CANYON TRAIL

YELLOWSTONE RV
Since 1948

YELLOWSTONE

SMART BY DESIGN.

OWNER APPROVED. SINCE 1948.

With a rich history dating back 64 years, Yellowstone RV is reborn with a new vitality. We provide more luxury features and appointments at competitive prices with high-end construction and innovative designs. Yellowstone is a breath of fresh air that you will appreciate for many years to come.

SB-1500 shown on 5-1/2' short bed truck

Canyon Trail XLT SB-1500 — Our competitively priced, short, agile, high-value half-ton towable fifth wheel designed specifically for tight turns even with 5 ½ ft. bed trucks and 24" side rails, without the need and expense of a slider hitch.

Canyon Trail XLT — Aerodynamic mid-profile roof line for smooth tracking combined with an attractive lower front height for reduced wind resistance, better handling, and light weight for improved fuel economy! Optional wardrobe slides added for more spacious bedroom and storage.

Canyon Trail Advanced Profile — Unique fifth wheel featuring flush floor bedroom with 6'2" ceiling height at the front closet, giving you a unique choice between traditional "mid profile" and full height units, with a lower overall exterior height than a full size fifth wheel. Light weight (many are ½ ton towable), with up to four optional slides per unit available.

Canyon Trail Aztec Luxury Edition — This luxury package available on all Canyon Trail products transforms the Canyon Trail into a unique fifth wheel with a metallic silver exterior, beautiful graphics, and luxurious interior upgrades, providing value, uniqueness and high quality appointments.

Canyon Trail XLT Travel Trailer — Strictly "high end," the Canyon Trail Travel Trailer can provide four seasons livability, luxury features, top of the line unparalleled construction, "built to last" with a maximum yield insulation package. These are fifth wheels without the steps to the bedroom – not a light weight travel trailer – essentially a travel trailer featuring fifth wheel floor plans utilizing flat floor design for the discriminating buyer.

XLT SB-1500

26FSBH SHOWN IN COPPER

XLT SB-1500 available in 25' to 27' lengths; floor plan 26FSBH with a wrap around booth dinette shown here with optional solid surface countertops.

Yes, your short bed pickup can tow, turn and maneuver our agile XLT SB-1500 units with ease. All feature six-sided welded cage construction, luxurious furnishings, glazed maple cabinetry, generous countertops, spacious slides and owner-proven floor plans.

Floor plan 30FSES shown here, with swivel rockers, hide-a-bed sofa with reversible cushions, freestanding table and chairs, solid surface countertops and a 32" LCD TV.

The Canyon Trail XLT takes your lifestyle to a new level of luxury, combining wide-open living spaces and luxurious private retreats. Well insulated with fiberglass expanded urethane and polystyrene insulation. Furnished with high-end fabrics, furniture and glazed maple cabinetry, the XLT reaches new heights of comfort and luxury while delivering the kind of value no competitor can match.

SPACIOUSNESS

The Canyon Trail living area features residential comforts like coordinating swivel rockers or recliners, an expandable dinette table with a top that slides and swivels and built in storage everywhere you turn. Our spacious kitchen features residential stainless steel sinks, high arching faucet and are available with optional solid surface countertops. You'll truly enjoy the wide open spaces of Canyon Trail!

Vineyard

INNOVATION The Canyon Trail living area features excellent overhead storage cabinets with decorative glass inserts, plenty of lighting, extra-wide windows and pleated night shades. Our slide room ceiling height is 6'2" vs. the 5'10" height found in many other brands; main living area ceiling height is 7'! Our luxurious interior appointments surround you in comfort.

SUPERIOR CONSTRUCTION

ROOF

1. Crowned Roof improves drainage
2. Attic Vent for improved moisture control
3. Seamless One-Piece Rubber Roof with 12-Year Warranty
4. 1/2" Roof Decking
5. Thick Blanket of Fiberglass Insulation (R-14 std. R-38 with Extreme Weather Insulation Package)
6. 5" Bowed Roof Trusses - 16" on center

