“ We upgraded from a smaller single-axle trailer, but even at 23 feet it’s a joy to tow and it’s easy to navigate into most campsites.”
TAYLOR AND MARTI International 23FB Owners

“ Our biggest reason for purchasing the 25FB was the Rear Hatch option – it’s a game-changer. We can’t imagine not having it open while we eat or read.”

How It's Made

Informed by more than 90 years of quality craftsmanship and expert design, Airstream travel trailers are hand-made in Jackson Center, Ohio. Only the best materials are used – from seamless, waterproof composite flooring, to the hardware and finishes we use to build our cabinetry, to the rivets and aluminum that form the shell. In building our world-famous travel trailers, we rarely do things the easy way. That's why an Airstream travel trailer can last a lifetime – or more – and be passed down from generation to generation for years of enjoyment.
