

2009 *Adventurer*<sup>®</sup>

# 50 years on the road

Since the first Winnebago Industries RV rolled off the assembly line 50 years ago, the RV lifestyle has grown from a curiosity to a phenomenon. We're proud to have led the way with innovative products, quality construction and a passion for customer satisfaction. Join all of us in the extended Winnebago Industries family as we celebrate 50 years of travel, tailgates and extended weekends.

## 2009 *Adventurer*<sup>®</sup>

When it comes to Class A motor homes, many searches begin and end with the Winnebago Adventurer<sup>®</sup>. It offers the spacious interior, SmartSpace<sup>™</sup> design elements and incredible value that savvy RVers desire in a motor home. This year's all-new lineup includes your choice of standard graphics or full-body paint and four innovative floorplans, including an incredibly spacious full-wall slide on the 32H and a triple slide with available bunk beds and a king size bed on the new 35Z — perfect for the traveling family or bringing along the grandkids. Get a first-hand look at the all-new 2009 Winnebago Adventurer and see why, year after year, it's at the top of so many wish lists.

## Prepare to relax.

Enjoy a complete entertainment experience as you travel in your Adventurer. A large LCD HDTV, video selection system, and available home theater sound system with DVD player give you plenty of options. Every Adventurer comes pre-wired for the King-Dome® HD satellite system so you can choose to add it now or later at your convenience. A 600-watt inverter is also available to power your entertainment features without generator or shoreline power.

Enjoy it all from a mid-coach entertainment center in the 32H and 38N that provides ideal viewing from the sofa and dinette. The Stitchcraft furniture is designed for maximum comfort, offers plenty of potential seating configurations and is available in UltraLeather™ for added luxury and style.

Another great example of Adventurer's SmartSpace design is the Rest Easy® multi-position lounge. It transforms from a sofa into a recliner or a bed with the flip of a switch. It's the perfect place to relax in front of the available electric fireplace in the 38N.

The **WEB** icon designates a Winnebago Industries Key Feature. For further in-depth information and photos, use the drop-down menu or click on the 'Key Features' page at [gowinnebago.com](http://gowinnebago.com).

**HOOP-BASE CHAIR** The lounge chair—shown here in available UltraLeather—rocks, reclines and can be moved to your favorite spot when you're not traveling (NA 32H).

**EURO CHAIR** Relax in style in the available Euro Chair with ottoman (NA 32H), which comes standard with UltraLeather.

## Dinner time.

The galley offers upscale features such as an Amana® range top with storage below or an available range top with oven, a filtered cold water faucet, a pullout sprayer and Corian® countertops with solid-surface range and sink covers. You'll find abundant food storage in the pantry and beautiful cabinetry with satin nickel hardware and full-extension drawer slides. A microwave oven with a vented range fan comes standard or you can select the stainless steel microwave/convection oven. Choose the two-door refrigerator or upgrade to the four-door model with icemaker for additional cold storage.

**U-SHAPED DINETTE** A U-shaped dinette comes standard in the 32H and is available in UltraLeather.

**WEB BenchMark™** The BenchMark full-comfort dinette features innerspring cushions, easy to access large storage compartments and converts into a comfortable bed (NA 38N). BenchMark also features the Dream Dinette™ legless table that raises and lowers with ease.

**REST EASY THEATER SEATING** There's no better way to enjoy a movie than in the available theater seating with center console. For added convenience, it also converts into dual twin beds (32H & 38N).

**SLEEP NUMBER BED** The available Sleep Number® bed from Select Comfort™ lets you independently adjust the firmness of each side of the bed to your Sleep Number. Choose the available bunk bed/wardrobe module and you'll have kid-friendly sleeping accommodations. A sliding door between the bedroom and bunk area provides privacy. If the kids or grandkids stay home, the bottom bunk flips up to access storage below and the top bunk flips up to create additional wardrobe space.

## Master suite.

Escape to the bedroom where you'll find an additional LCD HDTV (optional 35A & 38N) and an available stereo system with a CD/DVD player, alarm clock and an MP3 input. The 35Z lets you stretch out in a king-size bed and a comfortable sofa. The 38N also includes a king-size bed. Underbed storage compartments are included to expand your storage capacity (NA 35Z). When you own an Adventurer, you're guaranteed a great night's sleep no matter where you go.

**SOFA** A spacious rear wardrobe and sofa are standard in the 35Z.

## Fun to drive.

Driving cross country or even across town is a joy in the Adventurer. Controls and navigation tools such as the available rearview monitor are smartly positioned around the driver for a more enjoyable driving experience. Driver and passenger seats include adjustable lumbar support, swivel to become part of the living area and are available in UltraLeather. Available window shades and powered sunvisors help protect the driver and passenger from the glare of the sun. You'll also enjoy a cab sound control package that reduces motor noise and a one-piece windshield for an optimal view of the road.

The RV Radio® lets you listen to AM/FM radio or CDs. It also includes a weather band and an auxiliary connection for your MP3 player. Two remotes let you control the radio from the steering wheel or living area.

Upgrade to Sirius® satellite radio for 130 channels of crystal-clear programming. The Sirius satellite package includes a complimentary 6-month subscription and is iPod ready so you can listen to and control your iPod through the RV Radio.

**CAB SEATS** Upgrade the driver's seat with UltraLeather and 6-way power assist for added comfort on long drives.

**SIDEVIEW CAMERAS** Available cameras are activated by the turn signals and viewed on the rearview monitor.

**WORKSTATION** The pullout workstation creates a multifunctional space that is great for writing a postcard or using a laptop.

**UPGRADES** Choose the standard awning or an available electric awning with wind sensor and remote control. Large-capacity Group 31 batteries increase your amp-hours by up to 44% over last year's offering.

