

MORE FEATURES LESS WEIGHT

Montana HIGH COUNTRY

What is Helium Technology?

Helium Technology is a proprietary process developed by Keystone RV Company that utilizes new design and manufacturing technologies as well as new construction materials to significantly reduce the weight of the RV without sacrificing strength, cargo capacity or features. Helium Technology provides significant weight savings of up to 2,500 pounds compared to traditional coach construction. With Helium Technology, fuel economy is improved and wear and tear on the tow vehicle is decreased.
