Toy Haulers by Jayco

2010 OCTANE ZX | RECON ZX Play Station

RECON ZX

Live for

Toy Haulers by Jayco®

the weekend.

What's more fun than a weekend spent playing with your favorite toys? Bringing your friends and family along for the ride. With the 2010 Jayco ZX toy hauler, you'll have plenty of room for everything—and everyone you need for an epic weekend. The ZX line is tough enough to handle just about anything the road throws at it, without sacrificing anything in the way of comfort and amenities. Isn't that what weekends are all about?

GARAGE STORAGE

Your ATVs, motorcycles and side-by-sides will feel right at home in the Jayco ZX's spacious garage. Even better, optional electric queen beds lower over the cargo area for additional sleeping capacity.

SUPER LITE

New for 2010: the Octane ZX Super Lite Toy Hauler. Inside, you'll find many of the same amenities as the Octane ZX. But at just 4,065 pounds, it easily can be towed by most half-ton trucks and SUVs*.

A TRADITION OF LIVEABILITY

Starting with our first lifter system for fold-down campers in 1968, which made for an easier, more enjoyable camping experience, Jayco has always been about liveability. Today, we're the world's largest family-owned RV manufacturer, yet our priorities remain the same: making RVs more liveable and family time more memorable.

LET THE GAMES BEGIN.

Jayco ZX toy haulers combine the liveability you expect from Jayco with the toughness and durability you demand. So no matter how hard you play during the day, with the ZX's spacious kitchen and multiple seating and sleeping areas, you'll still feel right at home in the evening. Your next great adventure is out there: grab it in a new Jayco ZX.

The station with a

.

NO WORRIES

Most ZX garages feature an antislip, non-skid floor and ramp, while frame-anchored D-rings keep your toys secure.

EAT UP

All Jayco ZX toy haulers sport a full-featured kitchen, thanks to innovative design that makes great use of the available space.

CHILL

After a long day on the trail, there's plenty of room to get some rest in one of Recon's many convertible sleeping areas.

REFRESH

Go ahead, get as dirty as you want. You can clean right up in Recon's roomy bathroom with a large, neo-angle shower.

SLEEP WELL

Optional beds in the cargo area provide plenty of additional sleeping space for your friends.

CHOW DOWN

The Recon's full kitchen, with microwave oven, 3-burner stove, and 8 cu.ft. refrigerator, has everything you need to enjoy a home-cooked breakfast, lunch or dinner.

Jayco construction

At Jayco, we've built a reputation for superior construction and craftsmanship. We always use top-quality materials and production techniques, giving our products **reliable resale value** and our owners peace of mind.

FLOOR

Vacuum bonding joins our aluminum frame with a heavyduty Structurwood® floorboard to create one of the strongest foundations in the industry.

ZX walls feature 2" wall studs on 16" centers, with headers for doors and windows, plus .024 double-crimped aluminum skin to reduce expansion.

Our roof combines wood rafters with 4-½" arched trusses, ¾" plywood decking, a one-piece seamless rubber membrane and fiberglass insulation for an R-7 insulation value.

FLOOR

A 5/8" tongue-and-groove plywood deck on a welded aluminum frame, together with fiberglass and foil insulation (R-24) and a Poly-Flex[™] covering, create one of the strongest foundations in the industry.

WALLS

TuffShell[™] vacuum-bonded lamination combined with welded aluminum frames and metal backers create a durable structure designed to withstand use and travel.

ROOF

The laminated, vacuumbonded roof is comprised of ¼" plywood decking on 5" arched aluminum trusses with beadfoam insulation (R-21) and a seamless rubber shield that protects against moisture and resists aging.

Jayco craftsmanship

Jayco's dedicated production team includes Amish craftsmen who build with well-honed woodworking techniques passed down for generations and skilled seamstresses who produce our upholstery, bedding and draperies with great attention to detail.

Jayco liveability

At Jayco, it's always been about liveability.

DRAWER GUIDES

New ball bearing drawer guides provide smooth operation and full-drawer extension.

IN-RAMP TOOLBOX

Keep your tools and maintenance items safe and out of the way with ZX's in-ramp toolbox. (Octane ZX and Recon ZX only.)

