THE INTELLIGENT FIFTH WHEEL

2

Sanibel... The Intelligent Fifth Wheel!

» **in-tel-li-gent**, adj. smart; clever; sensible or rational; showing or resulting from an ability to think and understand things clearly and logically.

Prime Time Manufacturing is proud to introduce Sanibel – a luxury fifth wheel built to stand unequivocally on its own with a level of intelligence that far exceeds the status quo. Our objective for Sanibel is simple: to outperform by every measure and to invoke an experience that anticipates and satisfies your every need with thoughtful and intelligent design. From its well designed, spacious interior, to its modern amenities and extra creature comforts, the Sanibel is your home away from home.

Within minutes of entering, Sanibel can transform you. The interior is crafted around comfort, sight, and convenience. Modern cabinetry, residential appointments, and rich textures create a sophisticated space of warmth and elegance. Fabrics are specially treated to provide the softest touch and breathability for comfort in heat or cold. Every element of Sanibel will create a personal connection with the user that focuses on enjoyment and satisfaction.

» Photos show the Sanibel 3500 in Toffee Décor.

The Intelligent Lighting Package

When choosing lighting for Sanibel, we took the same uncompromising approach to intelligent design. For instance, the "Stay Cool" LED lights found at the critical seating areas offer both a stunning presence and smarter thinking. Along with lower energy consumption and longer life, the LEDs emit significantly less heat helping to maximize your comfort both day and night.

4

The Intelligent Kitchen!

The Intelligent Kitchen is symbolic of the genius behind Sanibel's inspiration. Work spaces and storage areas have been carefully designed and positioned for instinctive reach and use. Premium components have been selected for long term durability. An advanced appliance package will indulge your residential desires while brilliant cabinet doors and drawers made from Native American Cherry Wood will welcome you with handsome looks. The Intelligent Kitchen, like each and every detail of the Sanibel, has been examined and questioned to ultimately provide a single result – the highest level of owner satisfaction.

5

The Intelligent Bedroom

The expansive interior of the Sanibel was astutely designed to adapt its volume to your needs. A quick examination under the king size bed will expose a massive storage area that is up to 300% larger. Shoe storage in the wardrobe, six large vanity drawers, and multiple overhead cabinets are additional examples of intelligent space utilization. However, the creation of space was also a priority with Sanibel. That's why you will find extra "convenience inches" in the bed slide and large "hidden" drawers recessed into the front wall. Our designers even added radius corners to the pillow top mattress to assist in traffic flow.

» Sanibel's innovative "Quiet Cool" ducted return air conditioning system is truly an intelligent feature that will dramatically improve your comfort and convenience. Similar to what you would find in your home, Sanibel has designed return air ducts that pull air from both sides of your RV creating up to 25% more efficiency. Since the return air is no longer required on the bottom of the air conditioner, the unit can be fully sealed on the bottom, reducing condenser and blower noise by 75%.

» Sanibel extends intelligent design to all parts of the fifth wheel including how the holding tanks are heated. Each tank is equipped with oversized ① 12 Volt heating pads for direct heat application. Every tank is then wrapped with ② Radiant Shield Technology (R-38) to help spread the heat over the tank surface while protecting it from cold exterior temperatures. This intelligent design ensures that ALL of your holding tanks are adequately protected while also ensuring that ALL of the heat from your furnace stays INSIDE your Sanibel to maximize your comfort. Unlike forced air applications, customers also appreciate that you can activate the heat pads during transit for additional protection.

6

Roof Construction (R-52)

- » 1. Dual Attic Vents
- » 2. Heavy Duty EPDM Rubber Roof with 12 Year Warranty
- » 3. Walk-on Roof with 3/8" Decking
- » 4. Radiant Shield Technology (R-38)
- » 5. Two Layers of Fiberglass Insulation (R-14)
- » 6. 5" Snow Load Approved Rafters on 16" Centers
- » 7. 1/8" Plywood
- » 8. Stain Resistant Vinyl Ceiling

Attic Vent

Floor Construction (R-52)

- » 1. 12" I Beam Powder Coated Frame (Most Models)
- » 2. Enclosed Underbelly
- » 3. Radiant Shield Technology (R-38)
- » 4. "Floor Brace" Structural Enhancement Vapor Barrier
- » 5. 1/8" Plywood
- » 6. 3" Heavy Gauge Aluminum Floor Joists
- » 7. 3" Hi-Density EPS Foam (R-14)
- » 8. 1/8" Plywood
- » 9. 5/8" One-Piece Floor Decking
- » 10. Residential Grade Carpet Pad
- » 11. Deep Pile Residential Grade Carpeting
- » 12. Enclosed and Heated Galley Water Lines
- » 13. In-Floor Straight Line Heat Ducting

The Intelligent Suspension!

