## SOLAIRE ULTRA LITES

The Ultra Lite trailers approach the light-weight class with special emphasis on towability. Matched with the Dexter® Tor Flex Torsion Axle and you have a very smooth towing experience compared to other competitor's products. With a new approach Solaire trailers are available at three different price points.

[SEE OUR WEBSITE FOR A COMPLETE LIST OF AVAILABLE OPTIONS](#)

**NEW** Hammered aluminum finish exterior kitchen counter tops.

Solaires include a standard torsion axle with independent wheel suspension and includes rubber cushioning to eliminate the metal on metal contact.

The electric awning with self-contained LED light strip provides quick and easy set-up.

LED interior lighting provides:

- 80% less power
- Emits less heat
- LED's last 30,000 hours vs. 1,000 hours of halogen

- COB (chip on board) is the latest technology in LED lighting
- COB's and bulbs are both 3200k, for consistent appearance throughout

**NEW** Slow Rise roller night shades (included in Touring and GT3 pkgs option on Ultras)

**VACUUM-BONDED LAMINATED CONSTRUCTION**

Solaire provides a fully 6 sided vacuum-bonded trailer. Our walls, floors, roof, fronts and backs are all built vacuum-bonded to ensure a light weight strong structural trailer.

**VALTED RADIUS ROOF**

Vacuum bonded radius roof with vaulted ceiling providing superior insulation and more interior height.

SINCE 1968

# PALOMINO

Recreational Vehicles

a Division of Forest River

Forest River, Inc. encourages our customers to purchase their Forest River products from a local dealership whenever possible for the following reasons:

- 1) Forest River, Inc. dealers are independently owned and operated businesses so priority service and scheduling is at their discretion and is often provided to customers that purchased their unit at that dealership.
- 2) Purchasing locally allows customers to establish meaningful relationships with a dealer, enhancing the RV experience through assistance with product questions, user tips or RV regulations for your state or country, and much more!
- 3) Canadian customers must meet requirements to bring an RV purchased out of the country to their home. These requirements may involve additional inspections and certifications, taxes and fees. Your local Canadian Dealer is a professional at meeting these requirements.
- 4) Scheduling timely warranty repairs and adjustments through a local dealership provides far greater flexibility and convenience to you, the customer!

It is the goal of Forest River, Inc. that all of our RV owners fully enjoy the RV experience and that customer satisfaction meets or exceeds their expectations!

#### PRE-DELIVERY INSPECTION FACILITY

20,000 square feet of quality assurance. The bare essentials for a premium product. This state-of-the-art facility gives immediate daily feedback to production for quality assurance in every unit built.

#### Specification Definitions

**GVWR (Gross Vehicle Weight Rating)** - is the maximum permissible weight of the unit when fully loaded. It includes all weights, inclusive of all fluids, cargo, optional equipment and accessories. For safety and product performance do NOT exceed the GVWR.

**GAWR (Gross Axle Weight Rating)** - is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by a combination of all axles.

**UVW (Unloaded Vehicle Weight)\*** - is the typical weight of the unit as manufactured at the factory. It includes all weight at the unit's axle(s) and tongue or pin and LP Gas. The UVW does not include cargo, fresh potable water, additional optional equipment or dealer installed accessories.

\*Estimated average based on standard build optional equipment.

**CCC (Cargo Carrying Capacity)\*\*** - is the amount of weight available for fresh potable water, cargo, additional optional equipment and accessories. CCC is equal to GVWR minus UVW. Available CCC should accommodate fresh potable water (8.3 lbs per gallon). Before filling the fresh water tank, empty the black and gray tanks to provide for more cargo capacity.

\*\* Estimated average based on standard build optional equipment

Each Forest River RV is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every Forest River RV prior to leaving our facilities.

The load capacity of your unit is designated by weight, not by volume, so you cannot necessarily use all available space when loading your unit.

All information contained in this brochure is believed to be accurate at the time of publication. However, during the model year, it may be necessary to make revisions and Forest River, Inc., reserves the right to make all such changes without notice, including prices, colors, materials, equipment and specifications as well as the addition of new models and the discontinuance of models shown in this brochure. Therefore, please consult with your Forest River, Inc., dealer and confirm the existence of any materials, design or specifications that are material to your purchase decision. Litho.
