# MX-Series

**MX** IS  
**VALUE**  
**QUALITY**  
**FEATURES**  
**AND FUN**

With an interior as stylish as the big trailers, the Shockwave T23FS, shown here in Ginger decor, is wide open. It features oversized windows for a great view of the action, plenty of overhead cabinets, a great seating area, and maximum sleeping capacity with its dual electric beds. The Optional LCD TV is mounted on an articulating arm giving 270 Degrees of visibility.

Your choice of graphics, Red or Blue

## **BUY LOCALLY**

**FOREST RIVER INC. ENCOURAGES YOU TO BUY  
FROM YOUR HOMETOWN DEALERSHIP**

Forest River, Inc. strongly encourages our retail customers to purchase from their local dealership whenever possible due to the following factors:

- Our Dealers are as a rule, independently owned and operated businesses. Outside of those customers they personally sold products to, they are not contractually obligated to perform warranty service on Forest River products that were purchased elsewhere. There may be an occasion that you would be required to return to the point of purchase to satisfy warranty requirements.
- Although many dealerships will eventually service products not purchased at their place of business, they will usually take care of their customers and other Forest River customers who are traveling away from their local dealer as they would their own.
- Local purchases allow a customer to establish a relationship with a dealer close to home. This relationship provides the customer with a convenient location for service and support from a "home town" professional.
- The opportunity for a thorough PDI (Pre Delivery Inspection) and product orientation is an additional benefit of buying from your local dealer. Further providing the opportunity for refresher courses or the ability to get questions answered much more conveniently.
- For our Canadian customers, there are also requirements which must be met to bring an RV purchased out of the country to their home. Although not insurmountable, these requirements may involve such things as additional inspections and certifications, taxes and fees. Your local Canadian Dealer is a professional at meeting these requirements.

Forest River's goal is for all RV Owners to fully enjoy their RV experience. In light of this goal, and considering the advantages of buying local, we encourage you to be thorough when determining what product to purchase and which dealer to purchase it from as both are key to your ultimate satisfaction and the realization of your dreams.

All illustrations and specifications contained in this literature are based on the latest product information at time of publication. Forest River reserves the right to make changes in price, colors, materials, equipment, and specifications at any time without notice and assumes no responsibility for any error in this literature.

Load distribution of Cargo can and will affect handling. Be sure you determine Tow Vehicle Trailer Towing Capacity. (See Vehicle Manufacturer for Specifications). Keep total weight of trailer under maximum Gross Vehicle Weight Rating, and under Vehicle Tow Rating. Load Capacity, including liquids, personal, and miscellaneous items, affects trailer towing characteristics. Weather conditions (i.e. Wind), will affect handling. Keep 60% of loaded weight above and forward of the axles.
