

MONACO®

DRIVING YOUR DREAM.

ENJOY LIFE IN THE SLOW LANE.

When you're traveling in a 2011 Monarch, there's no need to rush. Slow down. Enjoy the good life in this popular value-packed, gas-powered Monaco. For 2011, each Monarch model is teamed with a rugged, reliable chassis by Ford or Workhorse. Whichever you choose, you'll have the added safety of anti-lock braking and the convenience of fully automatic hydraulic leveling. There's also new four-color full-body paint with painted graphics and metal awning covers, a panoramic one-piece windshield and a large

chrome grille. Inside, Monarch boldly enters the ranks of the big-boy Class As. Just check out the array of floorplans ranging from 30 to 35 feet in length, including three full-wall slide models. Customize yours even more by selecting from three stylish décors, all with Newport Cherry-finished hardwood raised-panel style cabinetry. And round it all off with top-quality appliances and state-of-the-art options like Sirius satellite radio, GPS and a 3-camera vision system. *(Pictured: 35SFD/Urban Loft III/Newport Cherry)*

Note: Colors depicted are a reasonable representation though they may not be an exact match of the actual colors due to variances in processing and production. See your dealer for actual fabric and paint chip samples.

NEWPORT CHERRY

SMARTSTRUCTURE II

SmartStructure II adopts the principles of our diesel chassis technology for use with a gas chassis. While other motorhomes use outriggers to hang the walls and storage compartments, our exclusive truss system is integrated with the chassis rails to provide a solid platform. The floor and storage bays are all one piece, and the truss system works with the chassis rails to channel weight toward the center of the motorhome. Greater strength. Better weight distribution. A solid foundation. That's SmartStructure II.

ENGINE OPTIONS

Choose from two chassis/engine combinations: The Ford chassis comes standard with a 6.8L 3-valve V-10 engine with 362 HP and 457 lbs./ft. torque; the Workhorse chassis comes standard with an 8.1L V-8 with 340 HP and 455 lbs./ft. torque.

WARRANTIES

12 month/24,000 mile basic limited warranty. 5 year/50,000 mile limited structural warranty. **Review your coach's limited warranty in full for complete terms and conditions. Review your chassis manufacturer's limited warranty in full for complete terms and conditions.*

ROOF CONSTRUCTION

(top to bottom)

- One-piece peaked fiberglass roof
- Luaun backing
- Thick, tapered bead foam insulation
- Aluminum double I-beam superstructure filled with fiberglass insulation
- Vapor barrier
- Structure foam: thermal insulative barrier
- 1/2" bead foam insulation
- Foam padding for extra insulation
- Padded vinyl ceiling

SIDEWALL CONSTRUCTION

(left to right)

- Wallpaper
- Décor board
- 1-1/2" x 1-1/2" square filled tubular aluminum frame
- High performance thermal insulation
- Gel coat fiberglass composite sidewall

FLOOR CONSTRUCTION

(top to bottom)

- Structurwood™
- 1-1/2" tube
- High-performance thermal insulation foam
- Luaun
- 3-ply backer

AROUND-THE-CLOCK SERVICE AND SUPPORT

When you take delivery of your new recreational vehicle, it's just the beginning of our exclusive around-the-clock Owner Advantage Program. We offer an extensive support program that provides complete roadside assistance and special motor club benefits that follow you wherever your travels take you. We've teamed up with the largest RV emergency road service company in the country to give you immediate access to fast, dependable service when and where you need it. Add our toll-free service appointment assistance, plus a technical assistance hotline, and you have the security of full-time support at your fingertips.

For details, call toll-free (877) 211-8135

¹Towing capacity is limited by GCWR; your vehicle's towing capacity is the difference between the GCWR and the actual vehicle weight, including all water, fuel, passengers and cargo. Your towed vehicle should be equipped with auxiliary brakes if the weight of the towed vehicle exceeds 1,000 lbs. Consult your owner's manual for further towing information.

²All tank capacities are estimated based upon calculations provided by the tank manufacturers and represent approximate capacities. The actual "usable capacity" may be greater or less than the estimated capacities based upon fabrication and installation of the tanks.

³Actual filled LP capacity is 80% of listing due to safety shut-off required on tank.

The actual overall length of the recreational vehicle may differ from that indicated in the brochure due to variances in the manufacturing process and/or installed components. The actual length may be greater or less than that indicated. Due to the large variety of options and floorplan arrangements available to our customers, actual weights for each unit can differ significantly. Monaco provides a weight sticker on each unit we produce which includes that unit's tank capacities and approximate weight. Consult your local Monaco dealer for unit availability and further information. The information printed in this brochure reflects product design, fabrication, and component parts at the date of printing. The manufacturer reserves the right, at any time, to make changes in product design or material or component specifications

as its sole option, without notice. This includes the substitution of components of a different brand or trade name which will result in comparable performance. All information printed in this brochure is subject to change after the date of printing. Some features shown or mentioned in this brochure are optional and may only be available in selected floorplans. Photographs may depict a floorplan option that has been discontinued or is no longer available at the time of your purchase. Photographs may show props or decorations that are not standard equipment. Monaco, the Monaco logo and its design, are registered trademarks. Other products and company names are trademarks and/or registered trademarks of their respective holders. While the color of the motorhome's exterior and the interior fabrics depicted in this sales brochure are fair and

reasonable depictions, the colors depicted may not be an exact match of the actual colors because of the variances in photo-processing and printing. Due to product improvements, changes during the model year and/or transcription errors that may occur, information represented within this brochure may not be accurate at the time of your purchase. If certain information is significant to your purchasing decision, please confirm the information with your dealer. Component part and appliance manufacturers issue limited warranties covering portions of the recreational vehicle not covered under the Limited Warranties issued by Monaco RV, LLC. To learn specific details regarding warranty coverage, please contact your selling dealership or review the warranty packet inside the recreational vehicle.
