"Green RV of The Year"
-Roaming Times

"The Rules Have Changed for RV Design!"

The RV industry is well overdue for change. The industry pioneers behind Earthbound RV have been diligently working on alternative materials, designs, and construction methods that have initiated this change.

EARTH-FRIENDLY, FAMILY-FRIENDLY

*"I honestly feel your approach to building RVs could be what triggers a revival in the industry... It's absolutely refreshing to see a totally new approach."
- Roger and Pam Bohnke
Yorktown, VA*

A NEW KIND OF RV...A NEW KIND OF COMPANY

*"The Golden Ridge"
Sunset Decor*

The Rules Have Changed

Ultra-Low V.O.C. & Recyclable Materials

While it has been common knowledge that high levels of V.O.C.'s exist in the standard materials used to manufacture RV's, automobiles, and homes, few manufacturers have been willing or able to incur the cost and time in research associated with the development of low V.O.C. or lightweight, recyclable materials until now.

Better Quality From The Start

Most U.S. consumers are plagued by low final assembly quality and poor material content from RV manufacturer's old school of design and basic construction methods. This has impacted the consumers' overall view of the RV industry's quality standards and has impacted the Customer Satisfaction Index. By utilizing state of the art equipment, space-age materials, full pre-delivery inspections, and an experienced management team, a new standard of quality has evolved at Earthbound RV.

Longer Warranties

Because of the structural integrity and quality of materials utilized in each Earthbound RV, each model features a 3 year, bumper-to-hitch *limited warranty (a warranty never before attained by other towable manufacturers). There is virtually no wood in an Earthbound RV structure, and our seamless, composite roof, floor, and aluminum sidewalls are rot-proof!

Innovative, Lightweight, More Fuel-Efficient Designs

Earthbound's award winning design has been recognized as the "Green RV Of The Year" by Roaming Times™, and has been certified at the highest possible status level of "Emerald Green" by NTA inc., a nationally recognized engineering/consultant firm. Earthbound RV will continue its pursuit, of only developing the industry's top selling floor plans in lighter, more durable, more fuel efficient designs. A new 30 ft. Earthbound Travel Trailer can weigh as much as 1,500 pounds less than a conventionally designed RV!

(* See owner's manual for details)

SUPERIOR AERODYNAMICS, SUPERIOR TOWABILITY

"The Earthbound Difference"

Earthbound's sleek automotive styling isn't just for good looks! The innovative design team behind Earthbound started from the ground up, searching out alternative materials and construction methods to reinvent a new standard for RV design.

Superior Aerodynamics

Clean, aerodynamic lines are a necessity in automotive, marine, and aeronautical industries. Earthbound adapted these theories and sought out to create an instant "Modern Classic" design that would help mould the connection between the tow vehicle and trailer. Earthbound's aerodynamic profile reduces the exposed frontal area behind the tow vehicle, which reduces wind drag and increases fuel economy.

Lower Center Of Gravity

Earthbound sits lower to the ground for improved stability. A rubber torsion suspension system is mounted (through) the frame, not (below) the frame, and provides independent, rubber cushioned suspension for a guaranteed smooth ride.

Wide Track Axle System

Earthbound comes standard with a Wide Track Axle System (each wheel extends beyond the side wall). A wider stance improves stability when making turns at higher speeds. This is a safety feature that every RV should have!

Lightweight Luxury

A reduction of 1,000lbs in an RV can be equal to an average of 8% in fuel savings. The unique aluminum and composite Earthbound design can weigh up to 1,500lbs less than many other conventionally built travel trailers that claim to be lightweight. Earthbound's travel trailer is easily towed by many SUVs, already sitting in many families' driveways today.

LIGHTWEIGHT LUXURY, PHENOMENAL FUEL SAVINGS

"Keep it on Full, Longer"

"What impressed me was the fuel savings. I normally get 10.5 to 11.5 miles per gallon, but with your unit I averaged 13.5 to 14.5 miles per gallon."

