

For our gas chassis, we take the Ford® drivetrain and create a solid platform to build on. The result is enhanced balance and control, as well as the strength to carry more weight. The design also allows for larger pass-through storage.

Power Platform Chassis

The Power Platform puts strength, stability, and reliability front and center. Perfect for trips requiring large carrying capacities, and built to store everything you need with spacious pass-through storage, the Truss Style Platform is the ideal chassis for optimum balance and control — Found on Holiday Rambler Vacationer gas motorhomes.

Every new adventure requires a solid foundation.

The Power Platform chassis is designed with balance, control, a smooth ride, and ample space in mind, all working together to give you a ride like no other RV can provide.

RV OWNERCARE

Limited one-year/15,000-mile coach warranty and three-year/45,000-mile structural warranty, whichever occurs first, and it is fully transferable for the first 12 months. RV OWNERCARE is one of the RV industry's most comprehensive programs and includes systems, appliances, components and construction, with no deductible and no service charge. Chassis Warranty provided by Ford®

Ford

We build strength and quality from the inside out.

Holiday Rambler's exclusive Powerlock™ system is integrated into all Holiday Rambler Class A Gas models.

- PowerLock System[™] Interlocking Floors, Walls, Ceiling Holiday Rambler's interlocking aluminum extrusion wall-joint system integrates floor, sidewall and roof assembly into one lockedtogether overall structure for long-term performance and durability.
- 2 Precision Welded Joints
 The all aluminum hull structure is engineered
 and built to precise tolerances and then precision
 welded to ensure strength and durability on even
 the roughest road trip.

At Holiday Rambler, it's not just what you see that matters. It's what you don't.

- 3 Tuff-Coat Fiberglass Walls
 Thicker than other manufacturers, our Tuff-Coat
 fiberglass walls provide a durable skin and is the
 perfect surface for an automotive stule finish.
- 4 Thick Robust Floor
 Thicker than the industry standard, Fleetwood
 engineered the floor for more sound deadening
 and more insulation which results in a quieter, more
 comfortable ride no matter the weather or terrain
- Solid Bead-Foam Insulation™

 Holiday Rambler's above-standard insulation material and process doesn't allow settling or air gaps to form. There is no forcing the precision cut insulation into position like the roll-type pink fiberglass insulation used by other manufacturers.
- 6 Loctite® Industrial Adhesive Engineered to meet bonding, sealing and assembly requirements for a durable structure with no de-lamination.
- No Wood Substrate
 Unlike most Class A motorhome manufacturers,
 you won't find any wood substrate on the exterior
 walls
- 8 1/2" Plywood Subfloor Thicker than most competitors who use OSB or chip board, the integrated 1/2" subfloor provides a solid surface for flooring and eliminates movement and flexing while traveling.

- Vacu-Bond™ Construction
 Fully sealed and weather-resistant, the vacuum-bonded assemblies combine materials and construction for a straight, solid integrated wall that is better suited to withstand the rigors of the road. An adhesive bonding process applies up to 415,000 pounds of vacuum pressure to the welded-aluminum sidewall frame, beadfoam insulation, thick Tuff-Coat fiberglass skin and inner wall materials, far exceeding industry
- ONC Precision Routed Walls and Floors Computer driven routers precisely route walls and floors to fit exact specifications to eliminate gaps, misalignments and provide for a more solid integrated overall structure.

standards.

2 HOLIDAY RAMBLER • VACATIONER • 2021

A Personal Concierge — on wheels.

The 2021 Holiday Rambler Vacationer is the "getaway vehicle" you'll never want to leave. Soothing colors and subtle textures on the interior options make it feel like a cozy cocoon, while an electric fireplace on the feature wall adds ambiance and warmth standard on all floorplans. Dual 15,000-BTU air conditioning units keep up with the weather. And if you decide to stay for a spell, the 100W solar panel helps you relax without relying on resort amenities. Meanwhile, an Illumaplex MultiPlex control system and mobile app lets you easily set up camp and keep it comfortable—whether you're inside or outside. We call it the "Vacationer." But with amenities like this, you'd be lucky to live in it year-round.

Floorplans available 33C | 35K | 35P | 36F.

