CEDAR CREEK'S FAMOUS ALL ALUMINUM SUPER STRUCTURE

Silverback's all aluminum cage construction is on 16" centers or less. Silverback depends on the frame for its strength—not lamination. Customers can repair their units easily. The draw back with one piece laminated construction is the fact that it is one piece. With Silverback repairs are a snap. Silverback has one of the most desired types of construction in the country!

MORE CONSTRUCTION ADVANTAGES

THE "TRUE" GELCOAT ADVANTAGE!

"True classic performance gelcoat is the *best of the best* the RV industry has to offer. "True" gelcoat is thicker, stronger with higher impact resistance and flexural strength to virtually eliminate sidewall repairs. "True" gelcoat is the *only product that will retain its high gloss finish and includes side compartment and entry doors!*

5/8" TONGUE AND GROOVE, MARINE GRADE PLYWOOD FLOOR

TAP TEST!

You will be surprised how many competitors use false foam in their fascia. Silverback's solid wood fascia gives "A" quality difference you can hear and feel!

90°+ TURNING RADIUS

The aerodynamic, front cap achieves a FULL 90 degree (plus a little extra) turning radius even when towed by short bed trucks. Accept no limited imitations!
