THE DRIVE IS IN THE DETAILS.

THIS ECONOMICAL DIESEL HAS IT ALL: POWERFUL DRIVING, SMOOTH HANDLING, SPACIOUS FLOORPLANS, BEAUTIFUL INTERIORS, AND AMAZING FIXTURES. THE ONLY THING MISSING? YOU.

With a solid-surface countertop, residential appliances and a stylish designer tile backsplash, the gourmet kitchen will bring out the chef in you. And when you don't feel like cooking indoors, take the party outside with the exterior kitchen, available on the 365RB and 341SA. New cockpit dash console includes LED lighting around cupholders and gauges for easier nighttime navigation. Enjoy the added sleeping room when converting the cabover drop-down bunk for extra guests to sleep over at night.

A dashboard monitor with rear and side color cameras makes backing up and navigating tight spaces a breeze.

An exterior entertainment center, complete with a smart TV, brings home entertainment to the great outdoors.

The VAULT foundation features a saddlebag truss design with one-piece steel plate sides; providing a superior cradle foundation and maximizing underneath storage.

Photography features the Sportscoach SRS 341SA floorplan with Sandcastle interior and Cloud cabinetry.

Strip lighting integrated into the ceiling provides more light and a cleaner ceiling.

Sportscoach SRS 341SA comes equipped with a free-standing dinette for a residential touch and plenty of storage and cabinet space.

Kick back, relax on your sofa or power theater seating and enjoy a movie on the living room TV.

New square windows provide more airflow and a refined look. Integrated day/night shades are easy to use and create less road noise than traditional blinds.

The flush floor from the cockpit to rear of the unit results in no steps in the interior.

The stylish bedroom in Sportscoach SRS 341SA will have you looking forward to bedtime. The electric fireplace creates the perfect ambiance. A comfortable mattress and modern decor complete the perfect environment for rest and relaxation.

A generous dresser keeps your wardrobe organized through all seasons. It's a traveler's dream come true.

Built with a medicine cabinet, vessel sink and porcelain touches, the bathroom is both appealingly designed and easy to clean.

Sportscoach SRS includes three floorplan options, so you'll have no trouble choosing the one that suits you perfectly.

GVWR (Gross Vehicle Weight Rating) is the maximum permissible weight of the unit when fully loaded. It includes all weights, inclusive of all fluids, occupants, cargo, optional equipment and accessories. For safety and product performance do NOT exceed the GVWR.

GCWR (Gross Combined Weight Rating) is the maximum permissible loaded weight of your motor home and any towed trailer or towed vehicle. Actual GCWR of this vehicle may be limited by the sum of the GVWR and the installed hitch receiver maximum capacity rating; see hitch rating label for detail.

GAWR (Gross Axle Weight Rating) is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by each axle.

UVW (Unloaded Vehicle Weight)* is the typical weight of the unit as manufactured at the factory. It includes all weight at the unit's axle(s), including full fuel, all fluids and LP Gas. The UVW does not include cargo, fresh potable water, additional optional equipment or dealer installed accessories.

*Estimated Average based on standard build optional equipment.

CCC (Cargo Carrying Capacity)** is the amount of weight available for fresh potable water, cargo, passengers, additional optional equipment and accessories. CCC is equal to GVWR minus UVW. Available CCC should accommodate fresh potable water (8.3 lbs per gallon). Before filling the fresh water tank, empty the black and gray tanks to provide for more cargo capacity.

** Estimated average based on standard build optional equipment

Each Coachmen motorhome is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every Coachmen motorhome prior to leaving our facilities.

The load capacity of your unit is designated by weight, not by volume, so you cannot necessarily use all available space when loading your unit.

Actual towing capacity is dependent upon your particular loading and towing circumstances, which includes the GVWR, GAWR and GCWR as well as adequate trailer brakes. Please refer to the Operator's Manual of your vehicle for further towing information.

All information contained in this brochure is believed to be accurate at the time of publication. However, during the model year, it may be necessary to make revisions and Coachmen reserves the right to make all such changes without notice, including prices, colors, materials, equipment and specifications as well as the addition of new models and the discontinuance of models shown in this brochure. Therefore, please consult with your Coachmen dealer and confirm the existence of any materials, design or specifications that are material to your purchase decision.

Notes:

¹Mandatory For All Canadian Provinces

THE COACHMEN ADVANTAGE

What is the Coachmen advantage? It's the collection of unique features offered in a Coachmen motorhome to ensure a smoother ride, a better camping experience, and a motorhome that will last for years.

1. NOBLE SELECT™

Protected by a three-year warranty, these sidewalls have a high-gloss gelcoat finish to prevent fading. They are also 20% lighter than wood substrate sidewalls, provide more occupant cargo carrying capacity, and offer three times the insulation against extreme climates.

2. AZDEL™ COMPOSITE

Most manufacturers use wood sidewalls that can expand, swell, and eventually mold. We use Azdel. It's impervious to water, won't rot or mold, and with less than a 1% chance of delaminating, it ensures the long-term integrity of the sidewalls.

3. REINFORCED LAMINATION

We vacuum bond and pinch roll every sidewall, floor, and roof, then perform a pull adhesion test. Most manufacturers just do one process or the other, but by doing both we improve the strength and longevity of the sidewalls.

4. FOREFRONT OF TECHNOLOGY

We offer the latest in technology by pairing electronics with smart phones. A safer and larger viewing area is achieved when dual-mirroring your smart phone GPS to the 10" dash radio and backup system. Play your favorite songs from your favorite apps through Apple Car Play and Android Auto Link.

5. SIGHT RITE DASH™

Our dashes are angled 20 degrees forward. This increases the line of sight for the driver, and offers the best road visibility on the market.

6. COOL STREAM DUCT™

Our patented duct system evenly disperses air through the whole coach. We use residential ducting instead of Styrofoam because it's antimicrobial, preventing the growth of bacteria and ensuring a cool, clean coach in even scorching heat.

7. DIGITAL OWNER'S MANUAL

Our owner's manuals are easy to access through the Coachmen website or our free app. Supplemented with videos, PowerPoints, and more, it's got all you need to know about your coach.