SUMOSPRINGS® CHASSIS STABILIZER SYSTEM (FRONT & REAR, UPGRADE)

Are a patented suspension product designed to enhance load carrying capacity, stabilize sway, and improve overall driver control and ride comfort. Maintenance-free, do not leak air, and do not require airlines/compressors. Reduces vibration, wear and tear which affects the tires, suspension, brakes, furniture, hinges and more! SumoSprings are an upgrade that reduces ownership costs by decreasing overall wear and tear, increasing the life of each component of your Holiday Rambler. This increase means reduced costs on maintenance and replacement parts resulting in a lower total cost of ownership.

BILSTEIN® STEERING STABILIZER SYSTEM (UPGRADE)

Bilstein steering stabilizer system is a shock absorber system that dampens the bumps and vibrations of the road in the steering system. Bilstein allows for easier control to the front-end steering.

DISCLAIMER

- 1. GVWR (Gross Vehicle Weight Rating) is the maximum permissible weight of this fully loaded motorhome. The GVWR is equal to or greater than the sum of the (UVW) unloaded vehicle weight plus the (OCCC) occupant cargo-carruina capacitu*.
- 2. GAWR (Gross Axle Weight Rating) is the maximum permissible loaded weight a specific axle is designed to carry.
- 3. GCWR (Gross Combined Weight Rating) is the value specified by the motorhome manufacturer as the maximum allowable loaded weight of this motorhome with its towed vehicle. Towing and braking capacities may be different. Refer to Holiday Rambler and chassis manufacturer's manuals for complete information.
- 4. Length measured from front bumper to rear bumper (excludes accessories).
- 5. Excludes safety equipment and awnings.
- 6. Motorhomes feature a body width over 96" which will restrict your access to certain roads. Before purchasing, you should research any state and/or province road laws which may affect your usage.
- 7. Tank manufacturer's listed water capacity (WC). Actual propane capacity is 80% of water listing as required by the safety code.
- [†] The chassis manufacturer recommends the installation of a supplemental brake control system to activate the brakes on the vehicle or trailer you are towing. Hitch receiver ratings expressed are maximum for the hitch receiver installed and may require the purchase of additional equipment that is dependent on the weight of the towed load. Consult with hitch receiver manufacturer for further information.
- * UVW and OCCC are found on the label containing the federal certification tag in each RV.
- ⁺⁺ The Minimum Towable Load of this vehicle is the available weight capacity, up to GCWR, when the coach is fully loaded to maximum GVWR. However, if the coach is loaded to something less than maximum GVWR, that extra available weight capacity can be added to your Towable Load. For example, if your coach is loaded to 1000lbs less than maximum GVWR, your Towable Load increases accordingly. Do not exceed the hitch rating weight, GVWR or GCWR.
- ***All 2021 REV Recreation Group motorhomes include a limited one-year/15,000-mile coach warranty and three-year/45,000-mile structural warranty, whichever occurs first, and is fully transferable for the first 12 months.

YOUR LOCAL DEALER

About REV Group, Inc.

GROUP

REV Group® (REVG) is a leading designer, manufacturer, and distributor of specialty vehicles and related aftermarket parts and services. We serve a diversified customer base, primarily in the United States, through three segments: Fire & Emergency, Commercial, and Recreation. We provide customized vehicle solutions for applications, including essential needs for public services (ambulances, fire apparatus, school buses, and transit buses), commercial infrastructure (terminal trucks and industrial sweepers) and consumer leisure (recreational vehicles). Our diverse portfolio is made up of well-established principal vehicle brands, including many of the most recognizable names within their industry. Several of our brands pioneered their specialty vehicle product categories and date back more than 50 years. REV Group trades on the NYSE under the symbol REVG. Investors-REVG

IMPORTANT—PLEASE READ: Product information, photography and illustrations included in this publication were as accurate as possible at the time of printing. For further product information and changes, please visit our website at www.holidayrambler.com or contact your local Holiday Rambler dealer. Prices, materials, design and specifications are subject to change without notice. All weights, fuel, liquid capacities and dimensions are approximate. Holiday Rambler has designed its recreational vehicles to provide a variety of uses for its customers. Each vehicle features optimal seating, sleeping, storage and fluid capacities. The user is responsible for selecting the proper combination of loads (i.e., occupants, equipment, fluids, cargo, etc.) to ensure that the vehicle's capacities are not exceeded.
