

STARCRAFT®

THE FUTURE OF CAMPING | pure and simple.

AR-ONE 7' & 8' WIDE ENTRY-LEVEL TRAVEL TRAILERS

AR-ONE

TAKES YOU TO OTHER WORLDS OF VALUE AND ENJOYMENT.

Model 18QB shown.

JUST LIKE HOME.

They may be light weight, but not light on styling and comfort. AR-ONE MAXX models provide 81" interior ceiling height, upgraded furniture quality, Honey-glazed Cherry wood cabinetry, many floorplan options and much more!

Model 27BHS shown.

THEY'RE FOR EVERYONE.

If this is your first family travel trailer or if you're a seasoned RVer looking for a simpler camping unit, AR-ONE MAXX delivers what you need in lasting value. These easy to tow trailers are packed with quality construction features like 5/8" tongue-and-groove plywood floor, structural steel I-beam frame, screwed together (not stapled) cabinet stiles, 48-gallon fresh water capacity, dark tinted safety glass windows, and many more. They are also value priced, backed by Starcraft's industry-leading 2-year warranty, and many models can be towed by mid-sized SUVs and minivans.

UFO

UNBELIEVABLE FEATURES & OPTIONS.

ELECTRIC AWNING.

This power awning operates at the touch of a button. It is just one of the many standard upgrades as part of our Show Stopper package. See page 5 for more details.

UPGRADED SINK.

The AR-ONE models come with a large sink with high rise kitchen faucet as standard. The sink cover pictured is also part of the Show Stopper package (MAXX series).

MANY FLOORPLANS.

Starcraft has always offered a variety of living configurations. These double bunks are available on 26BH and 27BHS models. Rated for 600 lbs., most competition's are 250 lb.

STABILIZER JACKS.

Scissor-style stabilizer jacks are bolted in place (not screwed on like the competition) and available on AR-ONE MAXX series. They are located at the unit's front and rear.

QUALITY OVEN.

A convenient three-burner, brand-name gas oven is optional. AR-ONE models feature an auto changeover LP regulator for LP bottles as standard equipment (MAXX series).

OUTSIDE SHOWER.

This lockable, outside shower compartment is another great feature available on the MAXX series. Hot and cold water and a shower wand with adjustable head is standard.

SPACE AGE CONSTRUCTION FEATURES.

For over 50 years Starcraft RV's reputation has been built around top-quality products. Each is designed to provide years of trouble-free use. Backed by a 2-year limited warranty, our innovation and quality start with a solid foundation. Compare and you'll see just how much care and meticulous attention to "doing it right" goes into every Starcraft.

SEE THE FULL COMPARISON ONLINE AT
STARCRAFTCAMPING.COM

US 4,500 lbs. on a Starcraft roof!

THEM Same weight on a competitor's style roof.

US Vertical wood studs for added support.

THEM Little aluminum brace, if that.

STRONGEST ROOF EVER!

Strength is one of the basic principles of engineering: the stronger something is built, the longer it will last. At Starcraft, we understand strength comes from within, which is why we focused on the smallest of details when constructing our exclusive Magnum Roof System. From sturdier vertical studs to 7" header beams, we pride ourselves on staying at the top of our game—building stronger products that last.

US We use large oversized nail plates on both sides.

THEM They use smaller and only on one side of truss.

Our optional Climate Package extends your camping season and provides protection against frigid temperatures with its insulated, heated and enclosed underbelly.

DURABLE CONSTRUCTION

A firm foundation is built on 2"x3" floor joists with 5/8" tongue-and-groove plywood. The walls provide a long-lasting structure with 2"x2" wooden studs on 16" centers and .024 aluminum exterior siding. A one-piece seamless rubber roof membrane covers 4-1/2" arched trusses while 3/8" decking adds protection from the elements.

AR-ONE MAXX 8' WIDE TRAILERS

Model 30BHU shown.

Model 30BHU shown.

Model 27BHS shown.

STARMAXX™ PASS-THRU STORAGE SYSTEM.

