

2009 *Journey*®

50 years on the road

Since the first Winnebago Industries RV rolled off the assembly line 50 years ago, the RV lifestyle has grown from a curiosity to a phenomenon. We're proud to have led the way with innovative products, quality construction and a passion for customer satisfaction. Join all of us in the extended Winnebago Industries family as we celebrate 50 years of travel, tailgates and extended weekends.

2009 *Journey*®

The 2009 Winnebago Journey® delivers with all the style, comfort and performance you expect from a diesel pusher. It starts with a Freightliner® XC chassis with a 29,410-lb. GVWR that lets you load up with gear for the weekend or weeks on end. A 350-hp Cummins® turbo-diesel engine with a 6-speed Allison® transmission delivers a power-packed performance wherever you travel. The SmartSpace™ interior design makes the most of the available space with innovative features and amenities. If you like the feel and livability of a 40-foot floorplan, but desire a shorter length coach, look no further than the 34Y. Its full-wall slideout expands to create an incredible 325 square feet of living space. Make Class A diesel-pusher living your lifestyle with your very own Winnebago Journey.

Any way you want it.

Your Journey provides a welcoming atmosphere with accent rope lighting and your choice of traditional or frameless cabinetry.* Day/night pleated shades offer multiple degrees of light and privacy. For added thermal efficiency, dual-glazed, thermo-insulated windows provide improved climate control.

Enjoy a movie with the 37" LCD HDTV and home theater sound system with a CD/DVD player and 5.1 surround sound. The 37H and 39Z also include the option of a second LCD HDTV in the front overhead cabinets to give everyone a great viewing angle. A standard 2,000-watt inverter lets you enjoy your entertainment options without shoreline or generator power.

You'll also have plenty of options for stretching out, including the Rest Easy® sofa or the available Rest Easy theater seating with twin recliners that convert into beds.

** Frameless cabinetry is not available on the 34y or with Belmont Maple wood.*

LIVING ROOM Enjoy all the comforts of home in the Journey's large living area. Both the front and bedroom TVs come pre-wired for the available King-Dome® in-motion satellite system with dual LNBs that can receive satellite channels for two separate receivers.*

** Receivers not included. Not available in Canada.*

The **WEB** icon designates a Winnebago Industries Key Feature. For further in-depth information and photos, use the drop-down menu or click on the 'Key Features' page at gowinnebago.com.

THEATER SEATING The available Rest Easy theater seating features matching recliners with a handy center console. The recliners easily convert into twin beds.

39Z The 39Z is available with twin UltraLeather Euro chairs.

Spacious.

The galley provides plenty of room to prepare a quick snack or an elegant meal with large Corian® countertops and matching sink and range covers that expand your preparation space. The Amana® range comes with three sealed burners while the 30" microwave/convection oven offers advanced cooking flexibility. A large sink with a pullout sprayer allows for faster cleanup.

Bountiful food storage can be found in the pullout pantry with adjustable shelving and a large four-door refrigerator/freezer. Dine in style in the BenchMark® dinette (NA 34Y) or the dining table/buffet that comes standard on the 34Y and is available on the 37H and 39Z.

RECYCLING CENTER Keep trash and recyclables separate in this hidden recycling center that pulls out for easy access.

DRAWERS Drawers are sized for maximum storage, hold tight with positive latches and open on full-extension slides for easy access.

WEB BenchMark The BenchMark full-comfort dinette converts into a bed, conceals additional storage under the seats and features the new Dream Dinette™ table that allows you to adjust the table-top quickly and easily (NA 34Y).

SHOWER The spacious shower contains a shower seat and features elegant curved, textured doors. The showerhead features five settings and can be held in your hand.

WEB
Ideal Rest
sleep number
by SELECT COMFORT

Lush and large.

The 34Y takes bedroom comfort to a new level with dual slideouts and a standard king-size bed with the Ideal Rest™ body-conforming mattress. It incorporates memory foam technology that molds to your body contours to provide perfect support in any sleeping position. An innerspring mattress is standard on the 37H and 39Z. All models offer the available Sleep Number® bed by Select Comfort™ for independently adjustable firmness on each side of the bed. The bedroom also offers abundant storage for all of your clothes and bedding.

