245V RD

THE V-CROSS DIFFERENCE

Ease of towing - V-Front body style allows for less wind resistance and reduces drag on both the tow vehicle and the camper.

EQUALS

Travel Trailer

Fuel-efficient towing - is a big issue with today's buyer. One way to achieve fuel-efficient towing is by reducing wind drag on the camper and tow vehicle.

Floor Plan Design Innovation

Floor plan design opportunities are increased with as much as 75 Cubic Feet Of Space in the nose of the trailer. With this added space, traditional floor plans are enhanced.

V shaped trailers allow us to design floor plans that offer the same layout and is typically four feet shorter than conventionally designed trailers.

PREPARE FOR THE V-CROSS REVOLUTION.

Evolution is the change in the inherited traits through successive generations. When these traits evolve there is one that will stand out as the first, transcending all that have come before. V-Cross is the evolution in the new revolution of travel trailers and fifth wheels. The airbender™ front cap design allows air to bend around the front creating a dead air space on the V-nose front design. The increased velocity and the rise in pressure pushes the air out and around not allowing rain, bugs or debris to hit the front angled walls at force creating a safe zone. All this means better fuel mileage and less surface area to clean.

THE V-CROSS

V-cross travel trailers and fifth wheels are the first "full line" V-nose brand in the RV industry. This new design provides advantages in towability and aerodynamics that can not be surpassed by conventional profile trailers. In addition to these advantages, the V-Cross offers unique floor plans that can only be experienced in the V-nose design. The lack of countertop and drawer space have hindered RV's in the past. The V-cross has resolved these issues with the spacious V-front kitchen design. With V-Cross you get 75 cubic feet more living space than with a conventional trailer.

275VRL BEDROOM

THE V-CROSS SUPERLITE

THE V-CROSS SUITE

The Lack of privacy in the main bedroom in conventional trailers has been another issue that V-Cross has addressed. The private V-suite bedroom offers peace and quiet, but most of all, the privacy one deserves while on vacation. With the V-suite design, most of our bedrooms offer his and her wardrobes for plenty of hanging space. Also with the walk around queen bed there is plenty of space to get dressed or make the bed. Our customers have been asking for more room and that is what they get with V-Suite bedroom from V-Cross.

SUPER LITE 28V BH

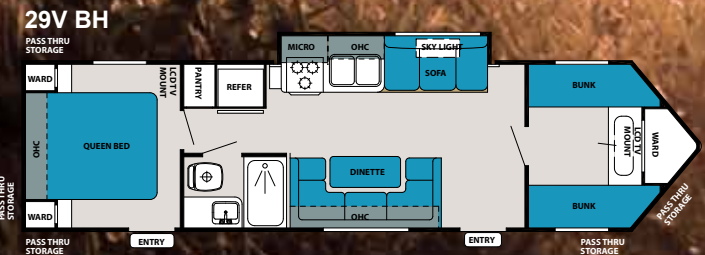

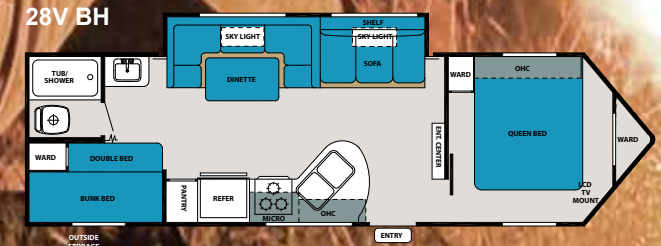

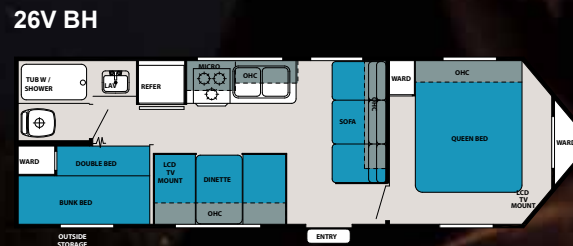

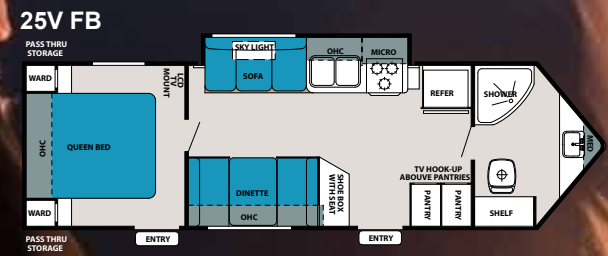

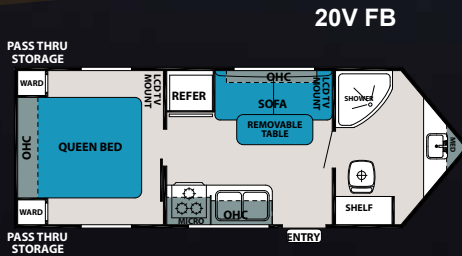

SUPER LITE 28V BH

THE V-CROSS DECOR

Our interiors are designed around a transitional approach, meaning there are smaller floral patterns, higher quality woods with less grain in the cabinets and more of a contemporary feel. We have also focused more on residential flooring that pulls the countertop and fabrics together.

