

LANCE

In a world full of choices and ever-changing trends, some things manage to stand the test of time. Lance Mfg. Co.'s 60-year history as a premier recreational vehicle builder and reputation for attention to quality are two of those things. Over the past six decades, Lance has developed a recipe at the heart of every product that has advanced through time.

The Lance Manufacturing Company, as you know today, began in 1965 in a 500-square-foot facility with the simple goal of building the best slide-in bed truck campers' money can buy. Through innovation, design, advancements in materials, and hard work, Lance Mfg. Co. RV brands have become a premier choice for RV owners across North America.

Precision is key, with every screw location predetermined by computer modeling software, and true 90-degree angles achieved through computer design and CNC cutting. From laser-guided CNC machines and a temperature- and humidity-controlled facility to the little details, such as in-house sewn upholstery or open floor plans with maximized storage and windows, Lance-branded RVs are a combination of modernization and a can-do attitude aimed at creating the most durable camping machines on the road.

Because your RV choice is important, we are excited and honored to show you why you should choose "The Lance"!

DO IT ALL IN A LANCE TRUCK CAMPER

A truck camper is the most versatile RV experience available to you. You do not have the same limitations as other RVs. When you own a truck camper, you enjoy all the benefits of other RVs. When placed on your truck, you have all the maneuverability to travel and park, plus all of your truck's 4x4 and towing capabilities. Do you have any hobbies? Truck campers are an excellent support vehicle for towing them to their destination. Do you travel off-road? Put it in a 4x4. Are you worried about driving an RV? You're driving a truck! You can even remove the camper using its remote-control jacks. Our campers can be left at the campsite for sightseeing, running errands, putting the boat in the lake, taking the quads further up the trail, or engaging in more technical off-road exploration.

MATCHING YOUR TRUCK & CAMPER

* Measured from Inside

Finding the perfect camper for your truck OR the ideal truck for your dream camper is as easy as 123.

TRUCK/CAMPER COMPATIBILITY GUIDE

These are general guidelines to use when matching a Lance camper to your truck and assumes standard equipment on both the truck and camper. Lance makes no warranties or representation – express or implied – as to performance or reliability of your truck with a Lance camper. For professional guidance, always consult with your Factory Authorized Lance Dealer.

HEAVY DUTY F-350/3500 SERIES

Dual Rear Wheel 8' Long Beds
Lance 850
Lance 960
Lance 975
Lance 1062
Lance 1172

BED SIZE: Heavy-duty full-size trucks typically come in two sizes. "Long bed" 8' or "Short bed" 6'4" - 6'10" depending on manufacturer. We build camper options for both lengths.

Long Bed: 850, 960, 975, 1062, 1172 (1172 Dual rear wheels recommended)

Short Bed: 650, 825, 865, 850, and 855s

PAYLOAD CAPACITY: The amount of weight a truck manufacturer recommends you place in the bed. To calculate this number, subtract the curb weight of the vehicle from the recommended GVWR. The GVWR information for your truck is located on a sticker on the driver's side door; often the curb weight is located there as well, or you can visit your local scale.

GVWR - Curb Weight = Payload Capacity

CAMPER WEIGHT: Our lineup of truck campers differs in size and layout, resulting in a variety of options. To match, look at the Wet Weight with standard equipment of the camper and add an estimation of the added weight of optional equipment and your personal items.

Payload Capacity - Camper weight = Match
(result should be a positive number)

THE LANCE DIFFERENCE

DESIGN & CONSTRUCTION

- A. The fiberglass exterior walls are laminated under intense pressure with heat-setting adhesives for years of trouble-free use.
 - B. The roof is covered in energy-star rated synthetic membrane material. Integrated rain gutters and drip spouts prevent the sides of your trailer from streaking.
 - C. Interiors are constructed of Euro-Ply which Lance imports. This superior product is lighter, formaldehyde free and stronger providing both beauty and durability.
 - D. With an aluminum-framed superstructure, the entire camper fits together like a perfect puzzle. "LanceLock™" features interlocking aluminum extrusions to connect all exterior panels.
 - E. Lance utilizes an arrangement of composite materials in a laminated and pressure bonded sandwich construction for structural integrity, superior insulation and sound absorption.
 - F. Rigid block foam insulation fits tight to resist sagging and promotes structural strength. Four Season package also features insulated bed pad.
 - G. Beautiful and aerodynamic, the nose cap is made of TPO, the same material used for bumpers on automobiles. Its high gloss finish is resilient and resistant to the abuses of the road. Its slick surface makes it easier to clean.
- 3D advanced CAD engineering create precise plans that run CNC machinery. The result is that every part is the same and perfect every time.