TV/STEREO A 26" LCD HDTV is positioned for the best viewing angle and an available stereo system with a CD/DVD player lets you drift off to sleep with your favorite music.

WASHER/DRYER Add the washer/dryer and enjoy the convenience of fresh laundry without the Laundromat.

Just drive.

The ergonomic dash is designed for driving comfort and features a tilt/telescope steering wheel that adjusts to your ideal driving position. A driver's-side light-filtering shade and power sunvisors provide protection from the sun.

A rearview monitor system and power mirrors with defrost come standard. You can also add a side-view camera system. It works in conjunction with the rearview monitor and activates with the turn signals for added peace of mind when backing and turning. Use the auxiliary lamps to guide your campground maneuvers at night.

The RV Radio® includes a CD player, weather band and an iPod interface connection. Upgrade to the available Sirius® satellite radio package for 130 digital channels and a complimentary six-month subscription.

WEB

KEYONE The KeyOne™ system uses a single key to open the entrance, storage compartment and fuel-fill doors. For added convenience, lock and unlock the entrance door with the keyless remote.

WEB GPgo

The available GPgo™ is a Winnebago Industries exclusive that offers the convenience of a powerful integrated Global Positioning System with the flexibility of a portable GPS. GPgo features a 7" touch screen and a handy remote. GPgo can also be viewed through the available color rearview monitor and includes a portable handheld unit so you can also use it in your tow vehicle or slip it in your pocket.

CAB SEATS The driver's seat includes six-way power adjustments, which can also be added to the passenger seat. A footrest lets the passenger stretch out and relax. Both seats come in soft UltraLeather with adjustable lumbar support and rotate to add flexibility to the living space.

Enjoy your travels.

Everybody loves the look of full-body paint and the view from the one-piece windshield, which come standard on every Journey. You can add a lower front protective mask to resist rock chips over time. A standard electric patio awning is perfect for sunny afternoon relaxation.

Connecting at the campground could not be easier. A complete service center with color-coded labels and the QuickPort® service connection hatch make hookups a snap. You'll also enjoy the full-coach water filtration system and the standard exterior wash station for quick clean-ups. The QuickConnect® coupling valve ensures quick, clean connections to the dump site and a winterization package allows for hassle-free cold-weather storage.

You can also dry camp longer thanks to the added capacity provided by four deep-reserve Group 31 batteries.

WEB ONE PLACE® Frequently used switches, gauges and controls can all be found in the OnePlace® systems center.

WEB POWERLINE® This energy management system monitors electrical usage and automatically cycles appliances on and off to prevent tripped campground circuit breakers.

WEB TRUEAIR® The Coleman®-Mach® cooling unit is located in the basement, eliminating condensation runoff and creating a lower vehicle profile. The heat pump takes the chill off cool mornings without starting the furnace.

WEB TRUELEVEL® The TrueLevel holding-tank monitoring system uses sonar technology to read liquid levels from outside the tank. There are no probes to corrode or clog, just accurate readings time after time.

PASS-THROUGH STORAGE

Large, pass-through compartments with side-hinged doors hold plenty of gear and their design lets you bring along larger, bulkier items. The rotocast compartments are durable and easy to clean.

WEB  SMART STORAGE

THE LEADER AT EVERY TURN™

FREIGHTLINER XC CHASSIS

The Freightliner XC chassis was designed and built exclusively for this application with the smooth ride and performance you demand. The Freightliner service network is second to none with over 400 locations in the U.S. and Canada, many open 24/7.

- 29,410-lbs. GVWR
- Cummins ISB 6.7L diesel engine
- Touch pad shifter
- 55° wheel cut
- Allison® 3000 MH Series 6-speed transmission
- Sachs® shocks
- 10,000-lbs. hitch⁶
- Infinitely adjustable tilt and telescoping steering wheel

ENTERTAINMENT CENTER

The standard exterior entertainment center can be upgraded with a 32" TV, located in the sidewall for improved visibility, and a DVD player.