-Phil Cummins, Apache Transport

Please see owners manual for specific towing related information.

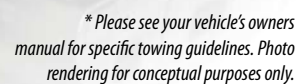

Tow With The SUV You Already Have In Your Driveway!

Earthbound has now made it possible to tow a 30ft luxuriously appointed travel trailer with the family SUV you already have sitting in your driveway! Gone are the days of needing to spend an extra 40-50 thousand dollars on a gas guzzling 3/4-ton, or 1-ton pickup to tow your dream vacation trailer. Grab your entire family and head to your local Earthbound dealer now for details!

Sunset Decor

STANDARD & OPTIONAL FEATURES

Exterior

- Seamless Aluminum Sidewalls And Automotive Clear Coat Finish
- Durable, Lightweight Thermal Pane Windows With Lift And Click Stays
- Ceramic Coated (Equivalent to R-13), 12 Volt Heated Holding Tanks
- Stamped Aluminum Rear Bumper
- Scare Light/Porch Light Combo
- Door Side Cable/TV Hook-Ups
- Exterior Speakers
- Torsion Axles
- Front And Rear Stabilizer Jacks
- Seamless, Structural Composite, Gel Coated Roof
- Large, Stainless Steel Entry Grab Bar
- Aluminum Alloy Wheels
- 15" Goodyear™ (USA Made) Radial Tires
- Matching Goodyear™ Spare Tire With Easy Access Under Carriage Mount
- Heavy Gauge (.063), Stamped Aluminum Fender Skirting
- Huge Exterior Pass-Through Storage (Composite) With Dual L.E.D. Lights
- Automotive L.E.D. Exterior Lights
- Omnidirectional Jensen™ HDTV Low Profile Antenna
- One-Piece, Fiberglass Gel Coated Front/Rear Caps W/Aluminum Inserts
- Dura-Chip-Shield™ Front Cap Protector
- Wide-Stance, X-Track Axle Stability System™
- Power Awning
- 110 Volt Recept At Awning With Interior Switch For Awning Lights

Interior

- AM, FM, CD, Photo, DVD Player With Surround Speakers And iPod™ Dock
- Interior/Exterior/Bedroom AV Router
- Composite And Aluminum Passage Doors
- Aluminum Framed, Eco-Leather Furniture
- Soft-Touch Ceiling Throughout
- High Gloss Composite And Aluminum Cabinets (No Wood)
- Earthbound Branded Centralized Command Center
- Hide-A-Bed Air Mattress/Sofa Combo (Where Applicable)
- Designer Accent Pillows
- Designer Cornice With Hard Lambrequins (Where Applicable)
- Extra Large Dinette Window
- V.O.C. Free Aluminum Wall Treatments Throughout
- Huge "Pots And Pans" Storage Drawer Under U-Shape Dinette
- Reflective Window Shades With Built in Screens

- Decorative Chrome Chair Railing
- Jensen™ HDTV ("Made for RVs") With Articulating Swing Arm

Kitchen

- Stainless Steel Power Exhaust Range Hood With Light
- Composite Drawers W/Full-Extend, Ball Bearing Guides
- Large Slide Out Pantry With Adjustable Shelves
- Stainless, Three Burner Amana™ Cook Top
- Large Rouzer™ Stainless Steel Sink
- Price Pfister™ Pull-Out Faucet
- Stainless Steel Convection Microwave
- 7cf, LP/Electric, Euro Refrigerator With Removable Freezer Compartment

Bathroom

- Residential Style Vanity Lights And Composite Medicine Cabinet/Mirror
- Euro Styled Towel, Soap Dish, Tooth Brush, And Toilet Paper Holder
- Elegant, One-Piece Fiberglass Tub Surround
- Foot Flush Toilet
- Metallic Hand Sprayer In Shower/Tub
- Power Exhaust Fan
- Large Privacy Skylight Over Shower/Tub