SIDEWALL

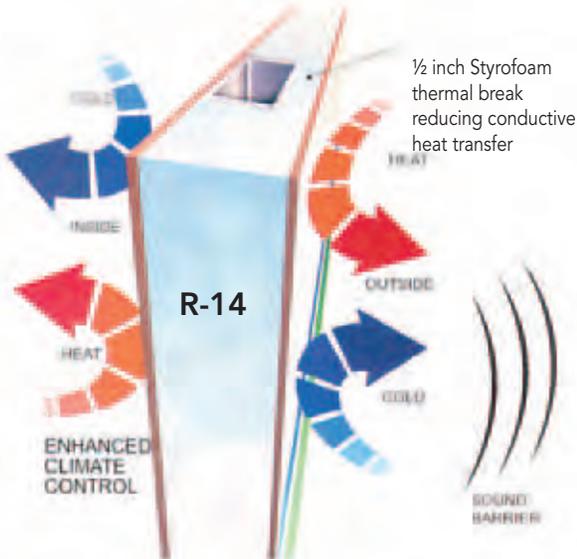

7. Vacuum Bonded Sidewall with Fiberglass Exterior
8. Thick Luan Panel Backer
9. High-Density Block Foam Insulation (R-14 with Thermal-Barrier Construction)
10. Welded Aluminum Wall Studs
11. Full Radius Fender Skirt Metal

FLOOR & SUB-BASEMENT

12. 5/8" Seamless Floor Decking
13. 3" Floor Joists - 16" On Center
14. Protective Vapor Barrier
15. 8" - 12" I-Beam Main-rails with Durable Protective Coating
16. Enclosed and Heated Durable Rotocast Tanks
17. Heated Basement
18. 100% Enclosed and Heated Underbelly
19. Spaced Rod and Angle with Z-Bar Supports
20. R-38 Enclosed Heated Holding Tank Compartment

Thermal-Barrier Sidewall Construction

1/2 inch Styrofoam thermal break reducing conductive heat transfer

Canyon Trail's unique sidewall construction used on all our products is constructed with welded aluminum, solid 2" wall of two pound density polystyrene.

OPTIONAL EXTREME WEATHER PROTECTION PACKAGE INCLUDES:

Roof (R-38)

- Fiberglass roof insulation between 5" crown full height rafters (R-14).
- Continuous triple layer vapor barrier.
- Attics vents just like your home.
- Radiant technology insulation which provides up to R-38 or more depending on outside ambient temperature.

Sidewalls (R-14)

- R-14 composite wall construction using 2 lb density polystyrene construction.

Endwalls (R-14)

- R-14 batten insulation

Floor (R-32)

- Triple insulated Floor
- R-14 Batten insulation encapsulated in floor cavity
- Double layer vapor barrier providing 97% reflective heat technology
- R-14 radiant heat technology
- R-38 separate heated holding tank area
- Fully enclosed heated basement, tanks and dump valves
- R-14 fully insulated bath and bedroom floor decks
- Canyon Trail exclusive insulated R-14 frame rails to reduce thermal conduction