Thetford porcelain free standing toilet comes standard on all models.

EcoBatt Glasswool Insulation takes the standard to a whole new level. It is based on rapidly renewable, bio-based material, up to 70% less energy intensive than traditional binders. The technology is a new and more sustainable binder that contains no phenol, formaldehyde, acrylics or artificial colors.

PEACE OF MIND Forest River has yet another exclusive feature to offer: One year of free roadside assistance will be given to every V-Cross customer. This is just one more way to say "Thank you" and to ensure an enjoyable traveling experience.

Nitrogen will stay cool at all times and will not permeate through tires which will maintain the performance of your tires. Nitrogen filled tires improve your gas mileage, increase your tire life, and provide a safe ride.

THE V-CROSS CLASSIC

The V-Cross Classic offers spacious flush floor slide-out models with features not found in the most luxurious travel trailers. Each slide room has a minimum of two standard skylights. The trailer itself has an overall 78" interior height and 75 cubic feet of added space that gives the coach a spacious and open feel. From the versatility of the exterior kitchen to the fold down rear storage rack we aim to give you more of what you want and we deliver.

FOREST RIVER ENCOURAGES YOU TO BUY LOCALLY

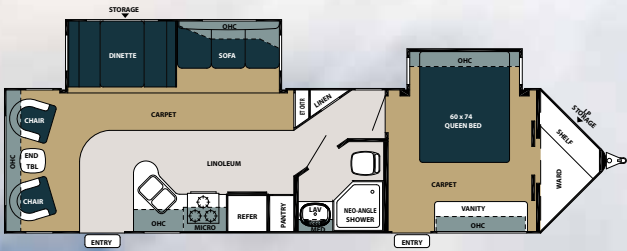

Forest River, Inc. strongly encourages our retail customers to purchase from their local dealership whenever possible due to the following factors:

- Our dealers are as a rule, independently owned and operated businesses. Outside of those customers they personally sold products to, they are not contractually obligated to perform warranty service on Forest River products that were purchased elsewhere. There may be an occasion that you would be required to return to the point of purchase to satisfy warranty requirements.
- Although many dealerships will eventually service products not purchased at their place of business, they will usually take care of their customers and other Forest River customers who are traveling away from their local dealer as they would their own.
- Local purchases allow a customer to establish a relationship with a dealer close to home. This relationship provides the customer with a convenient location for service and support from a "home town" professional.
- The opportunity for a thorough PDI (Pre Delivery Inspection) and product orientation is an additional benefit of buying from your local dealer. Further providing the opportunity for refresher courses or the ability to get questions answered much more conveniently.
- For our Canadian customers, there are also requirements which must be met to bring an RV purchased out of the country to their home. Although not insurmountable, these requirements may involve such things as additional inspections and certifications, taxes and fees. Your local Canadian Dealer is a professional at meeting these requirements.

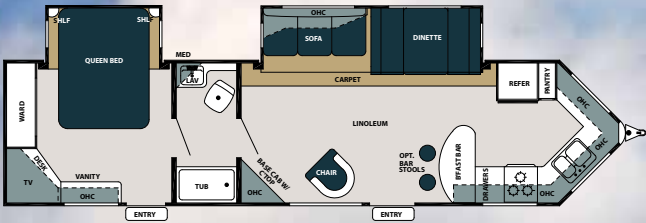

Forest River's goal is for all RV Owners to fully enjoy their RV experience. In light of this goal, and considering the advantages of buying local, we encourage you to be thorough when determining what product to purchase and which dealer to purchase it from as both are key to your ultimate satisfaction and the realization of your dreams.

(NEAT WASH MAPLE OPTION)

THE V-CROSS PLATINUM

More interior space and better designs are the norm with the V-Cross Platinum. Spacious bedrooms and bathrooms that feature porcelain toilets, shower surrounds with glass doors and standard fantastic vents. The smooth high gloss exterior, exclusive molded fiberglass cap combine to give the exterior of the V-Cross Platinum a high class look. The design of the front of every V-Cross lends itself to very unique floor plan layouts. A must see is the 32V FKS front kitchen (pictured top). It is the industries most unique floor plan available only through V-Front technology. Every V-Cross Platinum comes standard with an easy to clean high gloss solid surface countertop with flush mount sink. The Platinum offers 75 cubic feet of more space. With Platinum you will get an extra 4 feet of living space because of the V-Nose design.