Keeping it all together are stainless steel fasteners. Unlike our competitors, this expensive hardware resists corrosion making for a lasting investment.

COMPUTER DESIGNED & CUT

Numerical control machining (CNC), uses computer programs to control tools like routing tables to create a close-tolerance high-quality fit. When the angles in your RV are true 90 degree, your RV is more structurally sound to stand the test of use over time.

COMPOSITE CONSTRUCTION

Lance uses Azdel Onboard® composite panels, a patented blend of polypropylene and fiberglass to create a strong, lightweight, quiet, weather and temperature resistant, odorless and environmentally friendly wall that will increase the life of your RV.

We call that high MPM, memories per mile!

* Azdel Onboard® composite panels shown as green for distinction only

We have been the proud owners of two Lance Campers. A 1993 Model 980 that we owned for 23 years, then upgraded to our current 2017 Model 1062. Many trips were taken in these campers—too many photos to share AND choose from. We love the ease of traveling to destinations in our camper. And it can get to places that a bigger rig could not. Fun Fun!!

Linda & Greg T | 2017 1062 | Durango, CO

I use my camper for hunting, fishing, and just random camping adventures. I've owned travel trailers and toy haulers, and my camping trips always seem to be a lot of work. My Lance camper has really simplified my trips, and now it feels like I'm on vacation rather than working the whole time. The camper is so versatile that I can remove the camper to use it for camping and use the truck to put the boat in the water. On my hunts, I pull the Jeep behind the truck and leave the camper on the truck, so all I have to do is unhook the Jeep, level the truck, put my chairs and grill out, and camp is set.

William R | 2021 650

We've had our Lance for about five years now and couldn't be more happy. Every time we were at the beach, we would see people with campers and say, "One Day." Well, when that day came, it changed our lives. We made new friends, which created freedom for us to go to the beach whenever we wanted and even travel to other places. We purchased a Lance truck camper to be able to drive on the beaches in New York. We're able to spend quality time with our friends and family and, at the same time, have all the comforts of home. I wouldn't have changed a thing.

Stacey | 2018 850 | New York, NY

STANDARD FEATURES

SkyMaxx Skylight Vent in Cab-Over. This large vent/skylight provides options of full sun, full shade, or a partial sun/shade combination.

Keyless Entry. This keypad entry allows you the freedom to head out and explore without keys jingling in your pack or swimsuit.

Exterior Wash Station. Rinse your gear or yourself after a day's camping expedition.

Exterior Propane Connection. Link into and draw from your onboard tanks for a BBQ or other accessory.

Solid Surface Galley Area Countertop. Beautiful to live with and non-porous, durable, and easy to maintain.

12V Refrigerator. More space and efficiency with this electric operation variable speed compressor model.

Carpeted & Insulated Bed Base. The cabover has both carpeting and insulation material beneath the bed.

Residential Size Queen Mattress. No RV queens here! A real full length queen mattress that fits your sheets from home.

12V/USB Charging Port in Dinette and Cab-Over Areas. Charge your accessories for another day of making and capturing memories.

Black Tank Flush. Connect an exterior hose to rinse, flush and clean your tank after use.

Quality brands are partnering for a better RV experience. Ultra quiet. Super-efficient. A better experience for you during ownership.

OPTIONAL FEATURES

Lance Load Roof Rack System. Bring your kayak, canoe, or extra storage pod along for the adventure.

Antenna LTE/cell booster. It improves your cell phone's voice and data range, potentially allowing it to function as a Wi-Fi hotspot.

Rear Awning. The awning can be either pull-out or electric, depending on the specific model. Shade your door and rear your camper.

Latitude Awning with a Wind Sensor. Lateral arms eliminate head-knocking horizontal supports and allow for more windows to be added.

Convection/Micro-Air Fryer. It combines the rapid cooking capabilities of microwave ovens with the browning and crisping of a traditional oven.