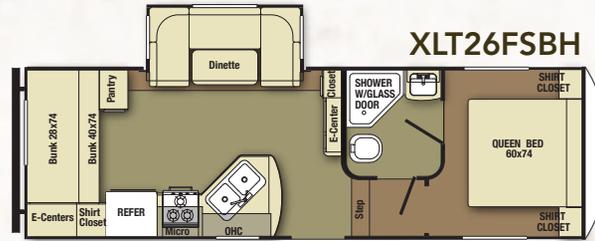

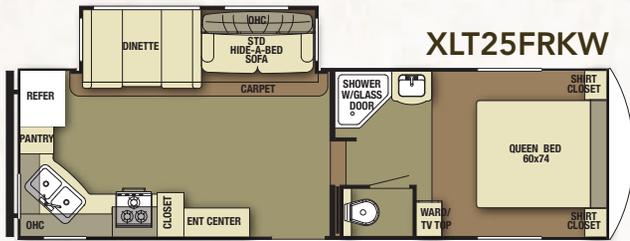

24 MONTH WARRANTY
ON STRUCTURAL & ELECTRICAL COMPONENTS

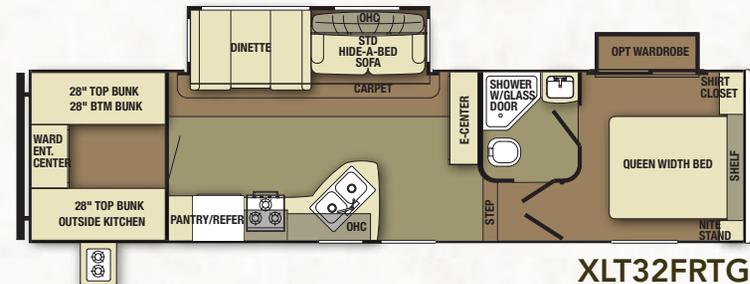

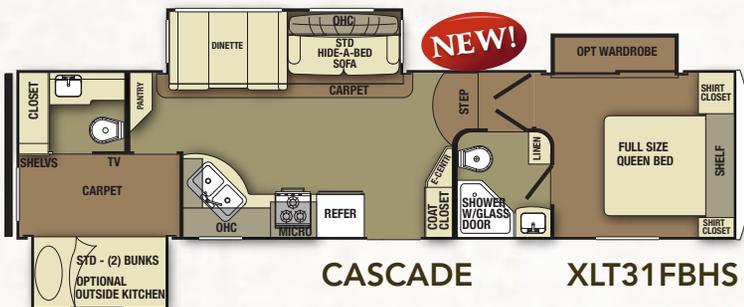

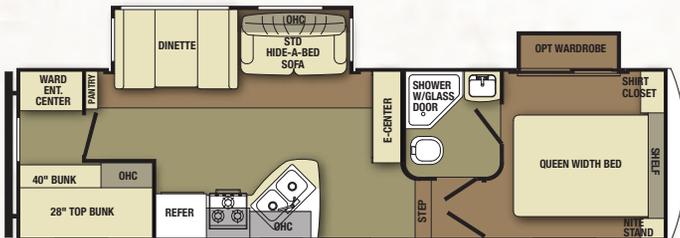

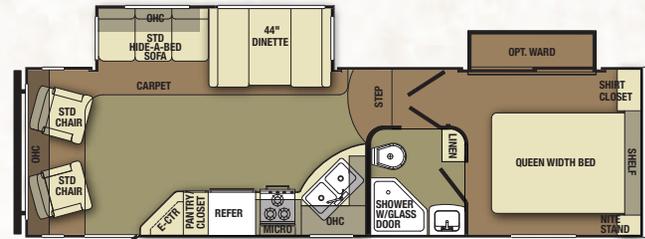

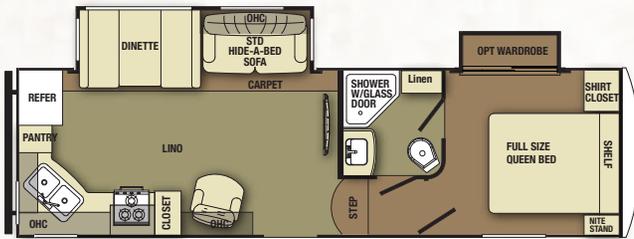

See official written Yellowstone Warranty for complete details and restrictions.

Canyon Trail Exceptional Value...
Yellowstone and its parent company have been awarded the prestigious platinum recreational vehicle manufacturer quality and productivity award recognizing a proven and documented commitment to producing the highest quality fifth wheels and travel trailers in the industry.

With a rich history dating back to 1948 Yellowstone, known for superior insulation, great storage and innovative floor plans was acquired in 1987 by one of the largest family owned, independent manufacturers in North America. Located in the heart of the Amish country, the Yellowstone facilities are self contained and part of a 200 acre complex and utilize state of the art manufacturing technology.

Yellowstone employees are continuously trained on quality innovation fostering the most creative and innovative culture in the RV industry. Yellowstone's employees have not only the rich history of Yellowstone, but the stability of a tenured workforce. In fact, Yellowstone still has an employee who worked in the original Yellowstone facility as far back as 1967.

Yellowstone, with over a quarter of century of manufacturing experience by hands-on family management team, is the premier manufacturer

of high quality and high value fifth wheels and travel trailers that are distributed through a network of independent dealers who are trained and focused on exceeding customer expectations throughout North America.

Your family and friends will feel safe and comfortable in a Yellowstone fifth wheel or travel trailer. Not only does Canyon Trail offer the best insulated four seasons livable RVs in the world, every customer is assigned their own Yellowstone contact in case they ever need service in North America. Canyon Trail customers are equipped with toll free numbers and e-mail addresses of their personal contact, so no matter where they are in North America, they can easily be directed to a Canyon Trail service center in the event service is needed on the road. Compare and you will see the exceptional value of a Canyon Trail fifth wheel and travel trailer.

1948

● First Yellowstone built

1950s, freeway era begins

1960

● 1963, cassette tape player invented
