THE BEST VALUE IN BOATING

B

BENTLEY - THE BEST VALUE IN BOATING!

From our Family of boaters to yours. Enjoy your time on the water.

At Bentley, we're dedicated to superior quality, craftsmanship and customer service all done with the intent to create **the best value in boating**. Our dedication starts with our people. For these reasons and more, we choose to make many of our own components, such as, furniture, canvas work, tubes, and fence railing. Not only does this give us our own, unique look, with superior style and comfort, but it ensures that it saves you time, aggravation, and money. You get the ultimate luxury, performance, and ride quality at an affordable price. Our internal design, engineering and product development processes assure that you get superior quality construction and functionality. Simply put, we want you, your family and friends who boat with you to have an enjoyable, stress free and relaxing escape on the water. Our manufacturing team and headquarters is in Lexington, South Carolina. This team of highly skilled, trained, passionate and hard-working individuals pride themselves in creating and crafting an excellent product every day. Additionally, we invest in the best people and training for our office team of support and customer service people. We partner with our dealer network to service you after the sale with a superior experience.

Welcome to the family – enjoy your new Bentley.

THE BEST VALUE IN BOATING

Why a Bentley pontoon should be your next boat...

1. Bentley boats are affordable and have excellent resale value.
2. Bentley boats have less maintenance and lower maintenance costs than most boats. Cost of ownership is lower.
3. Bentley boats are easy to board and exit. Our boats offer a stable, secure platform to move around on for worry-free and hassle-free boating.
4. Bentley boats are versatile. ONE boat can be used for: cruising, watersports, skiing, wakeboarding, fishing, entertaining, “chilling” at the sand bar or socializing with family and friends.
5. Bentley boat hulls are fuel efficient. Fuel consumption is minimal for less time at the fuel dock. They are also easy to fuel up.
6. Bentley boats have minimal bow rise unlike traditional fiberglass boats which gives you a safer boating experience.
7. Bentley boats have large, easy access storage and lots of it. There is plenty of room for bags, coolers, towels, boating toys, etc.
8. Bentley boats are easier to operate and navigate. Maneuverability is better, slow speed handling is a breeze and they are simpler to dock.
9. Bentley boats have much more interior space than traditional boats. Seating is more plush, stylish, and comfortable.
10. Bentley boats are easy to clean and maintain. Flooring and vinyls are mildew and stain resistant.
11. Bentley boats offer a more stable and safer platform. The furniture is comfortable, stylish, and easy to keep clean.
12. Bentley boats offer a safer “place to roam” for children and pets. Higher fence panels with “lift and lock” doors, along with soft, plush, durable furniture, give you additional peace of mind.

THE BENTLEY HULL and CHASSIS

Your Foundation for Quality, Comfort, Performance and Handling.

Bentley designed our .125 or .190 "hat" channel with two support bolts. Butyl tape is applied to seams for added waterproofing.

What Bentley's Competitors use. Inferior shaped and engineered crossmember or cross channel utilizing only one support bolt.

Item	Feature	Feature Details
1	Keel	All our tubes feature a 5/8" full length, solid keel.
2	Tube diameter and thickness	25" diameter tubes are constructed from .080 thick aluminum sheet.
3	Lifting strakes or performance lifting strakes	.100 thick aluminum lifting strakes are optional on 2-tube hulls and standard on 3-tube hulls. Our lifting strakes are strategically placed on the tube and hydrodynamically designed to create "lift" which reduces drag, increases speed and improves maneuverability.
4	Tube baffles	Each joint of the tube has a baffle for added strength. The baffle has a drain hole for servability.
5	Nose cones	All our nose cones have splash fins along with a proprietary keel for added strength and rigidity.
6	Cross member risers	It is important for all chassis to flex, but remain solid and intact. For this reason, the Bentley chassis uses multi length "M" bracket risers, strategically placed and welded to the tube, for added strength.
7	Cross members	.190 thick aluminum extruded "hat" channel cross members are used in the stem and .125 aluminum extruded elsewhere.
8	Transom and motor pod	Our boats have an all welded, aluminum transom, which utilizes .190 aluminum sheet in the motor pod area for maximum strength. * excluding LE models
9	Fuel tanks	All Bentley fuel tanks are roto molded for maximum quality and fitment. They are mounted in the motor pod and are diurnal EPA certified.
10	Wiring and harnesses	Deutsch - style electrical connectors are used to ensure quality.
11	Aluminum underskin	.063 thick aluminum sheet is fastened, using marine grade stainless steel rivets, to the underside of the decking/cross members. This underskin helps to reduce turbulence, noise, spray and increase speed.
12	Decking	3/4" - 7-Ply marine grade plywood is used for the decking material.
13	Beam	Every Bentley chassis features a 8'6" beam. This is the maximum width allowed for towing a boat without a special permit.
14	Rub rail	All our boats come standard with a rubber insert engineered into the rub rail.
15	Hardware	100% of all nuts, bolts and fasteners on the chassis are stainless steel.

