinyl flooring

POWDER-COATED ALUMINUM FRAME

The frame is constructed using specifically cast and welded aluminum. This helps keep our camper light and easy to tow and move, whilst ensuring maximum strength. The Aluminum is then finished with a high quality powder coat to ensure longevity.

WATER TIGHT FINNED SEALS

When the lids are closed and clamped down they are sealed tight with dinned rubber seals for ultimate protection for water ingress

PRESSURIZED GAS SPRINGS

Highly pressurized gas springs are fitted to the lids to ensure easy set up, with just one person required to unfold the lids.

OP LITE SPECIFICATIONS

- 1. Bed
- 2. Interior Lounge
