Our Story

COACH HOUSE BUILDS AN R.V. LIKE NO OTHER

Engineered to industry-leading standards in performance, convenience and design, the Coach House® Platinum® redefines the luxury touring motorhome lifestyle. Whether you're on the journey of a lifetime through the Rockies with your better half, a day trip to the zoo with your grandkids, or tailgating with your fun-loving friends, the reliable Platinum gets you there and back comfortably, safely and in style. ■ The Platinum and Platinum II are downsized Class C motorhomes (also known as "Class B-plus"), yet they provide plenty of room for full-sized living. Every Platinum boasts at least 6-foot, 3-inch ceilings, a private bathroom with a stand-up shower, and plenty of special-purpose storage space throughout for food, clothes, travel gear and vacation toys. An array of distinctive Platinum models on two different chassis offer you a wide choice of

versatile, functional floor plans to flow with your R.V. lifestyle.

IT ALL STARTS WITH THE SHELL

One of the most important features of the Platinum motorhome is the patented one-piece hand-laid fiberglass body (shown at left). The superstructure is reinforced with carbon fiber and designed to prevent water leaks and rattles and to give you years of trouble-free enjoyment. Most RV

bodies consist of many pieces joined together, and where they are joined represents a potential for failure. Our one-piece shell is stronger, more durable, quieter and safer than multi-piece designs, and its aerodynamic shape improves fuel efficiency.

FORD POWER OR MERCEDES EFFICIENCY

Coach House realizes that the most important part of a recreational vehicle is the chassis, or foundation. We offer our customers their choice of a big, brawny Ford E-450 Super Duty chassis in the Platinum line, or a refined, high-tech Mercedes 3500 Diesel Sprinter chassis in the Platinum II line. Whether you value power or efficiency more highly, we think you will agree that these are the two best platforms available for a downsized luxury motorhome. And

PLATINUM II:
Fuel-efficient
Mercedes Sprinter
chassis, powered by a
Mercedes-Benz diesel

Well-equipped kitchens are standard across the Platinum line

whichever chassis you choose, your Platinum has been approved and inspected by Ford or Mercedes and carries the RVIA seal, indicating that it meets all current motorhome codes and standards.

HOME AWAY FROM HOME

All the amenities of home are at your fingertips in the Coach House Platinum. Road warrior chefs can create a quick snack or a gourmet meal, thanks to the well designed and thoughtful layout of the functional and well-equipped galley. Corian solid-surface countertops, recessed

stainless-steel sink and cover, abundant storage, 3-way refrigerator and LP-gas stove are just a few of the conveniences you'll find in this remarkable vehicle. The

Platinum's full bathroom features a stand-up shower, porcelain commode and medicine cabinet. The motorized sofa-bed converts from daytime entertaining to nighttime slumbering at the touch of a button.

PEACE OF MIND – GUARANTEED

Our warranty policies can be summed up simply: We stand behind our vehicles. Period! Every component of a Platinum motorhome is covered by warranty: The Coach House conversion and the drivetrain are covered for 3 years or 36,000 miles, whichever comes first. The appliances and fixtures are covered by their respective manufacturers for varying terms. Warranty service is available nationwide at the repair facility of your choice, or at the Coach House plant in Nokomis, Florida.

Warranty service is always available at the Coach House plant

FAMILY-OWNED AND MADE IN THE U.S.A. SINCE 1985

Ruben Gerzeny and sons David and Steve have been designing, engineering and building motorhomes in the Venice, Florida, area since 1985, when the first Coach House van conversion rolled out of a converted warehouse. Their decades of R.V. manufacturing experience, attention to the smallest details, and "build-it-right, build-it-to-last" philosophy come together in the design and construction of every Coach House

Platinum motorhome. Known for their fair and honest business

practices, the Gerzeny family goes the extra mile to satisfy their customers' concerns before and after the purchase. ■

PLATINUM:
Ford E-450 Super Duty chassis, capable of hauling a combined 22,000 pounds (GCWR)

David and Steve Gerzeny

Platinum

FORD E-450 SUPER DUTY: POWER AND CONTROL

Merge with highway traffic. Tow a car or boat. Fear no hill. The Platinum's Ford E-450 Super Duty chassis, featuring a 6.8-liter V-10 Triton engine and 5-speed TorqShift transmission and rear suspension stabilizers, provides power and smoothness on the open road. The Platinum's maneuverability and easy handling will give any driver confidence behind the wheel.