Bedroom

- Aluminum Framed, Lift Up Bed With Gas Struts And Large Storage Below
- Individually Adjustable Bullet Reading Lights Above Bed
- 60 X 80 Residential Queen Sized Bed With Plush Pillow Top Mattress
- "His And Hers" Hanging Wardrobes And Overhead Storage
- Coordinating Bedspread With Button Top Pillows
- "His And Hers" Night Stands With Storage Nook And 110 Outlet

Utilities

- Easy Access Docking Station Featuring:
 - A) Satellite And Park Cable Hook-Ups
 - B) Black Tank Flush
 - C) City Water Connection/Water Selector
 - D) Manifold Plumbing System
 - E) Outside Shower
- 40 Gallon Fresh Water Capacity
- 30 Amp, Detachable Power Cord With Marine Connection
- Composite LP System With Three Fully Enclosed 20# LP Tanks
- LP Quick Disconnect (For Outside Grill)

STANDARD & OPTIONAL FEATURES

- Atwood™ Propane Furnace
- 10 Gallon Gas/Electric D.S.I. (Direct Spark Ignition) Hot Water Heater
- Carbon Monoxide Detector
- Smoke Detector/ Fire Extinguisher
- 15K Fully Ducted Air Conditioner (Low Profile Available At N/C)

Construction

- Eco-Friendly, Recyclable Skins And Framing (Wood Free)
- Utilizing Low V.O.C., Family Friendly, Composite Construction Materials
- All Aluminum Framed, Vacuum Bonded Construction (Walls, Floor, Roof, And Interior Walls)
- Composite, Seamless Roof And Floors (Interior And Exterior)
- Crowned 5" Roof
- Engineered Norco™ Frame With Full Outriggers
- Independent Torsion Suspension System
- In Frame (Below Floor) Roto-Cast Holding Tanks (Insulated And Heated)

Earthbound Available Options

- Bike Rack
- Eco-Leather Valance Package
- Stainless Amana™ Propane Oven (In Place Of Convection Microwave)
- Shur-Flo™ Remote Control Bedroom Fan (In Place Of Standard Vent/Fan)
- Independent Power Rear Jacks (In Place Of Standard Rear Jacks)
- Power Front Tongue Jack (In Place Of Standard Front Jack)
- Carmanah™ Solar Power System
- Eco-Friendly Cork Flooring
- On Demand Hot Water Heater
- CSA/QAI/Z-240 Canadian Standards

Warranty

- All Earthbound Models Feature A 3 Year, Bumper-To-Hitch, *Limited Warranty

**See Owner's Manual For Specific Details. All Items Subject To Change Without Notice Or Obligation. Information Is Specific To 2011 Model Year Only. Please Contact Your Local Dealer For Up-To-Date, Specific Information, Or Contact Us At info@earthboundrv.com*

The Earthbound Difference

- 3 YEAR, BUMPER-TO-HITCH *LIMITED WARRANTY
- ECO-FRIENDLY, SEAMLESS ALUMINUM & COMPOSITE CONSTRUCTION MATERIALS
- SAFER FOR YOUR FAMILY... UTILIZING ULTRA LOW V.O.C. MATERIALS THAT WILL NOT ROT, MILDEW, OR MOLD
- SUPERIOR TOWABILITY VIA WIDE-STANCE, X-TRACK TORSION SUSPENSION, & LOWER CENTER OF GRAVITY
- UTILIZING AUTOMOTIVE, AIRCRAFT, & MARINE CONSTRUCTION METHODS & TECHNOLOGY
- INCREASED MILES PER GALLON VIA LIGHTWEIGHT MATERIALS, & EUROPEAN INSPIRED, AERODYNAMIC DESIGN
- FAMILY-FRIENDLY LAYOUTS TOWABLE BY MANY OF TODAY'S MID-SIZED SUVs