Suspension

- » 1. 16" Aluminum Wheels
- » 2. Upgraded Radial Tires
- » 3. "SUPER LUBE" Axle Hubs
- » 4. Heavy Duty 8-Lug Hub Face
- » 5. Equa-Flex™ Rubberized Suspension
- » 6. Nine Point "Wet" Bolt Assembly
- » 7. Heavy Duty Brass Bushing Assembly
- » 8. Heavy Duty 1/2" Shackle Plates
- » 9. Heavy Duty Gas Shocks (4)
- » 10. Heavy Duty 7,000 lb. Axles (Most Models)

Sidewall Construction (R-14)

- » 1. "Dura Gloss" Hi-Temp, Gel Coated Fiberglass
- » 2. First Layer of 1/8" Plywood
- » 3. Second Layer of 1/8" Plywood
- » 4. Hi Density EPS Foam
- » 5. Heavy Gauge Aluminum Framing
- » 6. Interior Layer of 1/8" Plywood Decor Board
- » 7. Strategically Placed Sheet Metal Backing Strips
- » 8. Aluminum Framed Window, Door, and Baggage Cut-Outs
- » 9. Radius Corner Blocks

Over the Road Intelligence

When you take to the highway in Sanibel, your safety is a priority. Name brand radial tires offering high load capacities are mounted on your Sanibel with automotive style 8-lug wheel hubs. Inside the Super Lube hubs, you will find extra large brakes to maximize your ability to stop. Since you NEVER want to be broken down on the side of the road, your peace of mind is assured with a long list of "Best In Class" suspension features that offer heavy-duty dependability that will, in turn, provide years of reliable, stress-free towing.

Using a "no compromises" attitude, Sanibel's Super Turn front cap features a combination of industry-leading turning radius and advanced aerodynamics not normally found on high-profile luxury fifth wheels. Whether you are backing into tight campsites or maneuvering the city streets, Super Turn's uniquely engineered design will provide for an amazing 88 DEGREE TURNING RADIUS even on a short-bed, extended cab truck. You will also find that the Super Turn front cap has a soft, multi-contoured design that will cut through the wind to further enhance your towing experience while also improving your fuel economy.

The Intelligent Thermal Package!

With an impressive list of construction innovations, Sanibel is creating a new standard for four season living. To prove the worthiness of Sanibel's intelligent design, we partnered with a world leader in heating and cooling technology – Dometic Corporation – and subjected a Sanibel to rigid testing in their famous extreme temperature test chamber. During the test, with temperatures below zero degrees, every room inside the Sanibel remained warm and comfortable.

Of course, inside temperatures are only part of the story. With our Intelligent Thermal Package, all the holding tanks and dump valves remained completely operational and the enclosed and heated galley water lines remained completely functional.

Not everyone needs this kind of protection, but when four season comfort becomes important, make an intelligent choice – ask for a Sanibel.

Forest River, Inc. encourages our customers to purchase their Forest River products from a local dealership whenever possible for the following reasons:

- 1) Forest River, Inc. dealers are independently owned and operated businesses so priority service and scheduling is at their discretion and is often provided to customers that purchased their unit at that dealership.
- 2) Purchasing locally allows customers to establish meaningful relationships with a dealer, enhancing the RV experience through assistance with product questions, user tips or RV regulations for your state or country, and much more!
- 3) Canadian customers must meet requirements to bring an RV purchased out of the country to their home. These requirements may involve additional inspections and certifications, taxes and fees. Your local Canadian Dealer is a professional at meeting these requirements.
- 4) Scheduling timely warranty repairs and adjustments through a local dealership provides far greater flexibility and convenience to you, the customer!

It is the goal of Forest River, Inc. that all of our RV owners fully enjoy the RV experience and that customer satisfaction meets or exceeds their expectations!