AR-ONE MAXX series models are available with this optional front storage compartment we call StarMAXX Pass-Thru. It's a large, integrated pass-through storage with many exclusive features like bolted tie-downs, a convenient battery disconnect, durable rubber floor, unique Toy-Loc security device and more!

AR-ONE (7' WIDE)

The standard AR-ONE models in this stellar lineup are among the lightest, easiest to tow travel trailers available today. They're value-packed with quality features like standard stabilizer jacks, dark-tinted safety glass, hardwood cabinet doors, Magnum Roof system, A/C unit and more. The 15RB and 18FB models come with our exclusive tent material called Aqualon. With a 7-year tent warranty, our mold resistant, double-stitched AquaShield Aqualon material doesn't stretch, shrink or crack, and provides long-lasting durability even when it's up against severe elements.

AR-ONE. THE FUTURE OF CAMPING JUST GOT BRIGHTER!

LANDED IN 1964. Starcraft is one of the oldest and most respected names in the RV industry. In fact, we've been around since 1903. Back then, we made our name building livestock tanks and other metal farm equipment. In the 1920's, we added a variety of boats to our product lineup. And in 1964, we entered—and revolutionized—the modern camping industry.

UNHEARD OF 2-YEAR WARRANTY.

The Starcraft warranty is a manufacturer's limited warranty. Each Starcraft is warranted to the original purchaser for 24 months from the original date of purchase against defects in materials and workmanship. For a copy of the limited warranty with full terms and conditions, ask your local Starcraft RV dealer.

eco advantage™

SAVING THE PLANET. The Starcraft EcoAdvantage™ is our company's commitment to protecting the environment. Through smart sustainability efforts, we're creating better ways to build better RVs using fewer or renewable natural resources. This is our commitment to you—to build a better RV so that we can do a better job of protecting our planet.

GET MORE OF WHAT YOU NEED IN CYBERSPACE.

Explore more Starcraft RVs by visiting our world-class website. This advanced, digital-age-friendly site offers more product photo galleries, construction information, videos, the latest floorplans, specifications and other great features to assist you. All information contained in this brochure is the latest available at the time of publication approval. Starcraft reserves the right to make changes and to discontinue models without notice or obligation. Photography may show optional equipment or props used for promotional purposes. RVs built for sale in Canada may differ to conform to Canadian codes. Check with your authorized Starcraft dealer for the latest information.

Unloaded Vehicle Weight (UVW): Sometimes referred to as "Dry Weight," UVW means the typical weight of this trailer as built at the factory. The UVW, as used in product literature and other promotional materials, does not include cargo, fresh water, propane, options or dealer-installed accessories.

Gross Vehicle Weight Rating (GVWR): GVWR means the maximum permissible weight of the trailer, including UVW plus passengers, personal items, all cargo, fluids, options, and dealer-installed accessories. The GVWR is equal to or greater than the sum of the UVW and the CCC.

Cargo Carrying Capacity (CCC): Means the maximum weight of all passengers, personal items, food, fresh water, propane, tools, other cargo and dealer-installed accessories that can be carried by the trailer. CCC is equal to or less than GVWR minus UVW. The addition of options will decrease the CCC.

Hitch Weight (HW): The hitch weight, as used in product literature and other promotional materials, does not include cargo, fresh water, propane gas, options or

dealer-installed accessories. The addition of these types of items will either add to or subtract from the stated hitch weight.

It is important for your safety and enjoyment that your tow vehicle be adequately sized and equipped to tow and handle the GVWR of the RV you select. Review weights and rating of your tow vehicle and consult a competent advisor for questions or advice. Whether you are new to RVing or a veteran, get a feel for the performance of your tow vehicle before heading out on the roadways. When you tow an RV, you must drive differently than when you drive a single vehicle. Practice hooking up, driving, backing up and braking in a safe environment or seek out professional instruction. Starcraft affixes a weight label to each RV which lists weight information for that vehicle. See specifications chart in this brochure.
