Weight of water, LPG, and popular options have been deducted for the Net Cargo Capacity. Weights and capacities are approximate and the addition of optional equipment including fiberglass will increase the weight. Add 3' to the box length for the travel trailer tongue.

Every Wide Body Lite floor plan comes loaded with features at values that are unmatched, the T23FLSPL is no exception. Raised panel cabinet doors, ball bearing drawer roller guides, and cargo netting finish off the incredibly durable handcrafted cabinetry. The Digital LCD HD TV's with built in DVD player, standard, gets wired to play over ALL the speakers to fully immerse you while you recuperate from a long day's ride. As fantastic as all that is, it's the floor plan that really makes the T23FLSPL stand out. It boasts twice as much wardrobe space as other toy haulers its' size. With a rear ramp accommodating toys up to 57" wide, you get over 20' of cargo length. That means you can stuff three 450cc sport quads end to end. The front entertainment center gets you loads of storage, while the amazingly open seating arrangement gives comfort and space unseen in a 23' floor plan.

# THOUGHTFUL LUXURY

**S**HOCKWAVE represents a seismic change in RVing. Being one of the pioneers in the toy hauler industry, we learned long ago to listen to the wants and needs of our customers. You will see that all of our floor plans are well thought out as though you designed them. Our intent is not only to provide cargo storage, but a well furnished, self contained, luxury environment to make your trips that much more enjoyable for years to come.

One glance at the newly redesigned bedroom stylings and you'll see this isn't your ordinary toy hauler bedroom. Our fifth wheel models include an abundant amount of wardrobe space, counter top space and cabinetry. Available with a LCD TV (with built in DVD player) and secondary A/C unit you may not want to leave. \*Forest River is not responsible and will not provide any trip reimbursement for those who choose to spend their entire vacation in the comfort of these amenities instead of out enjoying the scenery.

New to our 2009 models every garage unit is available with a sliding glass door, allowing an unobstructed view of those lovely toys. Also noticeable is the wide body design easily accommodating quads side by side. Look all the way to the back of this 12' garage and you'll notice the full sealing Add-A-Wall screen with roll down solid panels. The floor is available with an incredibly durable tough ply flooring capable of handling all kinds of abuse.

# THOUGHTFUL LUXURY

When you get the 1,100 watt, 7 channel, DVD playing pro audio sound package together with the 32' HD LCD TV you're making a statement. You've got style and you don't settle for "decent". You need powerful bass, and crystal clear highs all while watching it go down in high definition.

Load distribution of Cargo can and will affect handling. Be sure you determine Tow Vehicle Trailer Towing Capacity. (See Vehicle Manufacturer for Specifications). Keep total weight of trailer under maximum Gross Vehicle Weight Rating, and under Vehicle Tow Rating. Load Capacity, including liquids, personal, and miscellaneous items, affects trailer towing characteristics. Weather conditions (i.e. Wind), will affect handling. Keep 60% of loaded weight above and forward of the axles.

## Buy Locally

FOREST RIVER INC, ENCOURAGES YOU TO BUY FROM YOUR HOMETOWN DEALERSHIP

Forest River, Inc. strongly encourages our retail customers to purchase from their local dealership whenever possible due to the following factors:

- Our Dealers are as a rule, independently owned and operated businesses. Outside of those customers they personally sold products to, they are not contractually obligated to perform warranty service on Forest River products that were purchased elsewhere. There may be an occasion that you would be required to return to the point of purchase to satisfy warranty requirements.
- Although many dealerships will eventually service products not purchased at their place of business, they will usually take care of their customers and other Forest River customers who are traveling away from their local dealer as they would their own.
- Local purchases allow a customer to establish a relationship with a dealer close to home. This relationship provides the customer with a convenient location for service and support from a "home town" professional.
- The opportunity for a thorough PDI (Pre Delivery Inspection) and product orientation is an additional benefit of buying from your local dealer. Further providing the opportunity for refresher courses or the ability to get questions answered much more conveniently.
- For our Canadian customers, there are also requirements which must be met to bring an RV purchased out of the country to their home. Although not insurmountable, these requirements may involve such things as additional inspections and certifications, taxes and fees. Your local Canadian Dealer is a professional at meeting these requirements.

Forest River's goal is for all RV Owners to fully enjoy their RV experience. In light of this goal, and considering the advantages of buying local, we encourage you to be thorough when determining what product to purchase and which dealer to purchase it from as both are key to your ultimate satisfaction and the realization of your dreams.