Warranty⁷

12-month/15,000-mile basic warranty;³ 36-month/36,000-mile limited warranty on structure⁸; 10-year limited parts-and-labor warranty on roof skin⁸

- The height of each model is measured to the top of the tallest standard feature and is based on the curb weight of a typically equipped unit. The actual height of your vehicle may vary by several inches depending on chassis or equipment variations. Please contact your dealer for further information.
- Journey floorplans feature a wide-body design – over 96". In making your purchase decision, you should be aware that some states restrict access on some or all state roads to 96" in body width. Before making your purchase decision, you should confirm the road usage laws in the states of interest to you.
- The load capacity of your motor home is designated by weight, not by volume, so you cannot necessarily use all available space when loading your motor home.
- Capacities are based on measurements prior to tank installation. Slight capacity variations can result due to installation applications.
- Capacities shown are tank manufacturer's listed water capacity (W.C.). Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank.
- Actual towing capacity is dependent on your particular loading and towing circumstances which includes the CVWR, GAWR, and GCWR as well as adequate trailer brakes. Please refer to the Operator's Manual of your vehicle for further towing information.
- See separate chassis warranty.
- See your dealer for complete warranty information.

Winnebago Industries® continuing program of product improvement makes specifications, equipment, model availability, and prices subject to change without notice. Comparisons to other motor homes are based on the most recent information available at printing.

Built by Winnebago Industries. Built to last.

Winnebago motor homes are built by Winnebago Industries, the company that defined motor homes. The company that built its reputation on quality construction. The company that transformed the motor home concept into a way of life.

Today, Winnebago Industries brings that reputation for quality and its 50-year history of RV innovation to the design and construction of

WEB every motor home. It's all a part of SuperStructure®, our exclusive system of proprietary structural components that instills each motor home with improved strength and durability.

Solid Foundation Steel and aluminum truss work provides a solid, flat foundation for the floor and sidewalls. Winnebago Industries engineers also take special care to distribute the weight of components to ensure proper handling and stability.

Interlocking Joints
The floor, sidewalls and roof are all integrally connected using interlocking joints. This creates a Journey body that acts as a cohesive unit for improved strength and durability.

Attention to Detail Whether it's sending every Journey through a high-pressure water tunnel to check for leaks or labeling individual wires and barcoding parts to save time and frustration during service, Winnebago Industries considers every detail to ensure your Winnebago motor home provides you with years of pleasure.

Strong as Steel Appliances are secured directly to embedded steel plates for added safety. Windshields are also mounted in steel with an automotive-style sealant; lesser designs use a rubber gasket to mount the windshield in fiberglass.

E-Coating Winnebago Industries employs an automotive-style dip tank process to apply an advanced electrodeposition coating on critical steel components for corrosion protection.

Thermo-Panel® Sidewalls Invented by Winnebago Industries, Thermo-Panel construction combines a fiberglass panel, high-density, block-foam insulation and aluminum support structures to create some of the most durable, lightweight sidewalls in the industry.

1-year-old Winnebago fiberglass roof

1-year-old competitor's rubber roof

Fiberglass Roof The Journey features a crowned, one-piece fiberglass roof, backed with a 10-year limited parts-and-labor roof skin warranty. Fiberglass offers superior strength, attractiveness and durability over the rubber roofs found on many competitive models which can chalk, streak and degrade over time. Fiberglass also provides increased puncture and tear resistance.

gowinnebago.com Visit us on the web for more info on all of our motor homes, the latest product updates and a host of web-exclusive content.

Take a Tour We're proud of our process, state-of-the-art facilities and the people who make Winnebago Industries number one. We invite you to visit our complex in Forest City, Iowa, for a first-hand look at the dedication and technology behind every motor home we build.

Recognized Quality The Recreation Vehicle Dealer Association annually rates RV manufacturers and awards the Quality Circle award to manufacturers who provide exceptional products, service and support. Winnebago Industries is proud to be the only manufacturer to receive this award every year since its inception.

Committed to Service We back our motor homes with the industry's best service after the sale.

- 12-month/15,000-mile basic limited warranty
- 36-month/36,000-mile warranty on structure
