Sport Packs

Welcome to Eagle Cap's limited edition sport packs - the perfect habitat for any sports person.

These magnificent interior décors features hickory cabinets with brushed nickel hardware, Realtree™ camouflage fabrics, stainless steel appliances, and built-in gun cabinets. They're beautifully crafted to honor the habitat-conservation efforts of Ducks Unlimited and the Rocky Mountain Elk Foundation, with which Eagle Cap Campers has formed partnerships. In honor of their efforts, we will donate a portion of the proceeds from the sale of these limited edition campers to them. Eagle Cap Campers is proud to be the exclusive truck camper choice for both organizations.

Western Interior

Our new décor pack features a Western theme. With inlaid rope, beautifully crafted conchos, and western fabrics, it brings to life the haunting beauty and history of the American West. It can also include bedding from Pendleton Woolen Mills, makers of world-class woolsens.

Eagle Cap's exclusive Western-themed interior offers the rugged beauty of the West with all the comforts of home.

Warranty

Eagle Cap Campers provides a 2-year full warranty on all Eagle Cap Products.

Appliance warranties vary and are set by the respective manufacturer.

Please contact your dealer for complete details regarding warranty policies.

The information contained herein is as accurate as possible at the time of publication. Subsequent refinements and improvements may be evident in the actual products. All liquid capacities are approximate and dimensions are nominal. Some equipment and features illustrated may be optional, or for presentation purposes only.

This brochure may not be used for contractual purposes. Eagle Cap reserves the right to improve or modify its products without prior written notice.

*As rugged and beautiful as the mountains for which they are named,
Eagle Cap campers are the strongest and lightest campers in their class today.
They're made to last and built to look great - both inside and out.*

www.eaglecapcampers.com

Eagle Cap campers are strong.

Our campers feature what we believe is the best construction on the market today. For strength and weight, our all-welded aluminum framing can't be beat! We combine that tried-and-true frame with a vacuum bonding process. The result is a camper with a strength-to-weight ratio that is unparalleled.

Eagle Cap campers are durable.

We build our campers to last, with high-gloss, gel-coat fiberglass exteriors. One-piece molded front and rear fiberglass caps provide superb protection from the weather. Heavy-duty insulation makes our campers an excellent choice for use in all four seasons of the year.

Eagle Cap campers are attractive.

The durable, high-gloss fiberglass exterior looks great. One-piece molded front and rear fiberglass caps give our campers a sleek, modern look. Inside, we've added rich-looking interiors in subtle hues of blue, green, and wine.

Eagle Cap campers are a great value.

We focus on providing quality construction at an affordable price. We keep our overhead low so that we can manufacture campers with more standard features, better-quality parts, and high construction standards. We believe our campers are the best value on the market today!

At Eagle Cap Campers, we aren't focused on producing the most campers, we're focused on building the best campers - one unit at a time. We take pride in quality workmanship, and it shows.
