

TOUR

WINNEBAGO

WHY TOUR?

Unmatched performance of the exclusive Maxum Chassis®
Powered luxury Flexsteel® heat/massage cab seats

New multi-plex wiring system
Aqua-Hot® zone heating, engine pre-heat, and continuous hot water

LED lighting
Stainless steel appliances

MCD solar/blackout roller shades
Polished porcelain tile floors

Exterior entertainment center with HDTV, soundbar, and wireless subwoofer

On the Cover: 42HD Dark Spiral Gray Full-Body Paint

42HD Dakota Springs with Coffee-Glazed Honey Cherry Cabinetry

A Coach Worthy of Admiration

The Winnebago® Tour® is the diesel-pusher that other diesel-pushers aspire to be. The Tour will be the subject of adulation with its bold exterior styling, re-designed dash, and an available premium cab sound system. Beneath the beauty is the ultimate performance of the 450-hp. XCL Maxum Chassis® with the new V-Ride rear suspension. This acts as the foundation for a coach packed with luxury amenities inside and out, such as a central vacuum system, the exclusive Rest Easy® sofa, full-coverage

patio awnings, and an exterior entertainment center with an available tailgate package. Choose from two floorplans, both with a master bedroom with a king bed, multiple bathrooms, and Ultraleather™ furniture. The Glide & Dine™ dining table is offered on each floorplan for an elegant meal with family or friends. Diesel-pusher enthusiasts demand a premium experience, which is why the Winnebago Tour is one of the most sought-after coaches on the market.

Recognized Quality

The Recreation Vehicle Dealer Association annually rates RV manufacturers and awards the Quality Circle Award to manufacturers that provide exceptional products, service and support. Winnebago Industries is proud to be the only manufacturer that has received this award every year since its inception.

42HD Lounge

The Tour is designed for the extensive traveler, which made a comfortable lounge one of our top priorities. The Rest Easy sofa (42HD) and Rest Easy extendable sectional sofa (42QD) get things off to a plush start, made all the more relaxing when you add the available ottomans in matching Ultraleather. The 50" HDTV brings movies to life while the available JBL Premium Sound radio speakers (11 speaker system) delivers optimal sound throughout the coach. Your total comfort is assured by the precision climate of three powerful air conditioning units and the Aqua-Hot® engine pre-heat system.

Dash

A word of warning before you sit in the Flexsteel® Versa luxury cab seats: with six-way power adjustments, a power footrest and built-in heat and massage features, you may never want to get back up. Both the driver and passenger can enjoy the infotainment center with Rand McNally RV GPS that includes two touchscreen monitors to control your radio, turn-by-turn navigation, Bluetooth™ connected devices or observe the rearview and sideview cameras. For smooth performance and hill-climbing power, the Maxum Chassis® is in a class by itself.

Infotainment Center

Rearview Monitor

Cab Seat Reclined

Whether you are settling in or heading out, the Tour's convenient service centers with power hose and cord reels, and three-position leveling jack controls make quick work of your connection tasks. It gives you more time to enjoy the two powered patio awnings and the exterior entertainment center with 40" HDTV. Round out your outdoor experience by easily stowing chairs, grills, bikes and more in the massive storage bay that includes a sliding tray that extends out either side of the coach for your convenience.

Fiberglass Roof

The crowned, one-piece fiberglass roof is backed by a 10-year limited parts-and-labor roof skin warranty.

Thermo-Panel® Sidewalls

By layering fiberglass and high-density block foam insulation with welded aluminum support structures, we create some of the industry's strongest, most durable and lightweight sidewalls.

E-Coating An electrodeposition coating helps protect critical steel components.

Embedded Steel Metal substructures embedded into the sidewall provide solid attachment points to keep cabinets and appliances mounted securely in place.

Laser-Cut Tubing Precision laser cutters create precise joints in structural steel that are stronger and require less welding.

Interlocking Joints Specially engineered interlocking joints connect the floor, sidewalls and roof where competitors often rely on simple screws to bear the weight.

Solid Framework Structural extruded aluminum creates an extremely strong solid frame.

Steel Cab Structure Our innovative all-steel cab SuperStructure adds durability, strength, and safety.

SUPER STRUCTURE

BUILT TO LAST

Every coach—from our smallest Class C to our largest diesel-pusher model—is built to Winnebago's® legendary SuperStructure® construction design. It's a process developed and refined over more than 50 years of building some of the strongest, most durable coaches in the industry.

