

# REVOLVE

BY PALOMINO

TRAVEL TRAILERS

EXPERIENCE THE OFF-GRID LIFESTYLE.

# EXPERIENCE THE NEW EVOLUTION OF RVING.

The **REVOLVE** is changing the way we think about traditional travel trailers. With 1,000W of solar and a 400AH lithium battery, the **REVOLVE** allows more travel flexibility. A second 400AH battery can be optioned to increase energy storage for extended stays. All **REVOLVE** units come with a battery monitor to easily manage usage. Whether the destination is a campground or the middle of nowhere, the **REVOLVE** is a feature-packed trailer for a variety of campers.

## SPECIFICATION DEFINITIONS

**GVWR (Gross Vehicle Weight Rating):** is the maximum permissible weight of the unit when fully loaded. It includes all weights, inclusive of all fluids, cargo, optional equipment and accessories. For safety and product performance do NOT exceed the GVWR.

**GAWR (Gross Axle Weight Rating):** is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by a combination of all axles.

**UVW (Unloaded Vehicle Weight):**<sup>1</sup> is the typical weight of the unit as manufactured at the factory. It includes all weight at the unit's axle(s) and tongue or pin and LP Gas. The UVW does not include cargo, fresh potable water, additional optional equipment or dealer installed accessories.

**CCC (Cargo Carrying Capacity):**<sup>1</sup> is the amount of weight available for fresh potable water, cargo, additional optional equipment and accessories. CCC is equal to GVWR minus UVW. Available CCC should accommodate fresh potable water (8.3 LWW per gallon). Before filling the fresh water tank, empty the black and gray tanks to provide for more cargo capacity.

Each Forest River RV is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every Forest River RV prior to leaving our facilities.

The load capacity of your unit is designated by weight, not by volume, so you cannot necessarily use all available space when loading your unit.

<sup>1</sup> Estimated Average based on standard build optional equipment
