

QUALITY

Winnebago RVs are designed and built around you, with superior craftsmanship, advanced manufacturing technologies and steel-focused construction to enhance safety and reliability.

INNOVATION

From groundbreaking RVs to game-changing features to the spacious floorplans made possible by our SmartSpace™ design, our heritage is unrivaled for continuous industry firsts in vehicle technology and design.

SERVICE

Our carefully chosen dealers are supported by factory training and our advanced parts supply system, while owners benefit from excellent real-world customer support as well as 24/7 access to online technical information.

BELONGING

Winnebago owners are a connected community – some of the friendliest, most knowledgeable and welcoming RVers you'll find anywhere.

M-SERIES

NO FRILLS. ALL THRILLS.

When you feel the open road calling, we have your answer. Introducing the M-Series. A budget-friendly travel trailer that puts exploring the great outdoors with all the comforts of home well within reach. Designed with the simplicity, functionality, and style you crave, this easy-to-tow trailer includes all the essentials.

Effortless Travel

Spontaneous getaways are the inspiration behind our M-Series. Designed to get you on the road, comfortably and confidently, the trailer hitches up easily and is light enough to tow behind a smaller truck. The narrower 7' design and dual spring leaf axles make towing a breeze, so your escape starts the moment you hit the road.

Home on-the-go Essentials

The M-Series comes equipped for comfort and convenience with enclosed holding tanks and an optional 200-watt solar panel w/ 30-amp charge controller. Plus, all-in-one control panel, 13.5 BTU A/C, TV and antenna prep, and USB charge ports.

Thoughtful Design

We understand that every ounce counts. So, within a smaller footprint, the meticulous craftsmanship and attention to detail of the M-Series create an oasis with amenities for comfort and safety, while optimizing space and weight. This means you can bring along the gear and goodies you need without any unnecessary bulk.

Outdoor Living

In camp, setup and leveling are easy thanks to the power tongue jack and manual stabilization jacks. Add some shade with the powered patio awning with LED lighting for evening ambiance. The exterior hot/cold wash station makes freshening up a breeze and doubles as an al fresco shower.

Travel Light. Adventure Right.

Open Road Comfort

The M-Series is equipped with everything you need, and nothing you don't. Step inside to a welcoming, comfortable haven with clean, simple styling and amazing options, like a private bedroom. Natural light pours in through tons of large windows. And versatile floorplans mean you're set to work, play, and relax in the great outdoors.

Well-Equipped Galley

We designed the M-Series galley to make cooking a pleasure, with wrap around windows for an amazing view. It's equipped with a full sink, 2-burner cooktop with campside LP Quick-Connect, microwave convection oven, and a 10.3 cu. ft. 12-volt refrigerator. And we made sure you have ample counter space to prep and serve.

Full Bath

Camping in an M-Series is far from roughing it. All floorplans include a dry bath equipped with full shower, basin sink, and standalone foot flush toilet. Storage and counterspace give you room for your necessities and a vent fan along with a skylight help keep the bathroom fresh and bright.

Room To Snooze

When the day comes to an end, hit the hay with plenty of comfortable sleeping space. The M-Series design includes a queen bed plus the storage you need to stay organized. With both underbed and side storage plus wardrobe to hang clothes, you have the perfect space to rest and recharge.

Warranty

See your dealer for complete warranty information.

FOOTNOTES

- The height of each model is measured to the top of the tallest standard feature and is based on the curb weight of a typically equipped unit. The actual height of our vehicle may vary by several inches depending on chassis or equipment variations. Please contact your dealer for further information.
- Capacities are based on measurements prior to tank installation. Slight capacity variations can result due to installation applications.
- Capacities shown are tank manufacturer's listed water capacity (W.C.). Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank.
- Sleeping capacity is the maximum based on a specific floorplan.

Because features, specification, equipment, and options may vary from those highlighted here, the buyer is responsible for confirming with the dealer the features, specifications, equipment, and options included in their specific vehicle.

In addition, Winnebago's program of continuous product improvement may result in changes to vehicle specifications, equipment, model availability, and price without notice.
