

SCOUT

EXPLORE THE POSSIBILITIES

Go where you've never been before.

If you're reading this, you're probably just as passionate about the great outdoors as we are. Our story began as an adventure to build something that was truly inspired by nature - its beauty, simplicity, and constant change.

Scout is an invitation to travel lighter, more sustainably, and to discover life further off the grid.

A simple philosophy.

Minimalist

The freedom is yours: travel fully loaded, or take only the core essentials.

We took the complexity out of camper ownership with low maintenance systems, flexible gear storage, easy-to-clean surfaces, and options that get you the most out of your payload.

Sustainable

Energy efficient design, lightweight build, and powered by the sun.

Solar: 175W monocrystalline solar panel with portable power station.

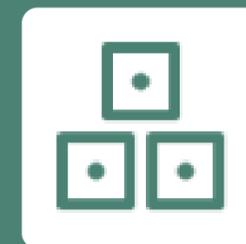

Water: portable 4.9 gal water storage with charcoal filtration system

Built To Last

Intuitive all-season comfort, weatherproof components and compartments, and field tested reliability.

Stay rust and rot-free with Scout's aluminum exoskeleton, composite structural panels, and breathable indoor/outdoor performance fabrics.

Modular

Portable amenities that offer more versatility when traveling: use camper features indoors, outdoors, or on other adventures.

Create your perfect overland basecamp with a wide selection of optional features and aftermarket add-ons.

Made especially for _____.

Adventurous Families

Scout is the perfect family camper. The optional pop-up tent is great for children, the portable amenities can be taken out to other events like sports tournaments or BBQs, and its hybrid composite construction means it's safe & reliable for 4-season travel.

Outdoor Enthusiasts

Scout's off-grid capability and self-sufficiency make it ideal for those who want to recreate in nature and enjoy outdoor sports like biking, fishing, climbing, hiking, and snow sports. Scout allows users to explore remotely to access nature-rich locations.

Weekend Warriors

Scout is made for those who live for the weekend and value getting away from the city swiftly. The simplicity of each unit allows users to plan spontaneously and collect what they need, like water, power and food, on the way.

Key Features

Made in the USA.

Family owned with over 55 years of experience manufacturing campers in North America.

Everything from our fiber reinforced composite panels to many finishing components are crafted and installed by a local team, and suppliers.

4-Season ready.

Scout's insulated hard walls efficiently maintain temperature levels within the camper.

Combined with the dry heat of Scout's diesel heater, standard ventilation, and integrated thermal barriers, Scout owners enjoy all four seasons without compromising on comfort.

Patented design.

Scout's iconic style is patented with a unique, aerodynamic bull-nose front that is instantly recognizable.

Our precision engineering harnesses the best materials and leverages technologies from a wide range of industries; aerospace, marine, and automotive.

Compliance and safety.

Our products are certified to ensure safety and compliance through RVIA, adopting standards from NFPA, NEC, and ANSI.

These measures authenticate your safety, with each build QC'd for compliance to quality and safety standards.

TUKTUT

Add-on's and upgrades:

 Goal Zero Yeti 3000X Lithium Power Station
 4.9 Gal Portable Water Storage + Filtration
 9.5 Cubic Feet of Lockable Storage
 52" x 80" Main Sleeper Bunk
 Mud Room Entrance + Drain Pan

Where can I view a Scout?

One of our brand reps will have the most accurate information regarding dealership locations, inventory and lead time for your area. You can connect with our reps directly by using the contact form online at scoutcampers.com/contact.

Also feel free to ask about our 360 virtual Matterport tours!

Is the camper built for cold weather camping?

Yes! Scout campers are constructed for 4-season travel and offer plenty of comfort for cold weather camping. The optional rear-mounted diesel heater is ideal for colder climates, and the exterior gear locker is a great place to store gear, skis and snowboards. All of these things make Scout the perfect winter basecamp for snow sport enthusiasts.

Where is the bathroom?

Each Scout comes with spray wand water storage, with the option to add a 2.6 gal portable toilet. Our Kenai model offers an additional stow away cassette toilet, mud pan entryway, and a 360 privacy curtain. A designated, pre-wired cubby for a heated rinse station makes Kenai our most fully-featured Scout model, yet.

Can you use the camper while it's off the truck?

Yes, our campers are designed to be used off the truck. You can purchase a Scout with lightweight removable camper jacks to help with easy onload/offload. One of the great things about truck campers is that they give you the ability to set up camp, off-load your camper and then freedom to use your truck for other things like hunting, launch the boat, running to town, etc.

How does the truck camper secure to my truck?

The camper secures to your truck through a ratchet/hook system that connects to the floor anchors in your truck box. All Scout campers come standard with a ratchet tie down system.

Is there an option for air conditioning?

While we don't currently offer AC, each unit comes standard with integrated ventilation/exhaust in the galley, and double pane windows on both sides of the camper that can be opened to create a cross-breeze.

What makes Scout a great off-grid camper?

Scout campers give you everything you need to leave cities and campsites behind. It's for those who want to be totally self-reliant and independent when they travel. Scout's 4-season construction means that you can remain self-sufficient all year round with optional add-ons that can enhance your off-grid camping experience. Scout stands out as a lightweight truck camper because of its portability, energy efficiency, and options for customization.

How long does the pop-up tent take to set up?

The roof top tent option, available for the Olympic and Kenai hardwall models, is very simple to set up. All you have to do is open the latches and then pop it open. The tent can be accessed from inside the camper through a hatch we build over the dinette. It also comes with a ladder for exterior access.

Is there a warranty?

Yes, all Scout campers come with a 3 year structural warranty that begins as soon as you take delivery.

What our customers are saying:

“We just picked up our scout Olympic camper from the manufacturer and had the best experience. [...] Our delivery specialist called us leading up and emailed us all the information we needed so we were fully prepared when we arrived. She gave us a complete tour of our camper and factory answered all of our questions and allowed us time to test things out ourselves. Couldn't recommend this company enough, very thorough, welcoming and competent.”

Google Review, Allison Volpe

“I absolutely love my Scout Yoho camper! I've had it for almost a year and any questions, concerns, or problems I've had have been resolved in a timely manner.”

Google Review, Sarah Stroup

“We bought a Scout camper in 2020. We have loved it. We have had our camper in for service with Adventurer Manufacturing a few times and all of our interactions have been amazing. They have been so great to work with. They are responsive and have taken good care of us and have done quality work. We have been very impressed with how they have gone above and beyond to help us out with any issues. Our recent interactions with Christal were awesome. Top notch customer service!”

Google Review, Heather Clarke

“Adventure Manufacturing makes several styles of campers. The one we have is the SCOUT YOHO. It's a perfect fit for our Ram 1500 6'4" bed crew cab. Customer support at Adventure Manufacturing has been exceptional. Every time we've had a question, they've come through. They are a great Company!”

Google Review, Gene Arnest

“We love our Scout camper and how minimalist and beautifully designed it is. The Scout/Adventurer people really care about the experiences we have with their products and do their best to provide quality and service above and beyond.”

Google Review, Amy Earle

“I cannot say enough about our Scout Kenai and the staff working at Adventurer. First, our Kenai is by far one of our best purchases, it has allowed us the freedom to travel wherever we want and work remotely from just about anywhere. The space is perfect for the two of us and our dog, really we don't want anyone else with us! The staff at Adventurers is AMAZING, every time I have called, they haven't passed the buck, they have handled and remedied the situation. [...] I appreciate y'all and giving us a camper that meets our minimalist lifestyle while still letting us embrace adventure! Thank you!”

Google Review, Tonya Dobson
