

AIRSTREAM

2016 Interstate EXT Touring Coaches

“Truly a wondrous
wheeled conveyance”

— *Autoweek*

AIRSTREAM + MERCEDES-BENZ
Discover what inspires you.

Experience the legends ... Airstream

Founded in 1931, Airstream is truly an American icon. With a sterling reputation, built on a foundation of unique designs, futuristic innovations and dependable durability, Airstream has been inspiring adventures for over 80 years.

Mercedes-Benz

Since its inception in 1886, Mercedes-Benz has also been renowned and synonymous with unmatched automotive luxury, performance and advanced technologies.

It's no surprise, when these two world-class companies rallied together to create the Airstream Interstate, it made perfect sense. By pairing sleek Airstream styling with the precision engineering of the Mercedes-Benz Sprinter, the result is a seamless expression of power, opulence, comfort and reliability: the Airstream Interstate.

All Airstream Interstates are luxuriously appointed with a variety of stunning colors, finishes, and fabrics. Your options abound - choose the seating, socializing and sleeping arrangements that best fit your individual preference.

Airstream Interstate –
the Number One Selling
Mercedes-Benz Type B Van in
America Four Years in a Row*

www.airstream.com

* Reported by Statistical Surveys, Inc. Grand Rapids, MI 49508

Best in Class Comes Standard

Roll with the best – it's a term we like to use when referring to our Interstate Touring Coaches – and there's a good reason why.

It's because when you select the Airstream Interstate, you aren't choosing a vehicle where best in class requires an upgrade. It isn't an option you'll pay extra for. It's standard.

The fact is, there are over 50 best in class features that come standard in every Interstate.

For the kind of comfort and sophistication you deserve when traveling on the open road, you won't find a touring coach that provides the kind of amenities that come standard on every Airstream Interstate.

Sleek, aerodynamic, easy-to-drive ...

... roll with the best.™

Best in Class Features

Performance

When it comes to performance, unsurpassed quality and unbeatable durability, Airstream and Mercedes-Benz lead the way. The award-winning Mercedes-Benz Sprinter is built to Airstream's unique specifications to ensure that dozens of premium chassis upgrades come standard on every Airstream Interstate.

The Airstream Glossary

Fresh Water Capacity - Onboard fresh water storage for when you're not hooked up to a campsite source.

Black Water - Basically a nicer term for sewage. It's the wastewater from your toilet system.

Grey Water - All wastewater that comes from your sinks, showers, and baths.

Deep Cycle Battery - A heavy-duty steady-current battery which powers the Airstream's electrical systems.

LPG - Liquid Propane Gas which fuels many of the onboard appliances.

Converter/Inverter - Converts 12-volt DC power into 120-volt AC power so you can use the battery to run many of the appliances

Shore Power - Electricity received from an AC outlet, such as those found at most campsites.

GVWR (Gross Vehicle Weight Rating) - Maximum weight of the vehicle, passengers, cargo and liquids.

GCWR - (Gross Combined Weight Rating) Maximum weight of the vehicle, passengers, cargo, liquids and any trailer being towed.

UBW (Unit Base Weight) - The weight of the vehicle without cargo, water or options.

OCCC (Occupant and Cargo Carrying Capacity) - Maximum amount of weight in the form passengers, cargo and water.

OCCC = GVWR-UBW

Tow Capacity - The maximum weight a vehicle can safely tow.

The Airstream Interstate is the Number One selling Mercedes-Benz Type B Van in America 4 years in a row.

All capacities are approximate and dimensions are nominal. Actual products may differ from the photographs, specifications and product information in this brochure due to product changes. Prices and specifications are subject to change without notice. Photos may contain some features that are optional. Some features or options may be different or unavailable in Canada.

This information is intended as a guide only. Weights of individual recreational vehicles may vary. Consult the owner's manual for complete loading, weight-ing and towing instructions.

Dry weights are based on standard features; optional equipment is not included. The Net Carrying Capacity (NCC) is determined by subtracting Unit Base Weight (UBW) from the Gross Vehicle Weight Rating (GVWR), and is the capacity available for water, options and cargo. Liquid capacities and weights are approximations only.

The recreational vehicle weight must remain within the manufacturer's specified chassis weight limit. Do not overload the recreational vehicle through the addition of water, options, cargo or otherwise.
