King Aire

LUXURY MOTORCOACH

Opulence at Every Turn

The 2022 King Aire is the epitome of Newmar's commitment to luxurious travel. By far our own most opulent coach, it also raises the standard for the industry. There are features and amenities inside the King Aire that are completely unique to the coach—they're not available on any other Newmar. As always, it's designed for the most discriminating of tastes, and there's no better way to travel—and stay—than the King Aire.

The Royal Treatment

The utmost in luxurious travel also means an unrivaled driving experience. The 2022 King Aire includes a number of standard features that make driving it a joy: our industry-first innovation Comfort Drive™ steering, Mobileye® lane departure warning system, OnGuard™ collision mitigation technology, adaptive cruise control, and automatic high beam headlights, for example. The King Aire is built on a Spartan® K3 chassis which offers 605 horsepower, and includes a passive steer tag axle for a shorter turn radius. The chassis also includes an electronic proportional tag with a trailer tow mode that transfers weight with two predefined settings. The King Aire is available in three floor plans, including a bunk model that's new for 2022.

Slate full-paint Masterpiece Finish™

Driving First Class

The experience inside a King Aire is always tasteful, and even more so in 2022. Two full leather captain's chairs are heated, cooled, and include a standard massage feature. A new dash with 10" monitors includes a Nav-N-Go navigation system, which uses the coach's dimensions to plan the ideal route. A Harman Infinity® audio system would delight any audiophile with crystal clear sound for traveling music. A Samsung® touch screen tablet allows you to adjust lights, shades, and other electronics throughout the coach with a simple swipe. And an internet connectivity solution comes standard, in addition to wireless charging pads. The 2022 King Aire also includes a heated steering wheel, to make those cold travel mornings a little easier.

Floor plan 4531 with velluto décor and Mink Rift Oak with Diamond Gloss Finish cabinetry

Refined Spaces

The living space is the lap of luxury. Two large, bonded windows meet at the corners of the slide out to create a bay window, allowing plenty of natural light in and a glorious view of the scenery. All furniture is made from the finest of Italian full-grain leather, including floor-plan specific options. There's a variety of furniture available, including a Visionary trifold sleeper sofa with memory foam mattress, a Euro-booth dinette, and two ottomans for additional storage. A Samsung® 55" 8K LED TV comes standard, as does a 4K QLED model mounted above the cockpit. They're paired with a Bose® soundbar and subwoofer.

For the utmost in comfort, three 15M Penguin™ heat pump central air conditioners keep things cool.

Five Star Dining

Any professional chef would be elated with the King Aire's kitchen. Hardwood, European-style cabinetry is finished in a soft matte suede finish, with an option for diamond gloss available, and they look lovely when paired with the quartz countertops. The appliance suite shines with top-tier residential equipment, like the Viking® stainless steel refrigerator and convection microwave (which is hidden behind a power-operated hardwood cabinet door), a Wolf® induction cooktop, Fisher & Paykel® dishwasher, and AXOR faucet. A marble backsplash and accent lighting complete the space.

Sleep in Style

What better way to get a good night's rest, than in a standard king-size Sleep Number® adjustable mattress with a goose down comforter? The foot of the bed in the King Aire's master bedroom is also finished in Italian leather. A Samsung® 4K QLED TV sits across from the foot of the bed, flush with the cabinets. Speaking of, those are coupled with a large wardrobe and drawers for loads of storage space. You can also add an optional fireplace to help really nestle in on cold nights.

A Quiet Place

There's no better way to feel refreshed than by spending time in the master bathroom of the King Aire. A large, refined shower with tile and a fold-down seat includes a raincan showerhead and handshower. Quartz countertops shine around the large basin sink with dual faucets. A standard water conservation and filtration system keep showers warm and inviting. A mid-ship half bath—ideal for guests and visitors—offers many of the same, beautiful appointments as the full bath.

Your Own, Private Resort

The King Aire is designed for opulent enjoyment both inside and out. Dual Girard® Nova side awnings are fitted with wind sensors and LED lights for lovely evenings outside. The outdoor entertainment center features a Samsung® 4K QLED TV, and a Dometic® exterior freezer keeps drinks and snacks cool. Underneath, push-button baggage door releases and sliding storage trays make it easy to get to your gear. Want security? a Keyless entry and camera monitoring system is viewable from inside the King Aire, or via an app. Most importantly, in addition to a 12.5 kW Onan® diesel generator, everything is powered by two Xantrex lithium ion power packs with two inverters—standard. This innovative system provides higher usable power storage capacity, and can power longer dry camping opportunities with 30 kW of power, plus weight savings.

