• 2700 RES - Blackberry Decor

At Prime Time, we gave our design team very specific direction when creating Tracer, *“Build a lightweight travel trailer without sacrificing style, comfort, or convenience.”* We asked them to, *“Develop floorplans that were user-friendly and desirable, but still easy-to-tow.”* We put a stake in the ground and demanded that, *“Tracer have residential features, huge windows, and premium storage capabilities.”* We said, *“Let’s break new ground and build an ultralite trailer that can be towed by a mini van and still be practical and convenient.”* There was one rule when we designed the Tracer Ultralite - *“No Sacrifices!”*

The Tracer Executive represents the pinnacle of ultralite innovation featuring wide open, spacious layouts that are often thousands of pounds lighter than traditional floorplans. The Executive Series offers premium upgrades like solid surface countertops, a 26" LCD television, slam latch baggage doors, and a Universal Docking Station. Of course, great looking, residential styling and durable fabrics are standard features on every Prime Time recreational vehicle. Now you can have all the features and the floorplan of your choice in a lightweight easy-to-tow Tracer Executive.

The 3150 BHD is one of our most popular floorplans for hundreds of reasons. On the inside, the popular Sleep & Play is well designed for family fun during the day and functional, comfortable sleeping at night. The Outdoor Kitchen with innovative Swing Arm Grill ensures that convenience is never out of reach with its huge 4 cubic foot refrigerator, easy-to-store 2 burner range, running water, and sink bowl.

## PRIME TIME MANUFACTURING ENCOURAGES YOU TO BUY LOCALLY

Prime Time strongly encourages our retail customers to purchase from their local dealership whenever possible due to the following factors:

- (1) Our Dealers are as a rule, independently owned and operated businesses. Outside of those customers they personally sold products to, they are not contractually obligated to perform warranty service on Prime Time products that were purchased elsewhere. Often times, you may be required to return to the point of purchase to satisfy warranty requirements.
- (2) Although many dealerships will eventually service products not purchased at their place of business, they will usually take care of their own customers first with additional priority given to transient owners who are traveling away from their home dealership.
- (3) Local purchases allow a customer to establish a relationship with a dealer close to home that offers many benefits:
  - The opportunity for a thorough PDI (Pre Delivery Inspection) and product orientation.
  - Quick and convenient service and warranty scheduling.
  - Access to yearly maintenance and service refresher courses.
  - The ability to get questions answered quickly and conveniently.
- (4) For our Canadian customers, there are also requirements which must be met to bring an RV purchased out of the country to their home. Although not insurmountable, these requirements may involve such things as additional inspections and certificates, taxes and fees. Your local Canadian Dealer is a professional at meeting these requirements.

Prime Time's goal is for all RV Owners to fully enjoy their RV experience. In light of this goal, and considering the advantages of buying local, we encourage you to be thorough when determining what product to purchase and which dealer to purchase it from as both are key to your ultimate satisfaction and the realization of your dreams.