## Room for more.

Storage capacity is a top priority in every Adventurer design. We also make your things easier to access with our exclusive StoreMore® slideout storage system (NA 32H). Hookups are simplified in the exterior service center, which houses important plumbing connections. It includes a wash station and a winterization system for easy storage prep.

Systems management is made easy by the OnePlace® systems center, which includes controls for all of your important components. Thermo-insulated windows help maintain thermal efficiency while aluminum wheels give your coach a fresh look. Level the Adventurer with the standard hydraulic jacks and use the KeyOne™ system to open doors and compartments with a single key.

**WEB ONE PLACE**® systems center lets you monitor and control key systems from one convenient location.

**WEB POWERLINE**® energy management system monitors electrical usage and automatically cycles appliances on and off to prevent tripped campground circuit breakers.

**WEB TRUELEVEL** holding-tank monitoring system uses sonar technology to read liquid levels from outside the tank. There are no probes to corrode or clog, just accurate readings time after time.

**WEB TRUEAIR** residential air conditioning with heat pump provides even cooling throughout the coach.

**WEB STOREMORE** Storage compartments on 35A, 35Z & 38N extend with the slideroom so you don't have to crawl on your hands and knees to get what you need.

**WEB SMART STORAGE**

**PASS-THROUGH STORAGE** The 32H features large rotocast storage compartments including the pass-through compartment for larger items.

**WEB QuickPort.**

**SERVICE CENTER** Color-coded labels identify connection points and the QuickPort® service connection hatch makes connections fast and easy and allows the compartment door to be shut while connected to exterior service. The exterior shower is great for quick clean ups of muddy shoes or gear.

**ENTERTAINMENT CENTER** The available exterior entertainment center includes an AM/FM radio, CD player, remote and power outlets. The convenient table stores in an exterior compartment when not in use.

# 2009 Adventurer® Floorplans & Specifications

Dimensions shown are for sleeping space only and may vary due to styling differences. Dashed lines denote overhead storage areas. Floorplans and specifications are also available online at: [gowinnebago.com](http://gowinnebago.com)

# Built by Winnebago Industries. Built to last.

Winnebago motor homes are built by Winnebago Industries, the company that defined motor homes. The company that built its reputation on quality construction. The company that transformed the motor home concept into a way of life.

Today, Winnebago Industries brings that reputation for quality and its 50-year history of RV innovation to the design and construction of

**WEB** every motor home. It's all a part of SuperStructure®, our exclusive system of proprietary structural components that instills each motor home with improved strength and durability.

**Solid Foundation** Steel and aluminum truss work provides a solid, flat foundation for the floor and sidewalls. Winnebago Industries engineers also take special care to distribute the weight of components to ensure proper handling and stability.

**Strong as Steel** Appliances are secured directly to embedded steel plates for added safety. Windshields are also mounted in steel with an automotive-style sealant; lesser designs use a rubber gasket to mount the windshield in fiberglass.

**Interlocking Joints**  
 The floor, sidewalls and roof are all integrally connected using interlocking joints. This creates an Adventurer body that acts as a cohesive unit for improved strength and durability.

**E-Coating** Winnebago Industries employs an automotive-style dip tank process to apply an advanced electrodeposition coating on critical steel components for corrosion protection.

**Attention to Detail** Whether it's sending every Adventurer through a high-pressure water tunnel to check for leaks or labeling individual wires and barcoding parts to save time and frustration during service, Winnebago Industries considers every detail to ensure your Winnebago motor home provides you with years of pleasure.

**Thermo-Panel® Sidewalls** Invented by Winnebago Industries, Thermo-Panel construction combines a fiberglass panel, high-density, block-foam insulation and aluminum support structures to create some of the most durable, lightweight sidewalls in the industry.

1-year-old Winnebago fiberglass roof

1-year-old competitor's rubber roof

**Fiberglass Roof** The Adventurer features a crowned, one-piece fiberglass roof, backed with a 10-year limited parts-and-labor roof skin warranty. Fiberglass offers superior strength, attractiveness and durability over the rubber roofs found on many competitive models which can chalk, streak and degrade over time. Fiberglass also provides increased puncture and tear resistance.

[gowinnebago.com](http://gowinnebago.com) Visit us on the web for more info on all of our motor homes, the latest product updates and a host of web-exclusive content.

**Take a Tour** We're proud of our process, state-of-the-art facilities and the people who make Winnebago Industries number one. We invite you to visit our complex in Forest City, Iowa, for a first-hand look at the dedication and technology behind every motor home we build.

**Recognized Quality** The Recreation Vehicle Dealer Association annually rates RV manufacturers and awards the Quality Circle award to manufacturers who provide exceptional products, service and support. Winnebago Industries is proud to be the only manufacturer to receive this award every year since its inception.

**Committed to Service** We back our motor homes with the industry's best service after the sale.

- 12-month/15,000-mile basic limited warranty
- 36-month/36,000-mile warranty on structure
- Standard 10-year limited parts-and-labor roof skin warranty
- Complimentary 24-hour roadside assistance program

- RV Technical Assistance Hotline
- Emergency Trip Interruption
- Nationwide Trip Routing
- RV Service Appointment Assistance
- Emergency Message Service
- Fee-Free Travelers Cheques

- TripSaver Fast Track Parts. TripSaver guarantees that in-stock warranty parts ship directly to your dealer within 24 hours.
- National dealer service network

**WIT Club** Winnebago owners are like family. Joining the Winnebago-Itasca Travelers is a great way to meet and travel with other Winnebago enthusiasts. Members enjoy:

- Caravans and rallies
- Local and state group activities
- RV travel benefits
