Our Commitment to  
**Quality  
Strength  
Durability**

**Absolute Northwood**

**1** "Where Quality is Everyone's Responsibility"

**One Piece Laminate Walls**

Our aluminum wall frames are constructed of .060" thick aluminum tubing and all joints are welded full width, not spot welded like much of the competition.

**One Piece Continuous Fiberglass**

The outer skin of our laminated wall is a single sheet of tough, corona treated fiberglass. Corona treating ensures the polyurethane is able to properly accept the hot melt adhesives. A single piece of fiberglass eliminates seams that can leak & it's stronger too.

**Steel Bonderizers**

We add steel bonderizer strips inside the wall at all mounting points. The bonderizers provide a steel anchor point for any fixtures that are mounted to the walls.

**Solid Core Anchor Blocking**

We also add solid core anchor blocking in the frame perimeter. The solid blocking provides a substantial anchor medium for securing screw threads.

**A Solid Foundation: Thick Basement Walls & Aluminum Trusses. Extra Strong Thick Wall Tubular Aluminum Floor Frame**

Really Big holding tanks require a 'Really Big' floor structure...  
**That's The Wolf Creek Floor Structure!**

Thick wall aluminum basement floor joists support our holding tanks under the basement of every Wolf Creek Truck Camper.

**Continuous One Piece Fiberglass Cabover / Bulkhead**

No seams that can leak!

**Solid Wood Face Frame Cabinetry that is secured to the wall and ceiling!**

We build our own cabinets, and every cabinet is built to the best quality specifications. By building our own cabinets, we can guarantee that they will be made right and are built to last!

By integrating the cabinet with the structure of the ceiling and walls, our coaches and our cabinets are both made stronger.

**Top Quality Materials**  
All NORTHWOOD cabinets are made with

**Face Frame Construction**  
We use the same construction techniques

**Truck Camper Magazine Review**

Spending two weeks in the 850 gave us an unusual opportunity to experience a new brand and product. For starters, the Wolf Creek 850 is right up our alley, hard-side, non-slide, fully self contained, and brimming with practical and weight saving design choices. In short, we love campers like this because they are everything we need for the kind of long-distance, go-wherever truck camping we enjoy. Even more important, they show a willingness of manufacturers to embrace the increasing importance of lower weight truck campers and design new campers accordingly. We really appreciated the generous holding tanks for a camper this size. Thirty gallons of fresh water? That's amazing...The gray and black tanks were also ample at nineteen gallons and twenty gallons respectively... When we turned the vent fan on, it surprised us with just how much air it pulled... they put a very tall bubble window in the bathroom that allowed me, at 6'3", to see almost completely around the camper... it was really fun to be able to look around and see what was going on outside the camper... We were mixed on our impressions of the dinette. We liked how big it was, but wondered if it needed to be quite this wide. Northwood explained that it was wide to allow for an adult-sized sleeping area. It certainly was. The dinette was also comfortable and worked well during our two weeks in the camper. I appreciated the long cushion that allowed me to stretch out. We found an outlet under the dinette in the perfect place to plug in our laptops. Nice touch. Kitchen storage and counter space were plentiful for a truck camper this size. We also liked the round sink and tall faucet. Having a large storage drawer under the cockpit instead of an oven was another practical cost and weight saving decision. As we get more experienced with cooking in a truck camper, we use camper ovens more and more. That said, we didn't use a camper oven at all except to store pots and pans until the past couple of years. Could we live without the oven? We sure could. Did we appreciate the additional storage of the drawer where the oven would have been? Yes but

open to options like a smaller refrigerator. This is a compromise I could live with as we never found the space in the refrigerator to be lacking. Sure, it's nice to have separate freezer and refrigerator sections, but this was perfect for what we needed. On the driver's side overcab entry was a standard cabinet with an open storage spot just underneath it. We used this for overflow items and found it to be very useful and practical. It also saves a little more weight by not having a door. We really liked it. We also appreciated the storage under the overcab step-up. We put our sneakers in there when we were wearing sandals, or vice versa. As always, little things make the biggest differences. For example, the overcab reading lights in the Wolf Creek are outstanding. Unlike too many other overcab reading lights, they are not too bright or too hot. Some overcab reading lights make you wonder when the men in black will arrive to ask you exactly where you were on October 18th, 1972, and what you were doing there. We also appreciated that these lights were easy to move. I liked them pointed away, to give a more indirect and ambient light. On the passenger's side of the overcab, the Wolf Creek had what I would call a night stand. The front of the night stand had an opening and storage area where I placed my sweatshirts and jeans. Just like at home, I put some reading material and my iPod Touch (alarm clock) on the nightstand. When we were plugged in, I really appreciated the outlet that was also with the nightstand. Personally, I prefer this nightstand to the traditional overcab-nose storage. The driver's side of the overcab nose had the traditional storage cabinet and Angela was so jealous of my nightstand. Did I offer to switch sides? No way! For someone looking for an aluminum framed, hard-side, non-slide truck camper that will work with some half-tons and nearly every three-quarter ton truck, the 2012 Wolf Creek 850 deserves to be on your short list. This is an impressive camper from a company that understands truck campers and cares deeply

residential quality material and methods. Because we use screws, they hold up better under travel/road conditions.

used in quality residential cabinetry. We assemble hardwood styles with screws on a face frame machine to ensure strong, durable cabinets. The result: Beautiful, quality cabinetry and the best built truck camper!

