A family is enjoying a camping trip in a white Sol travel trailer. A young boy in a grey t-shirt stands in the foreground, looking towards the trailer. A young girl in a pink shirt and blue shorts is walking towards the camera. In the background, a man and a woman are sitting on blue chairs under a white patio umbrella, reading books. The trailer has the 'Sol' logo on its side and a built-in grill. The scene is set in a grassy area with trees in the background.

Teach the value of
timeless adventure.

The Aluminum Advantage

Tilt-Forward
Design™

1

Built to tow: Aluminum is lightweight and extremely durable, making it an ideal structure to tow.

2

Built to trust: Unlike a wood frame, our aluminum cage is designed to support a fiberglass outer structure making it rust, water and even dent resistant.

3

Built to last: By crafting one solid structure formed from fully-welded aluminum, we are providing the strongest foundation using the longest-lasting materials on the market.

1

Built for more: Our *Tilt-Forward Design™* expands the interior living space without adding length to the trailer's frame.

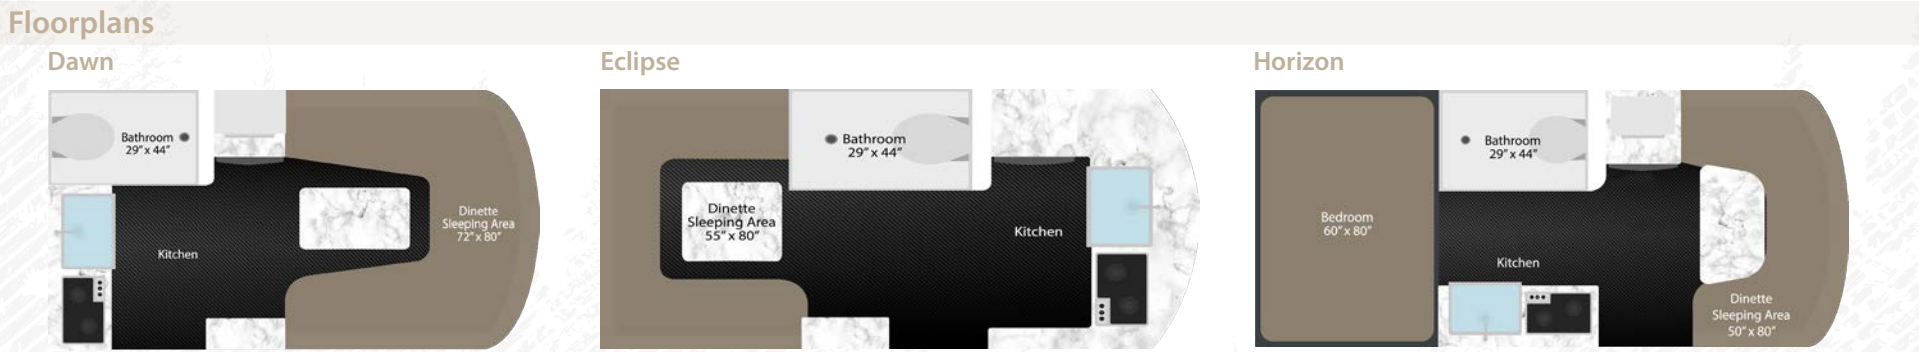

2

Built for style: Bringing more dimension and elegance to the exterior frame, the tilt offers a sleek and fresh perspective to the classic travel trailer design.

3

Built for you: Enjoy every meal with the ultimate view from our panoramic windshield that gives you a front row seat to nature's beauty.