Ultra Deck Plus. This beefy rear bumper provides more storage and a landing deck.

Ladder & Maggie Rack. Gain entry to your roof with this heavy duty ladder and a place to mount cross bars.

Lithium Batteries. A lighter and more efficient battery that lasts longer and does not require ventilation.

Solar Panel(s). Depending on the model, you can use up to two 100W solar panels. Harness the sun to charge your onboard batteries.

Generator: 2500 Watt LPG (Onan). This propane generator provides true off-grid independence and functionality for all systems. Available on select models.

Satellite Dish Self-Locating. Connect to your satellite TV service.

Backup Camera with Wireless Monitor. This significantly enhances the enjoyment of the back-in and set-up processes.

Full-bladed fan. Ensure your RV stays well-ventilated and dry in any weather condition.

Awning Slide-Out Cover(s). Keep debris off the roof; any debris that falls onto the topper tends to slide off easily.

Child Bunks. Select models offer additional sleeping areas for young children in overhead spaces.

THE TRUCK CAMPER EXPERIENCE

No matter what you're into, a Lance truck camper is the purpose-built support vehicle you need. They drive like your truck and tow like your truck. Your passions are an extension of you. Bring your passion to wherever you want to be and don't compromise on your adventure.

FAMILY

CARRYING CARGO

"I saw in their eyes something I was to see over and over in every part of the nation—a burning desire to go, to move, to get under way, anyplace, away from any Here. They spoke quietly of how they wanted to go someday, to move about, free and unanchored, not toward something but away from something. I saw this look and heard this yearning everywhere in every states I visited. Nearly every American hungers to move."

— John Steinbeck - *Travels with Charley: In Search of America*

MOUNTAIN BIKING

JEEP 4X4

CARS & RACING

ALL THE PLACES YOU CAN GO AND PLACES YOU CAN SEE.

Truck campers are designed to maximize the enjoyment of outdoor living while minimizing costs. Have you ever wanted to visit faraway places but disliked the expenses and hassles of flying and staying in hotels? Or perhaps you're interested in visiting nearby locations, but would prefer a more comfortable time or a short overnight stay? How about remote work and retired life? If you have a truck, you're halfway there. With a Lance Camper on your truck, a day at the beach turns into a home with a view and long road trip is so much more fun when you can pull off wherever you like!

LANCE'S STORY

Since 1965 Lance has been building America's most popular truck campers. Many of them still on the road - a true testament to the company's philosophy that Quality Comes First. In 2008 Lance released their first ultra-light towable. Pioneering a whole new segment of travel trailer with their computer design and cut, composite construction approach to building RVs.

Ideas born from this approach include the use of SolidWorks™ 3D design software. Implementation of laser guided cutting machines. Manufacturing methods such as the use of LanceLock™, Azdel™, Euro-Ply™ and the removal of Mercury and Formaldehyde. Just to name a few examples of the advanced practices and materials that contributes to Lances high quality, eco-friendly, toxin-free, and longer lasting RVs.

That's why Lance has won the prestigious DSI Award (Dealer Satisfaction Index) award a record number of times and is best in Owner Satisfaction by customers who are often repeat buyers and a source of referrals for new customers.

With home base in California - the nation's most demanding state for building safe products - Lance manufactures from a State-of-the-Art Production Campus: Including a 141,000 square foot, 22-acre main operations address. 65,000 square foot "Automated CNC Manufacturing" building and 40,000 square foot "Innovation Center" where Sales, Marketing and Product Development work in conjunction with the Warranty and Service teams, Lance dealer partners and Lance owner feedback to drive forward improvement and new product design.

Lance offers a comprehensive authorized dealership network across the United States and Canada providing sales and service. All dealer partners go through extensive vetting and training. Whether you're a first-time camper or a repeat customer you are sure to have a top-notch experience if you chose Lance.

Designed for ¼ Ton 250/2500+ Short Bed Trucks

We have been building truck campers for going on close to 60 years. Many of us here at Lance pride ourselves on real camping experience and a willingness to listen to our owners. So our campers... are made for real campers.

Automatic Remote Control Jacks raise and lower your camper at the push of a button to make loading and unloading a breeze.

Dove-Tailed & Soft Close Drawers, Heavy Duty Overhead Cabinet Hardware so your gear stays organized and secure.

