

LAYTON

Since 1960.
Always in Style.

SKYLINE
RECREATIONAL VEHICLES

 **READY
TO ROLL**

Since 1960, the Skyline name has manufactured more than 460,000 RV's with the Layton brand being one of the oldest and most trusted names in camping.

Today, Layton has become a premium Skyline brand evolving into the realm of smooth fiberglass exteriors, laminated to a lightweight aluminum frame. At Skyline, as we close in on providing shelter to half a million camping families, we understand what campers want and need in a home away from home.

That's why the Layton Dart and Javelin series of travel trailers have 17 floorplans to choose from—more choices than any other Skyline brand.

Whether you're a growing family making your first investment in the camping lifestyle with one of our "Bunkhouse" models, or empty nesters looking to downsize from a larger coach into one of our "Couples Coaches," we build a travel trailer for your family. After all, we've been here before.

Welcome to the new Layton Dart and Javelin travel trailers.

Since 1960. Always in Style.

Farmer's Sink

This stylish Farmer's Sink adds a classic touch to your kitchen and is an option found only in the Layton travel trailers.

Full-size bathroom mirror

Cumbersome medicine cabinets simply aren't practical in lightweight RVs. Skyline maximizes the space with a more functional full-size mirror in the bathroom and a large vanity for toiletries.

Layton **SKYSMART** Features

With over 50 years of building the Layton, we've learned a few details about what you look for in a camper. We listen, it's the little things that count. SkySmart features are practical touches, **exclusive to Skyline RV products**, to make your family's camping experience easier, safer and more enjoyable.

Recessed range

Space is always a premium and counter space is no different. The recessed range with cover allows consumers to utilize that space when not in use. This is far more convenient and practical than traditional sink covers, because the sink is used far more often than the stovetop.

Slide out picnic table

There is never enough room on the picnic table at the campsite. Every Layton comes with a slide out table for food preparation and your convenience.

Single bowl sink

A large basin is far more practical for campers than double sinks. The large sink makes washing cumbersome pots and numerous dishes simple. The recessed range with cover provides additional space for drying as well.

Outdoor kitchen with grill and slide out table

Enjoy the great outdoors all day with the outdoor kitchen. Maximize the outdoor space with an all-weather, folding table that stores securely in an exterior compartment when not in use. The outdoor grill also provides another option for campground cooking.

SkyTotes

SkyTotes provide campers a storage space that is large and organized. The storage bins allow for organized storage in an easy-to-access compartment under the bed. It's easy to load/unload the SkyTote in the house then bring it out to your Skyline, plus it will keep clothes and camping gear from getting lost under the bed.

Bunk stair system

Most RV ladders are too narrow and steep for small children. The pullout bunk stairs give kids a larger, wider foothold and the carpeted stairs mean less scraped knees.

Since 1960. Innovation, Always in Style.

Family Rooms

All Layton floorplans have family rooms ready for relaxing. Large entertainment centers with flat screens, comfortable sleeper sofas and dinettes are just a few choices.

Kitchens

From island kitchen floorplans to galley arrangements, Layton kitchens are fully equipped with quality appliances and plenty of storage to feed the largest family.

Bedrooms

Whether you choose a one-bedroom floorplan with standard queen sized bed, or a two-bedroom bunkhouse/guest model, comfortable sleeping with loads of storage awaits your family.
