## MORE THAN 60 YEARS OF PROUD HISTORY...

Providing adventure, freedom, flexibility, reliability, safety & security. Coachmen . . . it's a brand you can trust.

Coachmen RV, a division of Forest River, Inc., is headquartered in Middlebury, Indiana, with our primary manufacturing facilities on nearly 220 acres with over 23 acres under roof.

Compare the Coachmen advantages and you will see why Coachmen is the Leader to the Great Outdoors.

# COACHMEN

A FOREST RIVER BRAND

## LEADER TO THE GREAT OUTDOORS

# THE COACHMEN ADVANTAGE

What is the Coachmen advantage? It's the collection of unique features offered in a Coachmen RV to ensure a smoother ride, a better camping experience, and a trailer that will last for years.

## REINFORCED LAMINATION

We vacuum bond and pinch roll every sidewall, then perform a pull-adhesion test.

Most manufacturers just do one process or the other, but by doing both we improve the strength and longevity of the sidewalls.

## COOL STREAM DUCT™

Our patented duct system evenly disperses air through the whole coach.

We use residential ducting instead of Styrofoam because it's antimicrobial, preventing the growth of bacteria and ensuring a cool, clean coach in even scorching heat.

## AZDEL™ COMPOSITE

Most manufacturers use wood sidewalls that can expand, swell, and eventually mold.

We use Azdel.

It's impervious to water, won't rot or mold, and with less than a 1% chance of delaminating, it ensures the long-term integrity of the sidewalls.

## DIGITAL OWNER'S MANUAL

Our owner's manuals are easy to access through the Coachmen website or our free app.

Supplemented with videos, PowerPoints, and more, it's got all you need to know about your coach.