CAMPING SHOULD BE RELAXING, NOT TAXING.

TPO one-piece front nose cap is the first line of defense against wind and water intrusion, borrowed from automotive bumper design is sleek and cannot delaminate unlike wrapped fiberglass noses.

Dual-Pane Acrylic Windows look phenomenal, provide superior insulation from the elements, eliminate the hot/cold and moisture transfer of glass/ metal frames and fully open so you can smell the breeze.

DÉCOR

Variety is the spice of life and what we refer to as the "The Lance Look"! With three stunning selections, all professionally curated to compliment the cabinetry and key interior features, this might be the most challenging decision you'll have to make!

Bronzite - light beige/gray and light gray

Grayson - medium gray and light gray

Lapis - dark blue and light gray

ENJOY THE RELIABILITY AND CONVENIENCES OF HOME WHEREVER YOUR ADVENTURES MAY TAKE YOU.

Our campers are expertly laid out to be highly usable, spacious and designed to feel like home with modern neutral interiors highlighting a combination of composite and natural extremely durable materials. Familiar quality and functionality insure an instinctive and comfortable transition to a nomadic lifestyle that does not compromise.

We hear they call it "glamping" these days.

Beautiful and durable white quartz solid surface countertops.

Real 3/4" formaldehyde-free wood in all interior walls and cabinetry. Soft close hardware.

Residential faucet fixtures.

YOUR CAMPER AND YOUR TRUCK.

TOWING

When towing behind a larger camper, extending the hitch rearward is necessary. Lance recommends the Torklift SuperHitch receiver hitch and hitch box extension. It replaces standard truck factory receivers to allow for greater towing capacities.*

DEALER INSTALLED SUPPORT EQUIPMENT

KEY SUPPLIER PARTNERS

- 1. Receiver hitch extension** increases your trucks towing capacities and extends your receiver past the camper.
- 2. Front & Rear Turnbuckles** are mounted to the frame to safely and securely attach and anchor the camper to your truck.
- 3. Air Bags / Air springs** provide better handling and control under heavily loaded conditions.
- 4. Sway bars** reduce body roll providing better vehicle control.

Our Lancaster, CA tri facility campus, where all Lance products are manufactured, is unlike any other RV manufacturing facility in the world.

SIX SIGMA CERTIFIED

Strategies which seek to improve manufacturing quality by identifying and removing the causes of defects and minimizing variability in manufacturing and business processes. This is done by using empirical and statistical quality management methods. Each Six Sigma project follows a defined methodology and has specific value targets, such as reducing pollution or increasing customer satisfaction. The Lean philosophy emphasizes teams working together to find ways to reduce waste.

Our investment in the training and implementation of these practices is sure to continually improve our RVs for our owners for years to come.

LEAN, GREEN CAMPING MACHINES

CERTIFIED GREEN: HIGHEST RATING LEVEL: EMERALD

We have been privately evaluated for procedures and practices and measured against criteria based on national consensus standards including: Resource Efficiency, Energy Efficiency, Water Efficiency & Indoor Air Quality. Terms like "Green," "sustainable," and "eco-friendly" are more important now

than ever. Transparency is an important factor in your purchasing decision and since our RVs are meant to visit the great outdoors we feel it is important to make sure we are lessening our impact as much as possible. Lance is committed to making smarter construction and component choices which can be seen directly in our use of formaldehyde free wood products, repurposing of dual-layer Azdel wall panels for shower basins and our use of lit-ply wood.

You can smell the difference in a Lance Camper from our recycling to our refusal to use the off-gassing materials you can smell in many of our competitors.

4 SEASONS COMFORT TECHNOLOGY

LANCE CAMPERS ARE DESIGNED FOR YEAR ROUND CAMPING. INCLUDING WINTER EXPLORATION.

It's all starts with our precision CNC cut manufacturing process. Our machines ensure true 90 degree angles not only ensuring your camper is structurally sound but also free from drafts. Next we pressure bond all walls, floors and ceilings with high density block foam and create a composite construction sandwich. This endures a high R value and superior insulation, keeping you cool when it's hot and toasty and comfortable when it's cold.

Lastly we house all of your tanks and lines within a fully enclosed basement and pump hot air directly from your furnace- keeping your water systems functional when you need them most. N/A 650