TESTING Before rolling out of our factories, every coach undergoes an extensive 113-point inspection. Each coach also passes a high-pressure water test that simulates rain at a rate of 50-inches per hour to check for leaks. During the design process, our computer simulations, physical testing center, and rigorous test track ensure each model is built to last.

DETAILS At Winnebago, we treat the features you can't see with the same care as the ones you can. Look in the access panels of some of our competitors' coaches and you'll see loose insulation and wires haphazardly strewn about. Winnebago maintains a clean fit and finish throughout so your coach will last for the long haul.

BUILT IN-HOUSE We process and finish key aluminum parts. We rotocast our own plastic components. In fact, we manufacture most of our own parts so they are designed to fit the space, rather than fitting the space to an awkward off-the-shelf component size.

**SUPER
STRUCTURE**
BUILT TO LAST

 Visit BetterBuiltRVs.com to gain real insight into what goes into a Winnebago motorhome.

TAKE A TOUR We're proud of our processes, state-of-the-art facilities, and the people who make Winnebago number one. We invite you to visit our complex in Forest City, Iowa, for a firsthand look at the dedication and technology behind every motorhome we build.

Call (641) 585-6936 or (800) 643-4892 or visit us online at WinnebagoIInd.com/company/visit for more information.

3-point engine mounting reduces engine vibration.

Engine compression brake uses the engine to slow the coach, promoting longer brake life.

15,000-lb. trailer hitch⁶

Allison[®] 3000 MH 6-speed automatic transmission includes a touchpad control for ease of use.

MAXUM[®] CHASSIS

ZF IFS front suspension and V-Ride rear air suspension provide superior ride and handling.

The lowered-rail design moves intrusive rails from storage areas, creating up to 196 cubic feet of storage.

60° wheel cut with IFS provides a tighter turning radius and better maneuvering.

Rear axle incorporates proprietary gear machining for a smoother, quieter ride.

Taller, pass-through storage height accommodates bulky items.

Extra space in critical areas allows for more pass-through storage.

“Clean Air Diesel” 450-hp ISL Cummins[®] engine delivers hill-climbing power when you need it most.

Low frame rails create a lower center of gravity, improving stability.

Winnebago's SuperStructure integrated with the lowered-rail design creates a chassis that is seven times stronger than typical raised-rail chassis designs.

Dual-fill 150-gal. fuel tank.

Color-coded air lines make service easy.

A True Work of Art

You may not be able to see the Maxum Chassis as you're driving through the Rockies, but you'll know it's there. Its powerful Cummins turbo-charged diesel engine and Allison[®] transmission go to work so you don't have to sweat the peaks and valleys ahead.

Through a strong partnership with Freightliner,[®] the undisputed leader in diesel motorhome

chassis, we set a new standard for handling, ride and performance in diesel chassis design.

But performance doesn't mean sacrificing storage. The innovative lowered-rail design of the Maxum Chassis opens up a cavernous basement storage compartment, offering up to 196 cubic feet of storage.

