THEY'LL KNOW YOU'VE ARRIVED

A

■ ■ ■ *Experience the Difference.*

From the time you pull in until you leave, neighboring campers are going to want to “touch and feel” your unit – inside and out. From the velvet smooth true gelcoat exterior to the plush luxury of the interior, your unit will be the benchmark by which other units are judged.

- A. Our model 3510RE is featured in this shot with Autumn Maple cabinetry and Mocha Dusk interior décor. Shown with preferred options such as Beauflor® wood grained flooring, 32 inch Jensen® LCD TV and a beautiful remote controlled electric fireplace.
- B. The extremely open “L” shaped center kitchen of the 3510RE shows off the enormous amount of storage space while providing a functional working environment.
- C. When you want wide open spaces and every home convenience you need to choose the 3455CK, here shown in Tranquility décor and our elegant Autumn Maple cabinetry.
- D. The lady of the house will be very excited to show her new model 3208FK. Storage galore and large surface countertops are features rarely seen in a front kitchen travel trailer. The beauty of maple makes this kitchen glow.
- E. The large slide-out and perfectly positioned entertainment center, complete with options such as a remote controlled electric fireplace, makes this 3208FK shown in Mocha Dusk décor, a cozy setting for the most discriminating RV'er.

■ ■ ■ *Experience the Comfort.*

A. The rear bedroom in our 3208FK features a full sized residential queen bed with pillow-top-mattress. Filled with large storage areas, deep mirrored sliding door wardrobes, this beauty is enhanced with an optional 19 inch LCD TV for your viewing pleasure.

B. The front bedroom of our 3510RE features an optional California king width bed and pillow top mattress as well as huge mirrored wardrobes, storage cabinets and an optional LCD TV.

B

C. The home-style bathroom, featured in our 3510RE, is complete with a spacious shower, porcelain toilet, vanity light bar and has an optional washer/dryer cabinet.

D. When you enter the bathroom area of your new 3208FK you realize the space saving innovations of SunnyBrook RV. This bathroom is complete with shower, porcelain toilet, storage cabinets and a built-in optional washer/dryer closet.

E. This inside view of the optional washer/dryer closet shows off the stackable washer and dryer that is available.

FEATURES

- The extra large movable "Grab Handle" is standard on all models and provides a safer assist while entering or exiting your coach.
- True Gelcoat sidewalls are standard on all Bristol Bay models.
- Triple-step entry way comes standard on all models.

- Outdoor high illumination scare lights are standard on all models.

- Main exit doors now have a sliding "clear pane" covering the door handle/lock area providing complete outside visibility — no longer do you have that solid color covering. A "Poodle Panel" is at the bottom of the door to keep your pets from scratching that nice screen door.

- True Gelcoat molded end caps are standard on all Bristol Bay Series fifth wheel models.

- Tires on all Bristol Bay Series models are filled with nitrogen. It provides improved fuel economy; tire life, braking and handling, and safety.

- Beauflor® - a new flooring dimension is resistant to mold & mildew, cold cracking, slipping and stains. The surface is highly resistant to tears, rips and gouges.

- Other brands come with cheap plastic toilets. Not a Bristol Bay Series. We offer standard porcelain foot flush toilets.

- The Bristol Bay Series features a triple 40 lb. LP tank option in the slider compartment that normally houses the standard dual 30 lb. tanks. Available on fifth wheels only.

- Individually adjustable jack stands are standard on both travel trailers and fifth wheels, providing ease of leveling and stability.

- Externally accessible propane gas port is standard and allows outdoor hookups for BBQ and Tailgating parties.

- R-7 insulated floor with 5/8" tongue and groove exterior grade plywood on aluminum floor joists is standard. Competitors typically use OSB or particle board.

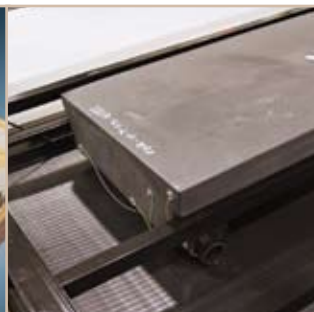

- All water lines are color coded and use solid brass fittings at every joint. This reduces the chance of waterline mixup during inspection and/or repair.

- MOR/ryde® rubber suspensions offer smoother and easier towing.

- Real, lumber core cabinet stiles (vs. cheap MDF style stiles) are screwed together to provide the best cabinetry. We also use real poplar hardwood cabinet cleating vs. cheap pine that the competition uses.

- Heated and enclosed holding tanks along with ducted floor heat, and solid steel I-beam frame are first class!

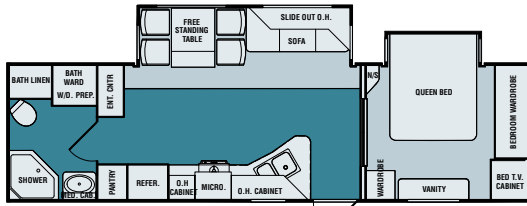

- Beefy, eight-lug hubs and Super Lube axles are standard. A Bristol Bay Series unit is built better and easier to maintain than others.

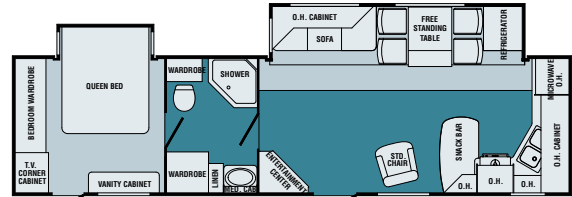

- Your Bristol Bay Series is built better. A full walk-on rubber roof is proof. Check out our aluminum superstructure!

For more, see your Bristol Bay Series dealer for details. Standards, options and specifications are subject to change.

All Aluminum Superstructure

SunnyBrook RV pioneered the all aluminum superstructure over 18 years ago, because we care about quality. You'll find more and thicker aluminum posts, cross members and roof bows than our competitors. Our lite-aluminum superstructure is screwed and glued together NOT welded. Welds can break under stress. Our bonded and screwed framing is lighter and stronger. Competitive brands use thinner posts, fewer bows, much less aluminum and sidewalls are glued to Lauan. There is a difference. Look into this before you make your buying decision. SunnyBrook RV has always kept the highest standards.
