WINNEBAGO[®]

WHY JOURNEY?

Revolutionary Maxum Chassis[®]
New front and rear styling
with full-body paint

Infotainment Center with
Rand McNally RV GPS
MCD solar/blackout
roller shades

Expansive exterior storage
Premier clearcoat
automotive finish

Multi-plex wiring system
TrueAir[®] Maximum Comfort
air conditioning

Larger, frameless, dual-pane
Contour[™] windows to enhance
natural light

On the Cover: 42E Iron Gray Full-Body Paint

42E Splendor with Coffee-Glazed Honey Cherry Cabinetry

New Look. Legendary Performance.

The first thing you'll notice about the Journey® is the eye-catching design of the all-new full-body paint schemes. But what you'll remember is the uncompromising performance of the revolutionary Maxum Chassis® that delivers a world-class ride while

still offering up to 229 cubic feet of storage. This year's Journey features new front and rear cap styling, Versa swivel cab seats, frameless dual-pane coach windows, and three floorplans. Get noticed and get moving in the Winnebago® Journey.

Recognized Quality

The Recreation Vehicle Dealer Association annually rates RV manufacturers and awards the Quality Circle Award to manufacturers that provide exceptional products, service and support. Winnebago Industries is proud to be the only manufacturer that has received this award every year since its inception.

42E Splendor with Coffee-Glazed Honey Cherry Cabinetry

Kick back in the Ultraleather™ Rest Easy® sofa or Rest Easy extendable sectional sofa and watch movies come to life on the massive HDTV and home theater soundbar system. When it's time to eat, settle into the Glide & Dine dining table and enjoy a home-cooked meal. With LED lighting, MCD solar/blackout roller shades, and a fireplace (standard in the 40R, 42E and available in the 36M), you can create an atmosphere perfectly suited to your tastes. When things heat up, the TrueAir® Maximum Comfort air conditioning kicks in to keep you comfortable no matter what mother nature has in store.

42E Available Fireplace

Extendable Sectional Rest Easy Sofa as Bed

42E Ottoman Storage

42E TV Storage

42E Glide & Dine Extended

The Glide & Dine dining table is built on a hidden track, so the tabletop can slide along the buffet to accommodate a variety of activities. Slide it to the far end for maximum workspace, or keep it in the middle so diners can sit on both sides. The HDTV retracts into the buffet with the click of a button so you can enjoy the view.

42E Glide & Dine Dining Table

42E Glide & Dine Dining Table

42E Glide & Dine Dining Table

Corian® countertops and a stunning residential stainless steel French door refrigerator/freezer share center stage in the breathtaking galley. Enjoy unlimited cooking flexibility with the microwave/convection oven and 3-burner range top. A designated pot filler faucet adds to your cooking convenience in the 40R.

Dash

The smooth ride of the Maxum Chassis® may grab your attention, but the Infotainment Center with Rand McNally RV GPS steals the show. It features a 10.4" touch screen, a second touch screen passenger monitor, turn-by-turn voice guidance, CD/DVD player, Bluetooth™ connectivity, and so much more. It even acts as your rearview and sideview camera monitor. Enjoy it all from an Ultraleather Versa swivel cab seat with 6-way power adjustments.

JOURNEY Exterior

WINNEBAGO

New styling and full-body paint with a premium clearcoat finish make the Journey one of the best looking coaches on the road. Take full advantage of the powered patio awning with LED lighting by adding the exterior entertainment center with HDTV and a portable refrigerator/freezer that sits on an easy-glide tray. An 8,000X-watt Cummins Onan® generator (40R, 42E) with PowerLine® Energy Management System keeps all 3 roof air conditioners running when shoreline power is unavailable (8,000-watt Cummins Onan generator on 36M).

Fiberglass Roof The crowned, one-piece fiberglass roof is backed by a 10-year limited parts-and-labor roof skin warranty.

Thermo-Panel® Sidewalls By layering fiberglass and high-density block foam insulation with welded aluminum support structures, we create some of the industry's strongest, most durable and lightweight sidewalls.

E-Coating An electrodeposition coating helps protect critical steel components.

Embedded Steel Metal substructures embedded into the sidewall provide solid attachment points to keep cabinets and appliances mounted securely in place.

Solid Framework Aluminum extruded in our own facility to our exacting standards creates an extremely strong and solid structural framework.

Laser-Cut Tubing Precision laser cutters create precise joints in structural steel that are stronger and require less welding.

Interlocking Joints Specially engineered interlocking joints connect the floor, sidewalls and roof where competitors often rely on simple screws to bear the weight.

SUPER STRUCTURE

BUILT TO LAST

Every coach—from our smallest Class C to our largest diesel-pusher model—is built to Winnebago's® legendary SuperStructure® construction standards. It's a process developed and refined over more than 50 years of building some of the strongest, most durable coaches in the industry.

TESTING Before rolling out of our factories, every coach undergoes an extensive 113-point inspection. Each coach also passes a high-pressure water test that simulates rain at a rate of 50-inches per hour to check for leaks. During the design process, our computer simulations, physical testing center, and rigorous test track ensure each model is built to last.

