EASY STORAGE

Space. Space. And more space.
That's what you get in a Captiva.
For example, not only is it designed for comfort, the queen bed is also uniquely built as a storage space using our bed lift system. And the fully equipped kitchen has plenty of places for all the items necessary to put together good meals.

EASY ENTERTAINING

Have fun during the day and then relax at night with the theatre package option that includes a Dolby® digital 5.1 Surround System and LCD television so you can watch your favorite tv shows. There is even a TV mount outside for exterior entertainment.

Lamination — A Bond That Lasts

Captiva Ultra-Lite is built with the highest level of quality using a **vacuum bond lamination** process for its sidewalls, roof and floor.

High strength urethane bonds a smooth fiberglass sheet to a lauan backing to form the exterior wall. Then it's bonded with urethane adhesive to a welded aluminum frame filled with rigid polystyrene insulation. Finally, a decorative panel is glued to the inside of the wall.

smooth, high strength bonding.

The result is a smoother exterior finish, stronger walls and lighter weight. Light and easy to tow and better built for longer life.