The three cubic foot refrigerator was smaller than we're used to, but it fit our normal round of groceries with ease. What we lost in space we gained in a lighter weight refrigerator. We can't all ask the manufacturers to make their campers lighter without being

congratulate our customers truck campers and sales velocity about quality control. Congratulations Northwood on your new Wolf Creek truck camper brand and an impressive first camper with the 2012 Wolf Creek 850. August 2011

## Features & Options

### Standard Construction Features

Fully Welded, Thick-Wall Aluminum Frame Construction  
One-Piece, Corona Treated, Continuous Fiberglass  
Hot, Polyurethane Laminated, Multi-Layered Substrate Walls  
High Density Block Foam Insulation  
Laminated Floor

### Standard Exterior Features

Dual Battery Compartment  
1- 20 lb LPG tank w/Regulator  
Diamond Plate Knee Wall Armor  
Truck Storage Access Doors  
Residential Wear Floor Covering  
LED Exterior Lighting  
6 Gal DSI Gas/Elect Quick Recovery Water Heater  
20K BTU Auto Ignition Furnace  
Marine Style Detachable Shore Cord  
TV Antenna  
Roof Rack and Ladder Ready  
Tinted, Safety Glass Windows  
Entry Door Friction Hinge  
Satellite Ready / Solar Ready

### Standard Interior Features

LED Interior Utility Lighting  
Interior Command Center  
Solid Wood Mortise & Tenon Cabinet Doors  
Designer Wood Grain Finish Throughout  
Roller Bearing Drawer Glides  
Mini Blind Privacy Shades Throughout  
Pre-wired for Stereo  
Smoke, LPG & CO Leak Detectors  
110 Volt 55 Amp Converter

### Standard Kitchen Features

Laminated Counter Tops  
High Profile Kitchen Faucet  
High Output 3-Burner Cook Top  
Range Hood with Light and Exhaust Fan  
3 Cu Ft Fridge w/ Insert Panels  
Kitchen Overhead Storage Cabinets  
Multiple Kitchen Drawer Cabinets  
U-shaped Dinette  
Large Picture Window At Dinette

### Standard Bathroom Features

Hand-Flush Toilet / Bath Skylight  
Exhaust Fan in Bathroom  
Shower Curtain with Curved Track / Full Shower

### Standard Bedroom Features

Inner Spring Mattress w/Bedsread  
Privacy Curtin in Cab Over

### Available Options

EZ Open Handle  
Large Exterior Folding Grab Handle  
AM/FM/CD/DVD Player  
Rear Electric Awning  
CSA (Canadian Dealers Only)  
19" 110/12v LED TV  
Microwave Oven  
Thermal Pane Windows  
Camper Seat-Step  
Fox Landing  
Gen Ready (Short Box Only)  
2.5 Onan LP Generator  
60 Watt Solar Panel  
100 Watt Solar Panel  
Swing Out Brackets  
Roll Over Sofa  
Wardrobe Curbside  
11 K BTU Air Conditioner  
16" Oven  
Coleman Mach 8 9K BTU A/C  
1 Deep Drawer Under Cooktop  
24" Add-A-Step  
Side Box Awning-Curb Side  
Side Box Awning-Road Side  
Side Boxes (Short Box Only)  
Kitchen Counter Extension (850 Only)

### Wolf Pack

Wolf Pack is a mandatory option bundle that includes all of the following high value features:

AM/FM/CD Player w/Bluetooth  
Rear Awning  
Electric Jacks  
5 CU' Fridge w/Insert Panels  
Dual 5 Gallon LP Tanks  
Exterior Shower  
Heated Holding Tanks  
Roof Rack & Ladder  
Fox Landing Ready Rear Bumper  
Sewer Hose Storage  
Utility Light Roadside  
FanTastic Vent  
Combo Bunk Cab w/Dinette Light

Weight: 310 lbs

## CAMPER SAFETY TIPS:

More TORQLIFT

Use **TORQLIFT** frame mounted camper tie downs for greatest safety.

For your safety while driving, use mirrors that allow you to view past the camper to the rear on both sides. Trucks can be purchased with extended mirror options or you may purchase mirror extensions. Truck manufacturers state that you should not exceed the GVWR for the vehicle that carries your camper. The configuration of your truck will determine what size camper your vehicle can carry. A dual rear wheel truck is advisable for Wolf Creek campers. Adjustable air bags will help to level your vehicle, transfer rear axle weight forward for comfort and safety, and are recommended for all Wolf Creek applications. Some states allow passengers to ride in the camper, but it is not recommended as there are no seat belts available. When driving in any adverse weather condition it is always best to reduce your speed. The pickup should be outfitted with a durable rubber mat liner to reduce shifting while traveling. The mat will also protect the truck bed and camper from scratching while loading and unloading.