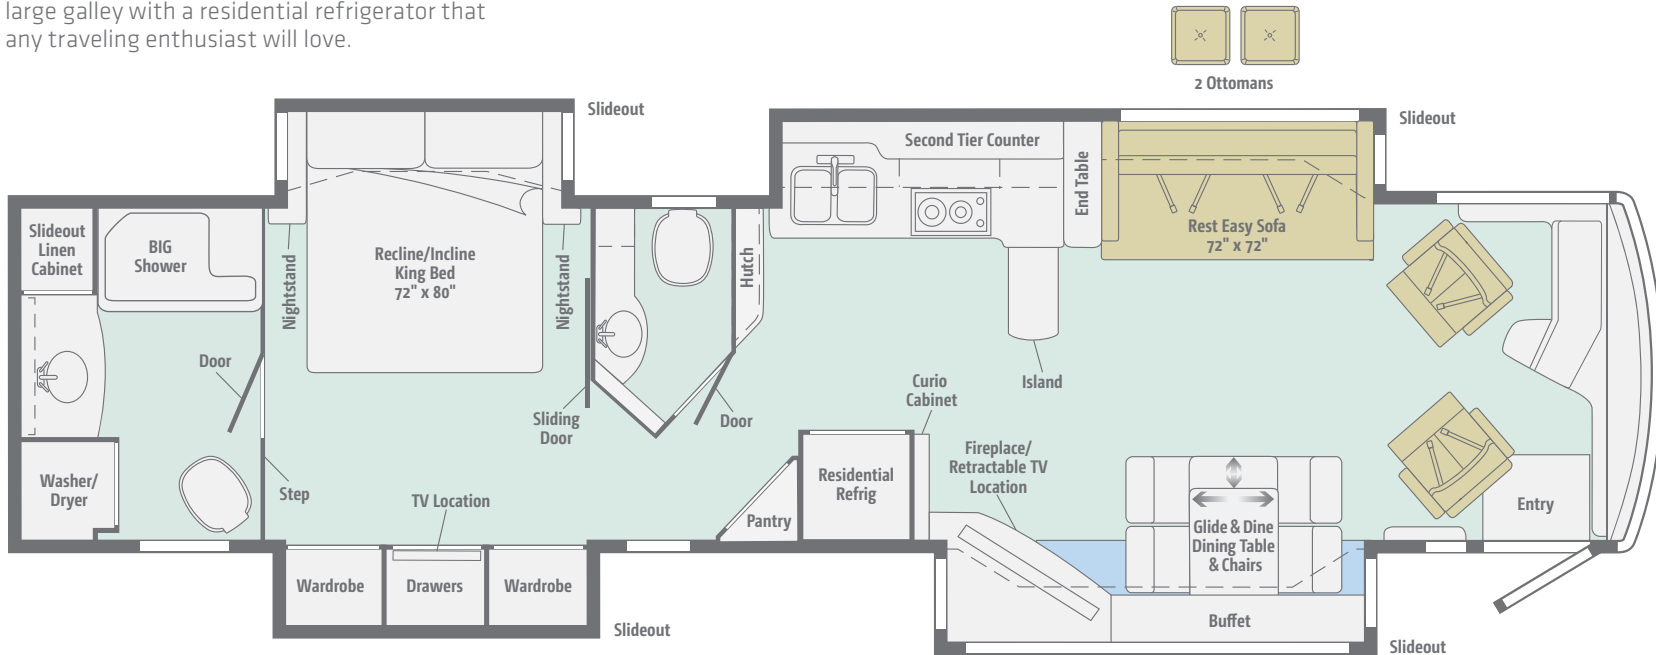

Michelin[®] tires and polished aluminum wheels look sharp.

4-wheel ABS anti-lock air brakes provide fast stopping power.

LPG accessory connection (patio area)
On-demand water pump
Winterization Package water heater bypass, valve and siphon tube
Heated holding tank compartment

Safety

LP, smoke, and carbon monoxide detectors
10 BC fire extinguisher
Ground fault interrupter
Daytime running lamps
Fog lamps
High-mount brake lamps

Warranty⁷

12-month/15,000-mile basic limited warranty⁸
36-month/36,000-mile limited warranty on structure⁸
10-year limited parts-and-labor warranty on roof skin⁸

FOOTNOTES

1. The height of each model is measured to the top of the tallest standard feature and is based on the curb weight of a typically equipped unit. The actual height of your vehicle may vary by several inches depending on chassis or equipment variations. Please check with your dealer for further information.
2. Floorplans feature a wide-body design - over 96." In making your purchase decision, you should be aware that some states restrict access on some or all state roads to 96" in body width. Before making your purchase decision, you should confirm the road usage laws in the states of interest to you.
3. The load capacity of your motorhome is designated by weight, not by volume, so you cannot necessarily use all available space when loading your motorhome.
4. Capacities are based on measurements prior to tank installation. Slight capacity variations can result due to installation applications.
5. Capacities shown are tank manufacturer's listed water capacity (W.C.). Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank.
6. Actual towing capacity is dependent on your particular loading and towing circumstances which includes the GVWR, GAWR, and CCWR as well as adequate trailer brakes. Please refer to the Operator's Manual of your vehicle for further towing information.
7. See separate chassis warranty.
8. See your dealer for complete warranty information.

NA Not Available

Not all items available in combination. See dealer for details.

Winnebago's® continuing program of product improvement makes specifications, equipment, model availability, and prices subject to change without notice. Published content reflects the most current product information at time of printing. Please consult your dealer for individual vehicle features and specifications.
