BUILT TOUGH FOR THE U.S.A.

Welcome to MDC Pop Up Campers and Offroad Travel Trailers

Established in 2005, MDC has grown to be one of Australia's largest manufacturers of off-road trailers. With more than 30,000 units traveling throughout Australia's toughest outback, beaches and highlands. MDC has the experience to build trailers to last.

A proud family owned business, we take pride in having 4 showrooms across the United States with our US based production facilities delivering quality products at affordable prices.

At MDC we live and breathe the outdoor lifestyle and continue that passion with our research and development. Our senior management, staff and their families regularly undertake R&D trips across some of Australia's and America's toughest terrain, punishing and testing the products to ensure you get the most reliable trailer possible.

Only quality materials go into building MDC products. These are supported by strategic partnerships with quality appliance manufacturers. Dometic, Smev and Truma are just some of the quality brands you will find in an MDC trailer.

TOUGH TRAX™

FACTOR 5 CHASSIS

TOUGH TRAX shock absorbers were chosen after a year of vigorous MDC stress testing shock absorbers from numerous industry suppliers.

FACTOR 5 CHASSIS is tested and proven using "Finite Element Analysis" (FEA) to the relevant engineering standards. There are essentially 5 factors involved in the testing/validation of our chassis to give you peace of mind that every travel trailer or pop up camper is up to tackling even the harshest off-road conditions.

MDC masterclass

VIDEO HINTS, TIPS AND TRICKS

Knowledge is power and MDC gives you the power with the MDC Masterclass series. An extensive video library presented by our very own Steve Zammit full of useful information to make owning an MDC trailer a rewarding and hassle free experience.

Maintenance tips, preparing for your overland adventure and doing it all safely is covered by Steve's presentations, built from knowledge gained through decades of camping, 4x4 and overland adventures.

INDUSTRY MEMBERSHIPS

RV INDUSTRY ASSOCIATION (RVIA)

MDC Campers and Caravans Inc are proud members of the RVIA. This membership demonstrates our compliance to the RV standards adopted by the Association.

Further more , it represents our pledge to meet the Association's membership conditions, which include being subject to regular, periodic compliance audits by RVIA standards inspectors, who monitor and provide education on thousands of requirements impacting electrical, plumbing, heating, fire and life safety systems and construction meeting U.S. Federal Safety Standards and exceeding them.

The presence of the RV Industry Association seal on our units demonstrates our commitment to the industry, moreover, most public and private campgrounds in the United States require that RVs have an affixed standards seal to obtain entry.

NATIONAL ASSOCIATION OF TRAILER MANUFACTURERS (NATM)

MDC Campers and Caravans Inc are proud to be committed to building trailers that comply with Federal Motor Vehicle Safety Standards. By completing NATM's Compliance Verification Program, our customers can be assured that they're buying a trailer built with safety in mind.

The NATM Compliance Decal affixed to the frame of all MDC USA's Trailers demonstrates that they have successfully passed the biennial safety compliance consultation as a part of NATM's Compliance Verification Program.

PACIFIC WEST ASSOCIATES (PWA)

MDC Campers and Caravans Inc are certified to comply with the Recreational Vehicle Standard (NFPA1192) and the relevant National Electric Codes by PWA. As part of this certification, MDC is subject to strict on-going inspection and monitoring of quality assurance functions to ensure compliance.

Designer and manufacturer of power supplies, controls, monitors and multiple systems for RVs.

HISTORY AND EXPERIENCE

BMPRO has its genesis from a business with a rich 50-year history in developing custom designed power management platforms. With design and manufacturing facilities in Melbourne, Australia, BMPRO has over 150,000 systems installed across various combinations of power management, control and monitoring systems in the RV industry worldwide. BMPRO currently supplies the majority of all substantial RV manufacturers in Australia and U.S.

INNOVATION

Many of the systems available now are very new to the RV market. Our R&D department houses leading edge technology with highly trained and experienced automotive and electronic engineers who use the latest design tools to create unique solutions.

BMPRO is one of the pioneers using digital platforms in RVs with one of the world's largest install bases of smart power management systems. We continue to research the latest trends and combined with extensive research within the RV consumer market we provide ideas and products which are at the forefront of making the RV users experience during their vacation free of any unnecessary drama.

REAL STORIES TOLD BY REAL MDC OWNERS

We've all heard those stories that someone's "best friend's, uncle's first cousin's ex flatmate" had some problem with a product. Knowing what's real can be difficult these days with social media being the way it is. Find out first hand what people who genuinely own MDC campers and caravans have to say about the products they own and the places they've been.

We love to get out on the road and meet our customers at major events such as Big Red Bash, enjoy a few drinks and find out what our real owners love about the products and what we can do to improve everything we do. What better way to do it than with a video testimonial.

Check out the modifications owners have made, hear about their travels and join owners pages to engage with The Real Owners of MDC. Be sure to sign up for our newsletter to hear about their experience in their own words and hopefully one day we'll be posting your experience as a "Real Owner".

JACKSON FORWARD FOLD

The Jackson Forward Fold is part of our Touring series of pop-up campers with style, elegance and features you won't believe for the price. With plenty of battery power, storage rack, water storage, and a full size kitchen with European appliances, the Jackson forward folding campers have all the quality you would expect from MDC USA. With years of real life research and development, engineering and design coupled with the experience of the MDC USA team have brought together all the ingredients for a camper that has all the features you want at a price you can afford. Don't let all the luxury fool you, this pop-up camper has a hot dipped galvanized steel chassis, fully and independent trailing arm suspension and protection in all the right places.

ROBSON XTT

DUAL FOLD

With living area space difficult to match with even the largest of travel trailers, the Robson XTT is space and luxury for a family of six without the high price. The spacious tent has plenty of head room for your taller family members and the center lounge area easily accommodate six people for meal time and converts to a king size sleeping area when the day is over. Plenty of integrated storage makes packing easy. The two beds are a double and queen with privacy screen at each end, with an excellent stainless steel kitchen, you're covered for taking all the necessities for life on the road.

XT13 HYBRID

The all new XT13 is a great new model from MDC that achieves overlanding comfort for a small family of three. With a queen size bed and spacious east/west front bunk, the XT13 is just the van you're looking for. This great looking travel trailer is light weight with a tare weight around 2 tonne. Built on the proven MDC chassis, the body is built with a welded aluminum frame and bonded composite panel making it extremely strong. There is no shortage of great features in the XT13 starting with an electric awning as standard, the awning can also be converted into an enclosed annex with the awning wall and floor kit that comes complimentary with the XT13.