* PRODUCT SPECIFICATIONS ARE SUBJECT TO CHANGE WITHOUT NOTICE.

Choose the hull and options designed and engineered to fit your boating style.

When it comes to hull options, you are the boss. Each Bentley boat hull can be customized to fit your personal boating choices. You can choose the options that are best suited to fit your needs and budget. You choose if you want analog instrumentation or digital. Obviously, there are some limitations, but you have endless options – and we know you like having options.

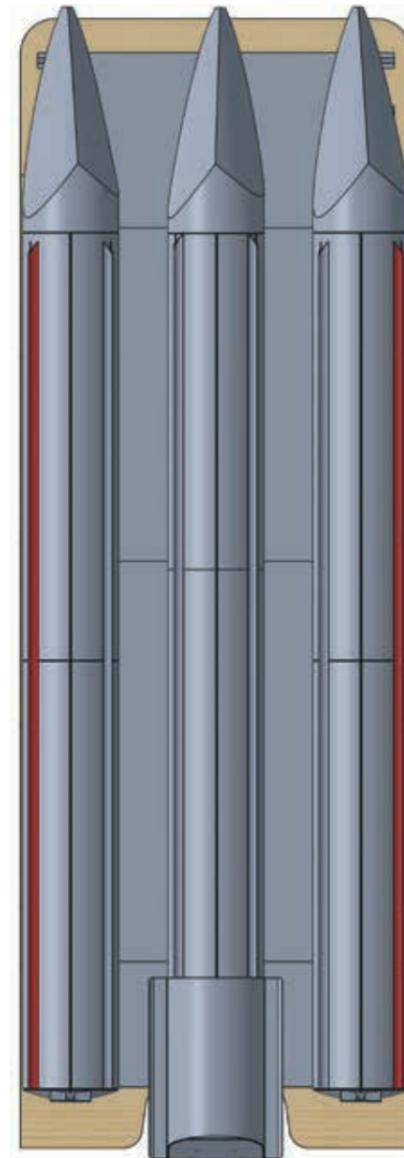

More than 50% of the time, our customers choose to have three tubes under the deck, but our two tubes hulls perform excellent. Our two tube hulls offer lots of options, like, under skin, lifting strakes, hydraulic steering, even ladder options.

Our three tube hulls offer the greatest flexibility and option selection. Do you want maximum speed? We got that. Do you want best overall maneuverability? Got that too. How about style and performance? Yes, we have that. Our offering allows you to choose “in-floor” storage, performance lifting strakes, power-steering, even telescoping ladders. Since it’s your boat, customize it to fit your needs. No matter what you choose for options, our Bentley hull has a lifetime warranty for a lifetime of family fun.

- XLP3
- SPORT3
- 2-TUBE

XLP3 HULL

XLP3 UNDERSIDE VIEW

XLP3 Hull

This Xtra Luxurious Performance Triple toon provides the ultimate ride in boating. Choose this hull for rougher water, hard-core water sports or a comfortable cruise. The XLP3 hull is available on FISH models.

