A real display of Fuzion's market leading innovation is the industry exclusive 383. It's truly the best of both worlds. What do we mean? The 383 is a hybrid between a toy hauler and a conventional fifth wheel. It features the most interior living space of any sport utility on the market, the most kitchen storage, and the most kitchen counter space while still allowing you to bring your toy or toys along. Do you have a motorcycle, golf cart, quad or side by side ATV? Perfect, because the entire rear entertainment center swings to the sidewall, latches in and creates a very useable garage space with 2,500 lbs. D-ring tie downs and tuff ply garage flooring.