Lengths, heights, widths, and dry weights are approximate. Weight will vary based on optional equipment added to the above base weight.

GAWR: Gross Axle Weight Rating is the maximum permissible weight for an axle.

GVWR: Gross Vehicle Weight Rating is the maximum permissible weight for a fully loaded motor coach.

GCWR: Gross Combination Weight Rating is the value specified by the manufacturer of the vehicle as the maximum allowable loaded weight of this motor coach and any towed trailer or towed vehicle.

UVW: Unloaded Vehicle Weight is the weight of this motor coach as built at the factory with full fuel, engine oil, and coolants. Does not include cargo, fresh water, propane gas, or dealer-installed accessories.

NCC: Net Carrying Capacity is the maximum weight of all occupants, including the driver, personal belongings, food, fresh water, waste water, propane gas, tools, tongue weight of towed vehicle, dealer-installed accessories, etc., that can be carried by the motor coach.

Specifications supplied by the chassis manufacturer.

The Newmar Customer Experience

The Newmar difference goes beyond our industry-leading motor coaches to provide you with an unrivaled ownership experience.

QUALITY FROM THE START

Every Newmar is crafted one at a time by folks who have spent an average of eight years building them. And each coach we assemble must undergo more than 1,000 tests and checks before ever leaving our factory.

FRIENDS FOR LIFE

Meet fellow owners through the Newmar Kountry Klub, a top social club for RV travelers that hosts rallies and other special events throughout the U.S. and Canada.

CAREFULLY SELECTED DEALERS

We view our dealership network in terms of quality, not quantity. Each of our dealers acts as a partner in our shared mission to exceed your highest of expectations, for an ownership experience that's second to none from day one.

SEAMLESS SERVICE

When you join the Newmar family, we pair you with a dedicated service specialist with expert knowledge of your exact coach. Available 24/7, our service specialists guarantee dealer warranty authorizations within four business hours and ship all in-stock parts the same day, free of charge.

EVERYTHING IN ONE PLACE

As a Newmar owner, you'll find resources specific to your coach through Newgle, an easy-to-use knowledge base that houses everything from user guides to technical support documents.

ROCK-SOLID PROTECTION

All models include a one-year/unlimited mileage limited warranty and a five-year, non-transferable structural warranty that covers your coach's superstructure in the event it fails to perform. Ask your Newmar dealer for more details.

Our Partners

Newmar Quality Begins with the Company We Keep

You deserve class-leading performance from names you can trust. That's why we only work with suppliers dedicated to providing our customers with unrivaled quality, comfort, and support.

BASF

We create chemistry

The Coatings division of BASF is a global expert in the development and production of innovative and sustainable OEM and refinish coatings that deliver solutions beyond your imagination.

INDUSTRIAL FINISHES

Industrial Finishes has supported RV manufacturers for over four decades. The Industrial Finishes paint process delivers uncompromising quality, providing your coach with a true "Masterpiece" finish.

Driven By You

FREIGHTLINER CUSTOM CHASSIS

Freightliner Custom Chassis Corp. (FCCC) is renowned for delivering the industry's best ownership experience through exceptional 24/7 factory-direct support, exceptional ride and handling, and developing high-performance innovations such as DRIVETECH. It's the only RV driving system that prioritizes safety and automotive luxury by putting every command at your fingertips.

RIVERPARK

At RiverPark, we proudly represent the leading brands in consumer electronics—brands you know and trust to provide exceptional quality and innovative technology. Newmar features Samsung's incredible 4K TVs, Xite Infotainment systems featuring Nav-N-Go Navigation, Bose soundbars, and JBL and Infinity premium audio. Step into a 2022 Newmar and experience dazzling audio and video performance throughout the coach.

SPARTAN MOTORS

Spartan Motors is an American company with over 30 years of experience designing and manufacturing the premier motorhome chassis, which provides superior performance, exceptional safety ratings, and industry-leading technology.

When You Know the Difference.
