CAMPING | *pure and simple.*

2010 TRAVEL STAR® | LIGHT WEIGHT EXPANDABLES AND TRAVEL TRAILERS BY STARCRAFT™

# Ready for fun?

245RKS / Raisin

The 2010 Travel Star is built to make getting away fun, easy and affordable. It's light enough to be towed by most minivans, crossovers and SUVs\*, but strong enough to stack up against any camper in its class. Unlike our competitors, we won't make you pay for stuff you don't need. With Travel Star, what you see is what you get: a simple camper for people who simply love to go camping.

217RBSS / Vanilla

\* Consult with your authorized automobile manufacturer and vehicle owner manual.

## EXPANDABILITY

Featuring fold-out, fully sealed, cable-supported bunks, Travel Star can sleep up to seven adults (certain models) and still have room for your gear.

## TOWABILITY

Minivans, crossovers and SUVs\* have a new best friend. Travel Star is one of the most towable campers on the road today.

## SIMPLICITY

The Travel Star is simply designed to give you everything you need. You won't pay for features or gadgets you just don't use.

# Just right.

If you love to camp, you'll love Travel Star. Designed for a variety of lifestyles and budgets, each model comes complete with everything you'll need to have a great trip, including a fully functional kitchen and bath. With its expandable fold-out bunks and hard-wall slideout rooms, Travel Star comfortably sleeps up to seven people, without skimping on living space or comfort.

217RBSS / Vanilla

Wash off whatever the road may throw your way in Travel Star's compact, fully featured bathroom with tub and shower combo.

175RK / Raisin

There's plenty of room for the whole family to enjoy a home-cooked meal together in Travel Star's large, comfortable dining area.

245RKS / Raisin

Travel Star's full kitchen and sleek, modern appliances mean you don't have to cut corners when it comes to planning your menu.

**Unloaded Vehicle Weight (UVW):** Sometimes referred to as "Dry Weight," UVW means the typical weight of this trailer as built at the factory. The UVW, as used in product literature and other promotional materials, does not include cargo, fresh water, propane, options or dealer-installed accessories.

**Gross Vehicle Weight Rating (GVWR):** GVWR means the maximum permissible weight of the trailer, including the UVW plus passengers, personal items, all cargo, fluids, options, and dealer-installed accessories. The GVWR is equal to or greater than the sum of the UVW and the CCC.

**Cargo Carrying Capacity (CCC):** CCC means the maximum weight of all passengers, personal items, food, fresh water, propane, tools, other cargo and dealer-installed accessories that can be carried by the trailer. CCC is equal to or less than GVWR minus UVW. The addition of options will decrease the CCC.

**Hitch Weight (HW):** The hitch weight, as used in product literature and other promotional materials, does not include cargo, fresh water, propane gas, options or dealer-installed accessories. The addition of these types of items will either add to or subtract from the stated hitch weight.

It is important for your safety and enjoyment that your tow vehicle be adequately sized and equipped to tow and handle the GVWR of the RV you select. Review weights and rating of your tow vehicle and consult a competent advisor for questions or advice. Whether you are new to RVing or a veteran, get a feel for the performance of your tow vehicle and the RV together before heading out on the roadways. When you tow an RV, you must drive differently than you do when driving a single vehicle. Practice hooking up, driving, backing up and braking in a safe environment or seek out professional instruction. Starcraft affixes a weight label to each RV which lists weight information for that vehicle. See specification chart above.

## Built right.

We built our reputation making affordable, reliable and durable campers with an Amish-inspired attention to detail. We use the highest-quality materials available, state-of-the-art production techniques and time-tested design principles. Because the last thing you need to worry about when you're camping is your camper.

### FLOOR

Because a camper is only as strong as its foundation, we vacuum-bond and laminate a welded tubular aluminum frame with two layers of luan, resulting in a firm foundation.

### WALLS

Our walls combine TuffShell™ vacuum-bonding with welded aluminum frames and metal backers to create a durable structure designed to handle the toughest conditions.

### ROOF

Moisture and aging don't stand a chance against our roof structure, which uses 2" of R-9 bead-foam insulation and is finished with a seamless rubber layer for additional protection.

## Built on tradition.

The Starcraft name has been around for more than 40 years – becoming one of the most dependable names in the camping industry. Today, our strong balance sheet and family-oriented business approach means we'll be around for decades to come. And you can bet our campers will continue to come with everything you need to have a great time in the great outdoors, at a price that guarantees you will.

### Why a Local Starcraft Dealer is Important to You

Establishing a solid relationship with your local Starcraft dealer is a key component in the enjoyment of your new Starcraft. By purchasing from a local dealer, you will have a convenient location for sales, parts and service support.

### One-year warranty

The Starcraft warranty is a manufacturer's limited warranty. Each Starcraft is warranted to the original purchaser for twelve (12) months from the original date of purchase against defects in materials and workmanship. Starcraft's limited warranty is not transferable. For a copy of the limited warranty with full terms and conditions, ask your local Starcraft dealer.
