CRUSADER *A HIGHER STANDARD*

Prime Time is rolling out a redesigned Crusader fifth wheel in 2024. With a designer's touch, the interior has been intentionally crafted with attention to every detail, creating a flawless flow and class-leading upscale feel to this uniquely modern fifth wheel.

Each of Crusader's floorplans is designed with a focus on space versatility and functionality. From solo campers to large families, and across an array of tow vehicles, there is a floorplan for every customer need.

From modern cabinetry and residentially inspired appliances to unique finishes and tasteful design, Crusader has built an inspiring and premium experience. This fifth wheel is a retreat of thoughtful design that provides the comfort of home in a towable experience.

CRUSADER X FLOORPLANS

Focusing on *UNIQUE DESIGN* and *QUALITY CONSTRUCTION*, Crusader X offers extreme towability for every buyer.

CONSTRUCTION

Crusader is built with Prime Time's ETERNABOND® Construction. Every wall, floor, and slide-out roof is formed from welded aluminum and high density block foam insulation, providing a durable structure and enhanced temperature regulation throughout the coach. High gloss gel coat fiberglass and an upgraded TPO roof membrane protect the exterior of the coach so it remains resistant to the elements.

In addition to high quality building materials, each and every Crusader undergoes a CUSTOMER ASSURANCE INSPECTION after it leaves the assembly line. This ensures the coach is functioning properly while providing constant feedback to the production line so innovation and quality remain top priorities.

1. Upgraded TPO Roof Membrane
2. 3/8" fully Walkable Roof Decking
3. Double Layer Fiberglass Roof Insulation
4. Double Trussed Roof Rafters Throughout
5. Racetrack A/C Ducting - 2 A/C's Standard
6. Eternabond Construction: 5-sided Laminated Aluminum Structure
7. Wood Stuffed Aluminum Studs at Retention Points to Increase Rigidity
8. Anodized Aluminum Backers
9. High Density Block Foam Insulated Side Walls
10. High Gloss Gel Coat Fiberglass Side Walls
11. High Gloss Gel Coat Molded Front Cap
12. Curt Pin Box with a 90 Degree Turn Radius (Half Tons)

A RENEWED COMMITMENT TO QUALITY.

When it comes to choosing an RV, customers demand quality. At Prime Time Manufacturing, we have renewed our commitment to product quality and customer satisfaction with our new **Customer Assurance Inspection (CAI)** process.

Before any RV can be cleared to leave our site, it must first pass a newly-developed, **rigorous 125-point checklist**. Our skilled technicians review every model from top to bottom, both inside and out. We check and double-check the entire unit, from water tanks to the electrical system, roof to underbelly, kitchen appliances and countertops—and everything in-between.

When you choose a Prime Time Manufacturing product, you can be assured that our enhanced commitment to quality has been developed with you in mind. **Choose quality. Choose Prime Time Manufacturing.**

Download the Prime Time Manufacturing mobile app or visit our dynamic online manual to enhance your ownership experience. These interactive options provide incredible ease and insight into use, maintenance and enjoyment of your Prime Time Manufacturing product. From "How-To" videos, pictures and illustrations of various components, systems and features, to fully searchable content and downloadable PDFs for individual component owner's manuals, answers are always just a click away.

View the online manual at <http://www.primetimerv.com/OnlineManual.aspx> or download our FREE app from the App Store or Google Play!

All information contained in this brochure is believed to be accurate at the time of publication. However, during the model year, it may be necessary to make revisions and Forest River, Inc., reserves the right to make all such changes without notice, including prices, colors, materials, equipment and specifications as well as the addition of new models and the discontinuance of models shown in this brochure.

Therefore, please consult with your Forest River, Inc., dealer and confirm the existence of any materials, design or specifications that are material to your purchase decision.

ADDITIONAL SPECIFICATIONS:

GVWR (Gross Vehicle Weight Rating) - is the maximum permissible weight of the unit when fully loaded. It includes all weights, inclusive of all fluids, cargo, optional equipment and accessories. For safety and product performance do NOT exceed the GVWR.

GAWR (Gross Axle Weight Rating) is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by a combination of all axles.

Each Forest River RV is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every Forest River RV prior to leaving our facilities. The load capacity of your unit is designated by weight, not by volume, so you cannot necessarily use all available space when loading your unit.

PRE-DELIVERY INSPECTION FACILITY

20,000 square feet of quality assurance. The bare essentials for a premium product. This state-of-the-art facility gives immediate daily feedback to production for quality assurance in every unit built.
