ABOUT  
BLACK SERIES

## OUR BRANDS

Black Series' factories and warehouses are located in Australia, China and United States. The company has been focused on the goal of creating luxurious, home-like experience in rugged outdoors since its establishment.

Black Series is dedicated to camper R&D, manufacturing and vehicle testing. The company's intelligent design keeps safety in focus while encourages an outdoor luxury lifestyle of being with nature.

Born with the rugged off-road nature, Black series trailer is able to conquer terrains around the world, from Australia's rugged "Out Back" to United States and South Africa. Black Series has gained a worldwide reputation of trust on high quality and adventurous travels.

# 14

Years

Industry experience

# 5

Continents

Found in multiple countries around the world

# 100000

Units

Sold throughout the United States, Australia and Europe

## OUR HISTORY

- 1995 OEM all-glass fiber reinforced plastic moving workshop car for Germany
- 2002 Made the first small glass fiber reinforced plastic caravan for the UK
- 2004 OEM tent caravan introduced to Australia
- 2010 Developed into one of Australia's largest off-road RV brand names
- 2014 Built a revolutionary RV industrial park base in China (Weihai)

## THE DEVELOPMENT HISTORY OF BLACK SERIES

- 2015 Became one of the world's most recognizable brands in the United States
- 2018 Established caravan camp outs and caravan clubs in Australia and the United States
- 2019 Launched its first RV intelligent control system
- 2020 The total sales exceeded 100,000 units
- 2021 Re-affirmed its commitment to developing cutting-edge environmental-friendly luxury RVs

# TECHNOLOGICAL CHANGES

## BLACK SERIES TECHNOLOGY DEVELOPMENT HISTORY

**1995** Successfully developed the first full glass steel trailer under the Black Series brand

**2004** Successfully developed a specially designed off-road chassis

**2007** Successfully developed the first Black Series off-road tent-style camper

**2010** Successfully developed an air tent for campers

**2013** Successfully developed a two-row, off-road independent suspension system

**2014** Successfully developed the first Black Series off-road trailer with a length of more than 8 meters

**2016** Successfully developed a guide wheel for Black Series

**2018** Successfully developed an integrated Android based control panel system

**2020** Successfully developed the first 13-meter all-in-one 8x8 rugged off-road trailer under the Black Series brand

**2021** Successfully developed the first Black Series light-duty RVs with integrated carbon fiber materials

# BRAND INTERACTION

## COMMITMENT TO CUSTOMERS

With the motto of "customer first", we always put customers at the center of everything we do. We meet customers' needs with high-quality product range and provide an exceptional product experience at every customer touch point.

## CORPORATE SOCIAL RESPONSIBILITY

Black Series actively fulfills our corporate citizenship. We focus on the common growth of the company and employees, and devote ourselves to activities of public interests. While pursuing lean production and efficiency improvements, we are committed to environmental protection and sustainable development, and promote the harmonious coexistence between human and nature.

INNOVATIONS

## TECHNOLOGICAL INNOVATION

### DESIGN AESTHETICS

Inherits the design philosophy of "environmental protection and intelligence", the Black Series RV combines a comfortable experience with an off-road style.

### BRAKING COORDINATION

Continuously develops professional technology to improve the braking coordination between the front vehicle and the trailer.

### EXPERIENCE TECHNOLOGY AND CRAFTSMANSHIP

Provides home-like comfort and outdoor convenience with unique interior technology and intelligent control system.

### BOLTED ALL-ALUMINUM LIGHTWEIGHT CHASSIS

Lightweight chassis design opens a new era of all-aluminum chassis.

### HIGH-STRENGTH COMPOSITE MATERIAL

Develops high-strength composite materials to improve durability.

### TECHNOLOGY PATENT

Cooperates with Rutan, an American engineer and obtained long-ez technology patent.

