Hybrid Camping Trailers

Camping on Easy Street

VIKING

Presenting the all new 2012 Viking Hybrid Camping Trailer. Rebuilt from the ground up in ways you can see – new aerodynamic styling for ease of towing, full width stone guard to protect your investment, and radial tires for the safety you need and desire. These are but a few of the new features you will enjoy with your new Viking!

Features You Can't Live Without

Sliding Storage Trunk (SST)

New E-Z Swing Galley (Legends and V-Trec)

Optional Sony® AM/FM/CD Stereo with MP3 Hook Up

Exterior Utility Shelf

◀ **NEW One-Piece Entry Door**
The one-piece door features a friction lock door panel that allows finite adjustment for air and sunlight.

E-Z Swing Stepper Door

Stabilizer Jack

Optional Power Lift

Optional Weber® Q® Grill

Optional Dometic® Refrigerator

Optional Modular Cassette Potti with Electric Flush

Retractable Clothes Bar (Legends and V-Trec)

THE VIKING

Difference.

Construction & Features Competitors Can't Match

Dura Tuff Roof

A. One Piece Seamless Skin

B. Dura Tuff Wood Protective Layer

No one else includes the extra wood layer between the top skin and internal foam that provides stiffness and reduces the probability of damage due to hail, road debris, etc.

C. Foam Roof Structure

D. Steel Reinforced Wood Frame

The roof is framed with steel supports to accept A/C on all models without extra reinforcement.

- Roof vent is placed off to the side so the A/C can be center-mounted without having to remove the vent. This design allows you to have both the vent and A/C.

Wide Trac Suspension

Better safety and stability on the road.

- Widest stance of any folding camper
- Improves towing safety and stability
- Stronger axle beams than most competitors
- Steel frame with automotive E-coat finish. E-Coat is a 12 step cleaning and finishing process that applies multiple layers of protection to fully penetrate and coat INSIDE and OUT. Powder coating used by some competitors cannot cover inside surfaces.

Roof Side Z-Rail Channels water away.

- Z-Rails on roof perimeter and sidewalls keep wood above water level collection points.
- Others use U channel where wood and water can come in contact at the bottom of the channel.
- Channels are kept open to allow water to run out like a gutter.
- Others attempt to seal channels to keep water out; when the seal is compromised, water will collect and cannot escape.

1. Roof's Outside Skin
2. Body's Outside Skin
3. Water tight Seal
4. Z-Rail channels water away from wood

1-1/4" Laminated Insulated Bunkend

- Double the industry standard thickness
- Solid wood, steel reinforced frame filled with 1" thick high density foam and laminated with wood panel on top and bottom
- Yields a more stable bedend vs. chipboard or spliced plywood used by other brands
- Insulation improves comfort and warmth

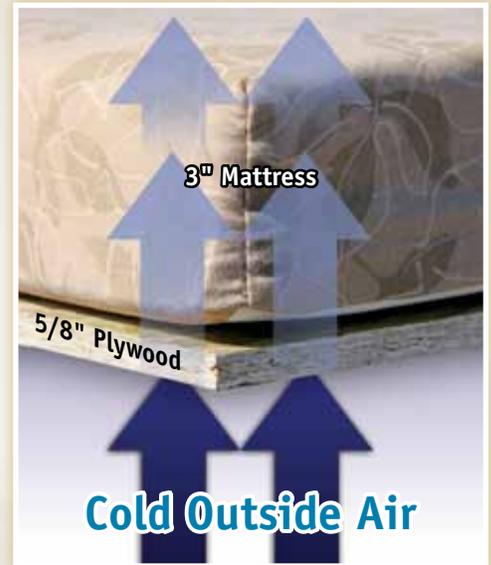

Optional 20M BTU Suburban® Furnace with forced air, electronic ignition and thermostat control. **Largest heating capacity of any folding camper.**

Viking Standard

Competition

VIKING FEATURES

VRX-14 Supreme Tent with storm cuff and tinted windows (no cuff on 1706)

Portable in/out dinette table

4" upholstered cushions

Z-rails channel water away

Patio light (except 1706)

Fantastic Fan™ power roof vent is standard on all models (except 1706).

Low profile tongue jack

AL-KO® Ultralube axle bearing. Easier maintenance for improved safety.

Aluminum wheels (Standard on Legend & V-Trec)

Goshen Stamping double-wide lifter post with limited lifetime warranty

"Glide-N-Lock" bed system is the only cable-supported bed system in the industry. Simply pull out the beds until they lock into place. No more awkward poles to contend with!

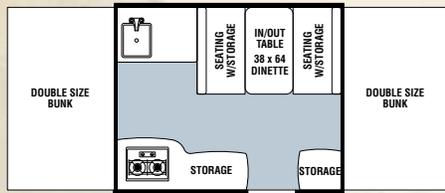

Standard heated mattress features a Sunbeam® heating element. (Opt. on 1706, 1906 & 1906ST)

One piece undercoated floor

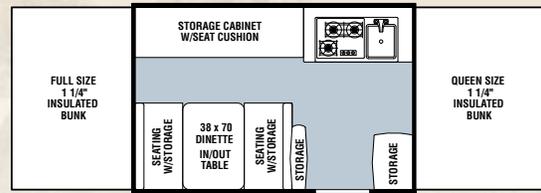

Lined drapes for improved privacy

Forest River Encourages You to Buy Locally

Forest River, Inc. strongly encourages our retail customers to purchase from their local dealership whenever possible due to the following factors:

- Our dealers are, as a rule, independently owned and operated businesses. Outside of those customers they personally sold products to, they are not contractually obligated to perform warranty service on Forest River products that were purchased elsewhere. There **may** be an occasion that you would be required to return to the point of purchase to satisfy warranty requirements.
- Although many dealerships will eventually service products not purchased at their place of business, they will usually take care of their customers and other Forest River customers who are traveling away from their local dealer as they would their own.
- Local purchases allow a customer to establish a relationship with a dealer close to home. This relationship provides the customer with a convenient location for service and support from a "home town" professional.

- The opportunity for a thorough PDI (Pre-Delivery Inspection) and product orientation is an additional benefit of buying from your local dealer, further providing the opportunity for refresher courses or the ability to get questions answered much more conveniently.
 - For our Canadian customers, there are also requirements which must be met to bring an RV purchased out of the country to their home. Although not insurmountable, these requirements may involve such things as additional inspections and certifications, taxes and fees. Your local Canadian dealer is a professional at meeting these requirements.
- Forest River's goal is for all RV owners to fully enjoy their RV experience. In light of this goal, and considering the advantages of buying local, we encourage you to be thorough when determining what product to purchase and which dealer to purchase it from as both are key to your ultimate satisfaction and the realization of your dreams.

Limited Warranty

- Lift System - Lifetime
- Vinyl Tent - 5 years
- Roll Out System - 5 years
- Frame - 5 years