FUEL, AIR AND WATER

The Recon ZX's optional fuel, air and power wash stations make it easy to keep your toys in tip-top shape.

D-RINGS

Tie-down D-rings are rated for 2,500 pounds and keep your toys stationary during travel.

POLAR BARRIER

Our exclusive Polar Barrier[™] thermal insulation package lets you extend the camping season by providing protection against freezing (temperatures as low as 0°F or -17°C), greatly increasing your options for winter travel destinations. (Recon only.)

Time to Play.

Our line of toy haulers is built with super-tough high-end materials, so you can play in terrain you never thought possible. And with over 12 feet of cargo space and sleeping for up to 12 people, in a Jayco ZX there's no reason to leave anything—or anyone—behind. No matter which ZX model you choose, you're always ready for an off-road adventure.

One of the market's lightest toy haulers, the new Octane ZX Super Lite proves that just because you're giving up weight doesn't mean you're giving up durability.

Unloaded Vehicle Weight (UVW): Sometimes referred to as "Dry Weight," UVW means the typical weight of this trailer as built at the factory. The UVW, as used in product literature and other promotional materials, does not include cargo, fresh water, propane, options or dealer-installed accessories.

4

6

Gross Vehicle Weight Rating (GVWR): GVWR means the maximum permissible weight of the trailer, including the UVW plus passengers, personal items, all cargo, fluids, options, and dealer-installed accessories. The GVWR is equal to or greater than the sum of the UVW and the CCC.

Cargo Carrying Capacity (CCC): CCC means the maximum weight of all passengers, personal items, food, fresh water, propane, tools, other cargo and dealerinstalled accessories that can be carried by the trailer. CCC is equal to or less than GVWR minus UVW. The addition of options will decrease the CCC.

Hitch Weight (HW): The hitch weight, as used in product literature and other promotional materials, does not include cargo, fresh water, propane gas, options or dealer-installed accessories. The addition of these types of items will either add to or subtract from the stated hitch weight.

It is important for your safety and enjoyment that your tow vehicle be adequately sized and equipped to tow and handle the GVWR of the RV you select. Review weights and rating of your tow vehicle and consult a competent advisor for questions or advice. Whether you are new to RVing or a veteran, get a feel for the per-formance of your tow vehicle and the RV together before heading out on the road-ways. When you tow an RV, you must drive differently than you do when driving a single vehicle. Practice hooking up, driving, backing up and braking in a safe environment or seek out professional instruction. Jayco affixes a weight label to each RV which lists weight information for that vehicle. See specification chart above.

2 YEAR WARRANTY

The Jayco Co-Pilot Warranty is a manufacturer's limited warranty. It comes from the people who build Jayco recreation vehicles to the people who buy them. Each Jayco is warranted to the original purchaser for twenty-four (24) months or twenty-four thousand (24,000) miles (mileage limitation applies to motorized products only), whichever occurs first, from the original date of purchase against defects in materials and workmanship. Jayco's limited warranty is not transferable. **Go ahead and compare the Jayco warranty with other manufacturers' warranties. You'll find it's the best in the business!**

For a copy of the limited warranty with full terms and conditions, ask your local Jayco dealer.

300 JAYCO DEALERS

Establishing a solid relationship with your local Jayco dealer is a key component in the enjoyment of your new Jayco. By purchasing from a local dealer, you will have a convenient location for sales, parts and service support.

Jayco dealers are required to deliver all products at the site of the sale to provide a full product orientation and walkthrough at the time of delivery. It's a good way to become familiar with your Jayco and to meet the service, parts and warranty staff members who will be assisting you. If you live in Canada, there are regulations that must be met when buying a Jayco RV. Your local Canadian dealer is a professional at meeting these requirements and regulations. There simply is no substitute for a good relationship with your local Jayco dealer.

YEAR ROADSIDE ASSISTANCE

Travel worry-free with Jayco's Customer First Roadside Assistance program, yours at no cost during your first year of ownership. This program is offered through Coach-Net[®], the largest RV emergency road service in the country, and gives you immediate access to dependable roadside assistance and support services with a simple phone call.
