OUR COMPANY TAKES PRIDE IN OUR FIVE GUIDING PRINCIPLES AND OUR CORPORATE PHILOSOPHY
 which focuses on people working together to create high quality, value-added products that deliver the ultimate RV experience.

Sustainable Manufacturing

An important objective to our strategy and operations is to implement economically sound manufacturing processes to reduce/ recycle waste & conserve energy and natural resources.

Corporate & Social Responsibility

We foster a business environment in which we focus on and practice:
 - Ethical Labor Practices
 - Teamwork
 - Philanthropy
 - Volunteering

Culture & Values

We are a forward thinking company committed to fostering a culture of teamwork. By being transparent, we encourage our employees to think outside the box and make a difference!

Quality & Construction

Our team takes pride in each unit we build. Our manufacturing standards and point to point inspections ensure each EAST TO WEST brand is built to the same quality specifications every time.

Our Commitment

We strive to provide the highest quality products at the best possible price to our customers. We invite you to be a part of the EAST TO WEST family and we look forward to exceeding your expectations!

CUSTOMER SATISFACTION

www.ForestRiverBuyLocal.com

PRE-DELIVERY INSPECTION FACILITY

20,000 square feet of quality assurance. The bare essentials for a premium product. This state-of-the-art facility gives immediate daily feedback to production for quality assurance in every unit built.

SPECIFICATION DEFINITIONS

GVWR (Gross Vehicle Weight Rating) - is the maximum permissible weight of the unit when fully loaded. It includes all weights, inclusive of all fluids, cargo, optional equipment and accessories. For safety and product performance do NOT exceed the GVWR.

GAWR (Gross Axle Weight Rating) - is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by a combination of all axles.

UVW (Unloaded Vehicle Weight)* - is the typical weight of the unit as manufactured at the factory. It includes all weight at the unit's axle(s) and tongue or pin and LP Gas. The UVW does not include cargo, fresh potable water, additional optional equipment or dealer installed accessories.

*Estimated average based on standard build optional equipment.

CCC (Cargo Carrying Capacity)** - is the amount of weight available for fresh potable water, cargo, additional optional equipment and accessories. CCC is equal to GVWR minus UVW. Available CCC should accommodate fresh potable water (8.3 lbs per gallon). Before filling the fresh water tank, empty the black and gray tanks to provide for more cargo capacity.

** Estimated average based on standard build optional equipment

Each Forest River RV is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every Forest River RV prior to leaving our facilities.

The load capacity of your unit is designated by weight, not by volume, so you cannot necessarily use all available space when loading your unit.