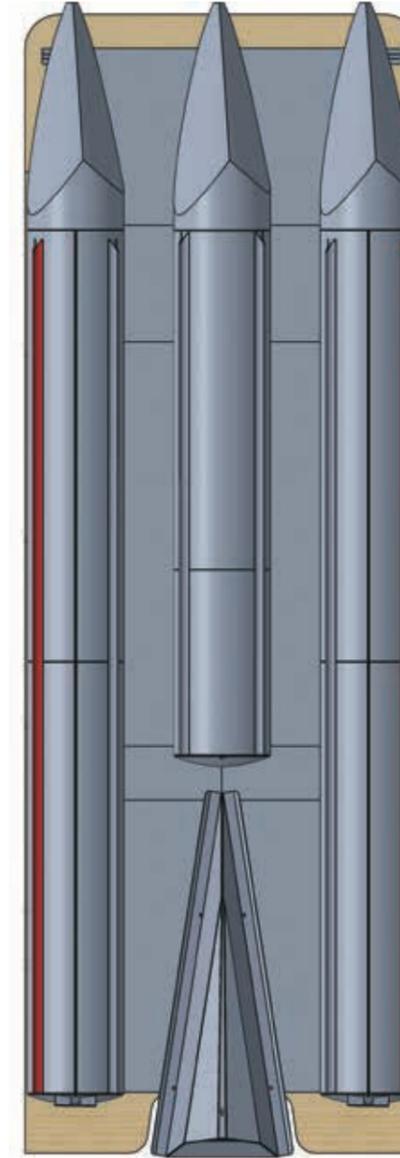

- (3) 25” diameter round tubes with a 25” shaft transom - STANDARD.
- All welded aluminum transom with built-in 54-gallon fuel tank and “U-shaped” motor pod - STANDARD.
- Aluminum under skin to increase speed, reduce turbulence, noise, and spray - STANDARD.
- Lifting strakes strategically placed on the tube for “lift,” speed and less drag - STANDARD.
- ¾” – 7-ply marine grade plywood with a lifetime warranty - STANDARD.
- Center tube “in-floor” storage area for ski’s, water toys, etc. - OPTIONAL.

XLP3 STERN VIEW

*The images shown may include optional equipment.

SPORT3 HULL

SPORT3 UNDERSIDE VIEW

SPORT3 Hull

This agile High Performing Triple toon provides great top-end speed. Its lighter weight enhances fuel economy and it has an economical price. Choose this hull for water sports, speed, and cruising. The SPORT3 hull is available on all models.

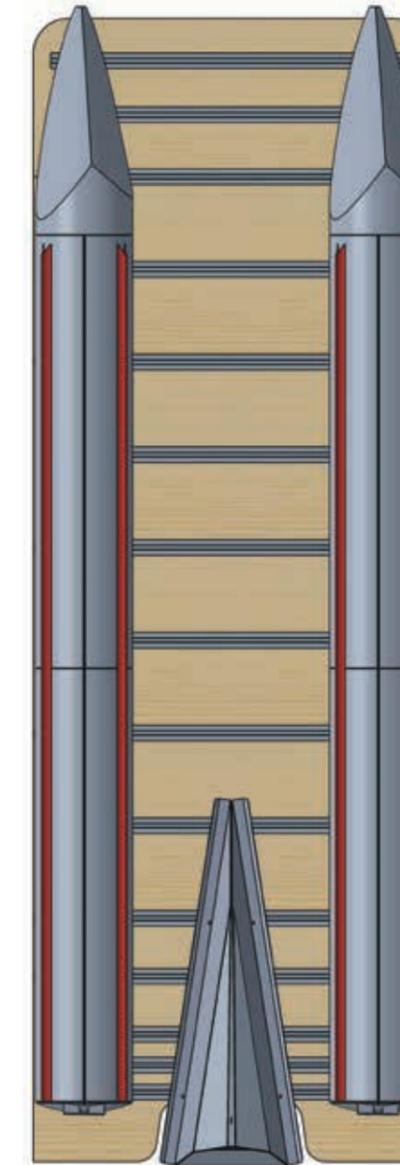

- (3) 25” diameter round tubes with a 20” shaft transom -STANDARD.
- All welded aluminum transom with built-in 32-gallon fuel tank and “Vshaped” motor pod -STANDARD.
- Aluminum under skin to increase speed, reduce turbulence, noise, and spray -STANDARD.
- Lifting strakes strategically placed on the tube for “lift,” speed and less drag -STANDARD.
- ¾” – 7-ply marine grade plywood with a lifetime warranty -STANDARD.
- Center tube “in-floor” storage area for ski’s, water toys, etc. -OPTIONAL.

The Bentley Warranty

The team at Bentley goes to great lengths to search out quality vendors who collaborate and work with us to assist in the creation of our boats. Because of this, we offer strong warranties on our decking, workmanship, and components for all our pontoon boats. For added peace of mind, we've included our warranty details in the QR code that you can scan.

Our warranties include:

- Limited Lifetime Structural Warranty
- Limited Lifetime Workmanship Warranty on Tubes
- 5-year Limited Furniture Vinyl and Floor Covering Warranty
- 5-year Limited Bimini and Mooring cover fabric
- 5-year Limited Component Parts Warranty
- One-Time Warranty transfer

These warranties are benefits for the current and resale value, limitations, and required maintenance and care.