DETAILS At Winnebago, we treat the features you can't see with the same care as the ones you can. Look in the access panels of some of our competitors' coaches and you'll see loose insulation and wires haphazardly strewn about. Winnebago maintains a clean fit and finish throughout so your coach will last for the long haul.

BUILT IN-HOUSE We extrude our own aluminum. We rotocast our own plastic components. In fact, we manufacture most of our own parts so they are designed to fit the space, rather than fitting the space to an awkward off-the-shelf component size.

**SUPER
STRUCTURE**
BUILT TO LAST

Visit BetterBuiltRVs.com to gain real insight into what goes into a Winnebago motorhome.

TAKE A TOUR We're proud of our processes, state-of-the-art facilities, and the people who make Winnebago number one. We invite you to visit our complex in Forest City, Iowa, for a firsthand look at the dedication and technology behind every motorhome we build.

Call (641) 585-6936 or (800) 643-4892 or visit us online at Winnebagolnd.com/company/visit for more information.

3-point engine mounting reduces engine vibration.

Engine brake uses the engine to slow the coach, promoting longer brake life.

Allison® 3000 MH 6-speed automatic transmission includes a touchpad control for ease of use.

Rear axle incorporates proprietary gear machining for a smoother, quieter ride.

NeWay® rear air suspension provides superior ride and handling.

The lowered-rail design moves intrusive rails from storage areas, creating up to 229 cubic feet of storage.

MAXUM CHASSIS

Extra space in critical areas allows for more pass-through storage.

Taller, 23.25" pass-through storage height accommodates bulky items compared to 19.5" similar raised-rail and 17" on a typical straight-rail.

55° wheel cut provides a tighter turning radius and better maneuvering.

Color-coded air lines make service easy.

10,000-pound trailer hitch⁶ (36M)

15,000-pound trailer hitch⁶ (40R, 42E)

"Clean Air Diesel" Cummins® engine delivers hill-climbing power when you need it most:

- Cummins ISB XT 6.7L 360-hp (36M)
- Cummins ISL 8.9L 400-hp (40R)
- Cummins ISL 8.9L 450-hp (42E)

Low frame rails create a lower center of gravity improving stability.

Winnebago's SuperStructure integrated with the lowered-rail design creates a chassis that is seven times stronger than typical raised-rail chassis designs.

Dual-fill fuel tank.

4-wheel ABS anti-lock air brakes provide fast stopping power.

Michelin® tires and polished aluminum wheels look sharp.

A True Work of Art

You may not be able to see the Maxum Chassis® as you're driving through the Rockies or cruising the coast, but you'll know it's there. Its powerful Cummins® turbo-charged diesel engine and Allison® transmission go to work so you don't have to sweat the peaks and valleys ahead.

Through a strong partnership with Freightliner, the undisputed leader in diesel motorhome

chassis, we set a new standard for handling, ride and performance in diesel chassis design.

But performance doesn't mean sacrificing storage. The innovative lowered-rail design of the Maxum Chassis opens up a cavernous basement storage compartment, offering up to 229 cubic feet of storage.

Click here to explore this floorplan's web page.

36M

The 36M is ideal for hosting guests with the opposing Rest Easy® sofa and sofa/bed, plus the Glide & Dine dining table/buffet. Choose a queen bed or the powered king bed that slides side-to-side at the press of a button.

Standard Ultraleather	Carpet	Porcelain Tile

Dimensions shown are for sleeping space only and may vary due to styling differences. Dashed lines denote overhead storage areas. Floorplans and specifications are also available online at WinnebagoInd.com.

Warranty⁷

12-month/15,000-mile basic limited warranty⁸

36-month/36,000-mile limited warranty on structure⁸

10-year limited parts-and-labor warranty on roof skin⁸

FOOTNOTES

1. The height of each model is measured to the top of the tallest standard feature and is based on the curb weight of a typically equipped unit. The actual height of your vehicle may vary by several inches depending on chassis or equipment variations. Please check with your dealer for further information.
2. Floorplans feature a wide-body design - over 96." In making your purchase decision, you should be aware that some states restrict access on some or all state roads to 96" in body width. Before making your purchase decision, you should confirm the road usage laws in the states of interest to you.
3. The load capacity of your motorhome is designated by weight, not by volume, so you cannot necessarily use all available space when loading your motorhome.
4. Capacities are based on measurements prior to tank installation. Slight capacity variations can result due to installation applications.
5. Capacities shown are tank manufacturer's listed water capacity (W.C.). Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank.
6. Actual towing capacity is dependent on your particular loading and towing circumstances which includes the GVWR, GAWR, and GCWR as well as adequate trailer brakes. Please refer to the Operator's Manual of your vehicle for further towing information.
7. See separate chassis warranty.
8. See your dealer for complete warranty information.

NA Not Available

Not all items available in combination. See dealer for details.

Winnebago's® continuing program of product improvement makes specifications, equipment, model availability, and prices subject to change without notice. Published content reflects the most current product information at time of printing. Please consult your dealer for individual vehicle features and specifications.