## CORE COMPETITIVENESS

### PROVIDE LONGER LIFE SUPPORT IN THE WILD

- > Long-distance endurance in the wild
- > Big water tank
- > 48V fast charging off-grid system with lithium battery
- > Large area solar panel and diesel, natural gas and other energy sources
- > Polyurethane insulation

### POWERFUL ALL-TERRAIN PASS ABILITY

- > Independent suspension
- > Reinforced chassis/towing frame
- > All-terrain tires

After more than ten years of manufacturing in the field of off-road trailers, the Black Series has implemented a strict quality control system. Our goal is to provide our clients with the most cost-effective and smartest off-road trailer.

MADE BY  
BLACK SERIES

## QUALITY ASSURANCE

### RV TESTS

Rollover Test

Sinusoidal Road Test

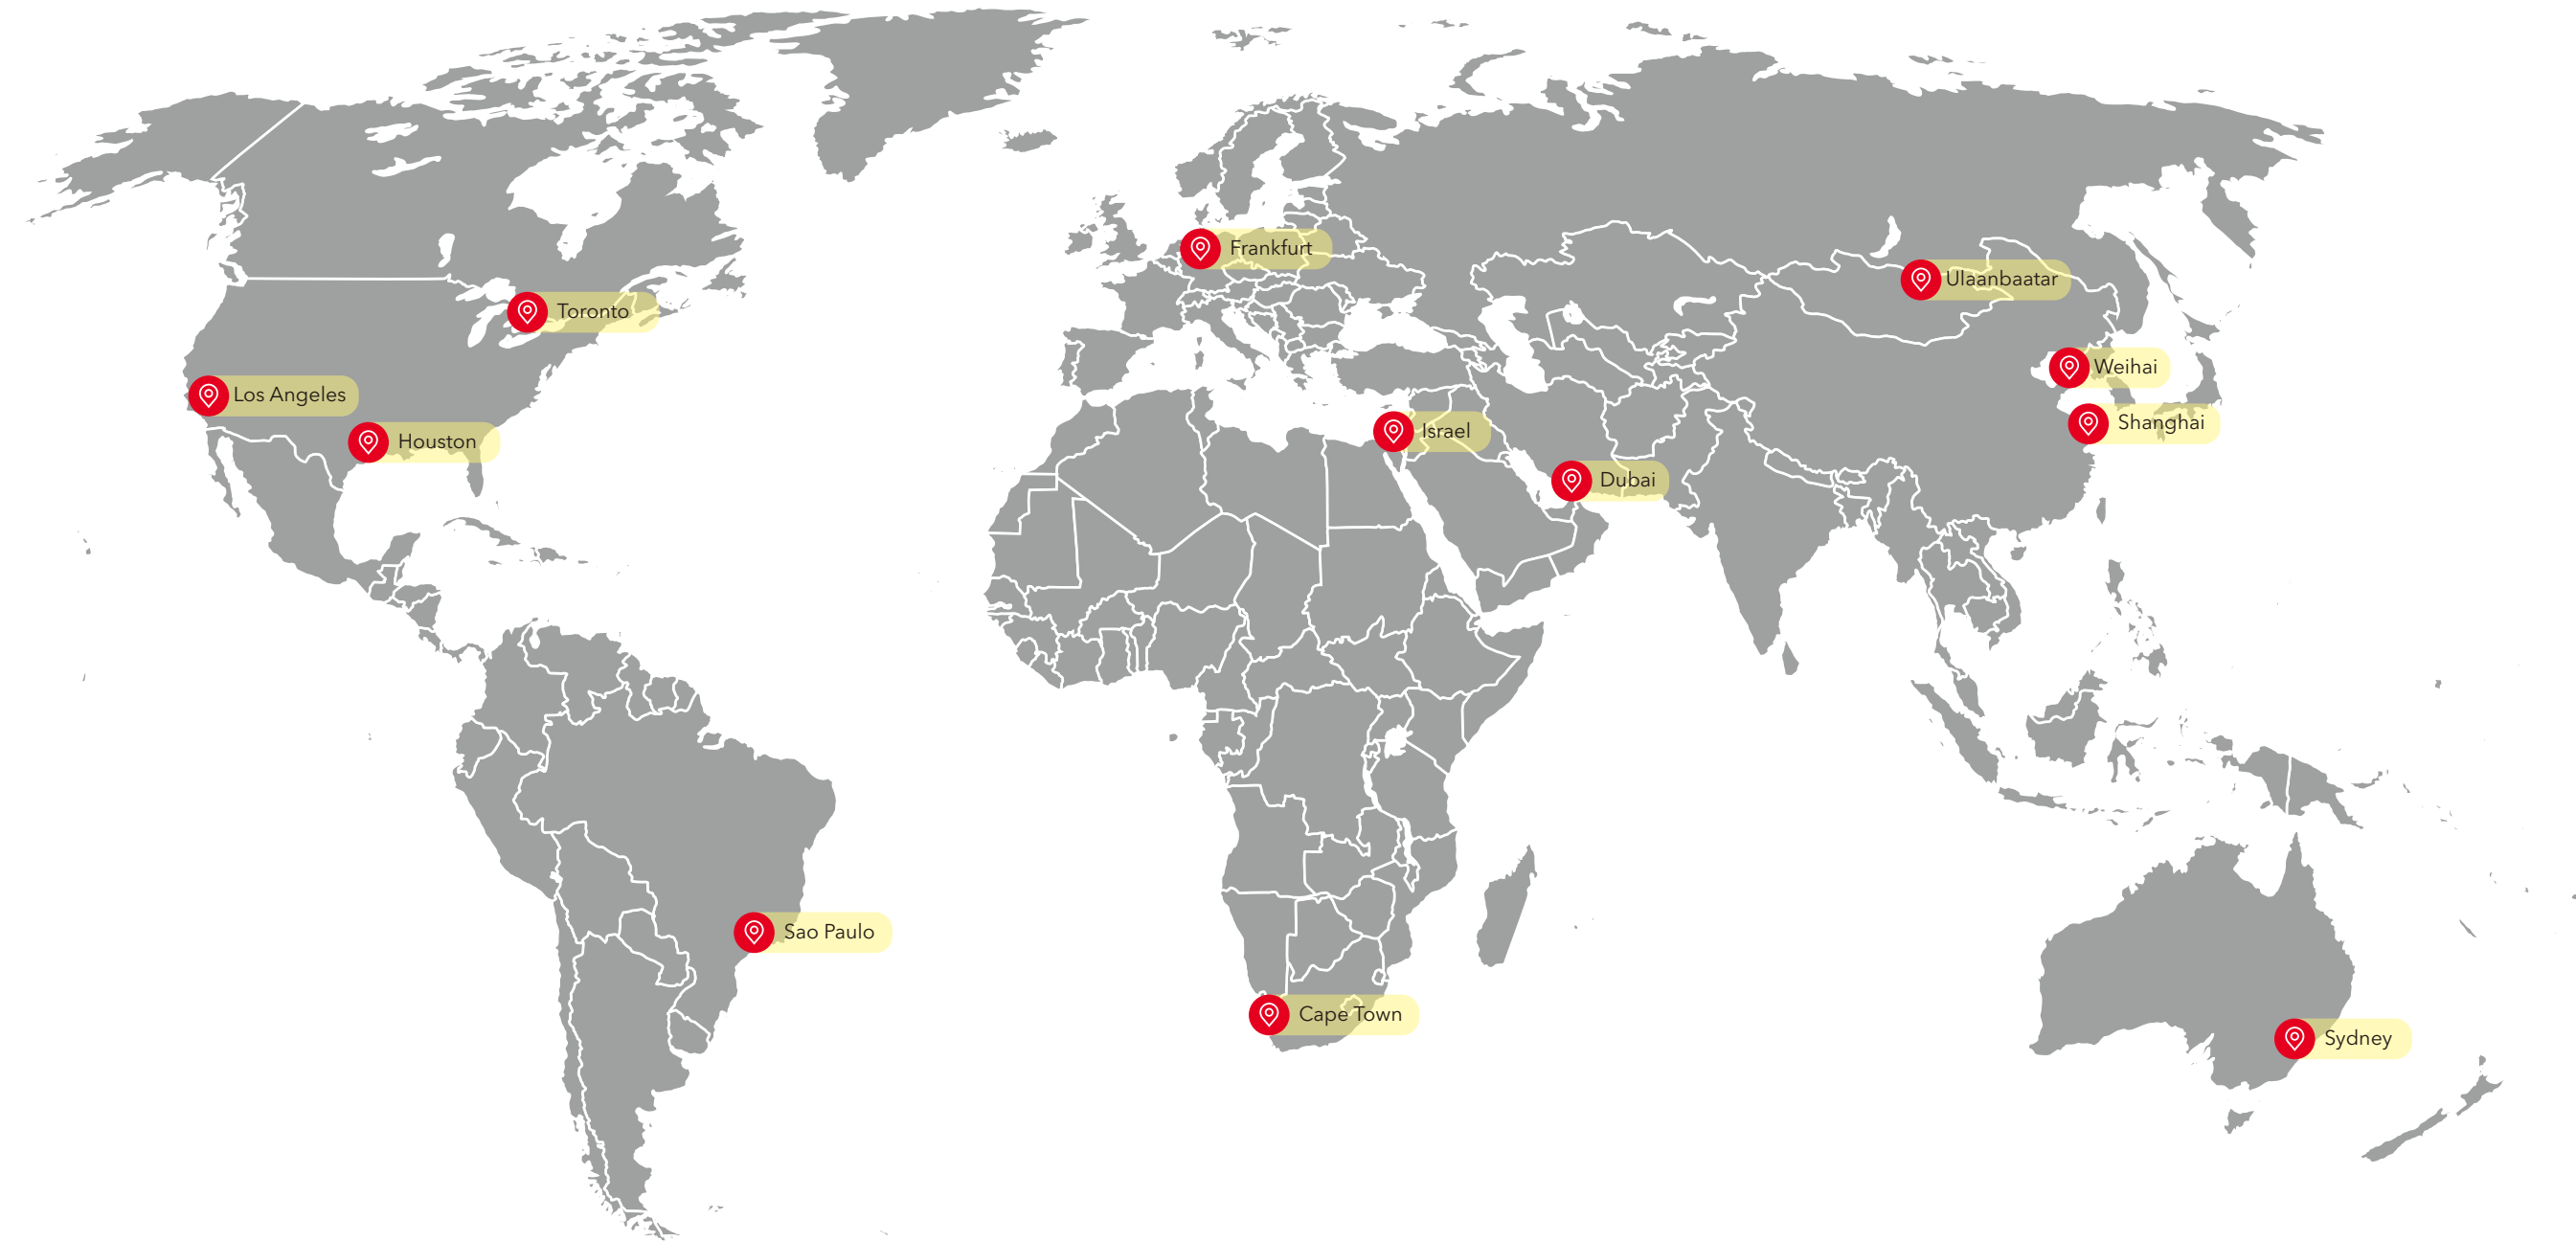

Hill climbing Test

### AUTHENTICATION SYSTEM

- ISO9001 Quality Certification
- National 3C Certification
- Designated Enterprise for National Refitted Vehicles
- Certification Standards of the United States, Canada and other countries

## MARKETING NETWORK

Black Series RVs have been sold to China, the United States, Europe, Australia, Canada, Dubai, South Africa and other countries.

## MANUFACTURING BASES

Black Series manufacturing bases cover the United States, Canada, Europe, Russia, Dubai, India, South Africa, Australia, Brazil and other countries and regions. In 2014, an intelligent RV Industrial Park was established in China.
